Authors and Subjects ,1880 *El norte entre algodones* Luis Aboites Aguilar,2013-10-30 Esta obra propone que a partir de 1930 el algodón hizo una gran contribución al poblamiento del norte mexicano favoreciendo la formación de mercados de trabajo y de tierras propiciando la movilidad social impulsando la urbanización y dio lugar a un optimismo desbordado entre las oligarquías norteamericanas. También da cuenta de que el episodio algodonero mayoritariamente norteño obedeció sobre todo a la conexión con el mercado mundial.

The Pan American Book Shelf ,1943 Communist Psychology in Argentina Luciano Nicolás García,2022-10-18 This book presents an intellectual history of the reception of Soviet psychology in Argentina as part of the communist scientific culture promoted by the Argentine Communist Party. This research reconstructs the material conditions, the political conjunctures and disciplinary disputes that allowed the international circulation of the works and ideas of Ivan Pavlov and Lev Vygotsky and analyzes how pavlovism and vygotskianism impacted psychology, psychiatry and the wider mental health field in Argentina between 1935 and 1991. Starting in the 1930s a group of professional scientists and intellectuals who belonged to the Argentine Communist Party introduced Soviet psychology in Argentina as an effort to promote the philosophical and political principles of Marxism-Leninism in Argentinean psychological and psychiatric academic circles as well as in mental health institutions. This book shows how the efforts of this group contributed to the diffusion of communist scientific ideas and practices in South America as part of a transnational circuit of communist scholars and intellectuals that included France, Spain and the USA, which fostered scientific exchange and politicized science during the years of antifascist struggle and the Cold War.

Communist Psychology in Argentina: Transnational Politics, Scientific Culture and Psychotherapy 1935-1991 will be of interest to historians of psychology and psychiatry concerned with the study of the relationship between Marxism and psychology in the 20th century as well as to historians of science in general attentive to the study of the circulation of scientific ideas as the book reconstructs the networks of the international communist movement as an effort to provide a scientific basis for the development of a socialist program in different parts of the world.

language learner with the ability to start reading news in the particular foreign language to be able to read only in the foreign language and extract enough understanding to continue the language learning process fruitfully this way A reader might like to go back to reading dual language news for reinforcement and further development returning to foreign language only news with a deeper understanding By going back to the same old news you are going over words word patterns and passages with which you already have a certain familiarity The process of reinforcement learning or retaining of what is new and exposure to what is unfamiliar is much easier this way even though the news may seem a little dated The aim of informing the reader about actual news is secondary especially given that the content will become less current and less relevant over time If you are having trouble with the level of difficulty in the text a suggested path for learning languages is as follows Familiarise yourself with a basic language instruction book or re read the one you have Once a student has studied the basics a suitable book about basic grammar can be helpful The suggestion is that any grammar book be studied more with the intent of recognition and understanding rather than memorising and obsessive rote learning Go through as much of the grammar book you feel you can digest maybe even the whole book skipping over what is not easily understood After this read through a portion of text in a book called Spanish Sentences by 2LanguageBooks looking for examples of what you have picked up or gleaned in your hopefully not so arduous study of grammar Even repeatedly seeing a word that you remember seeing listed as a subject pronoun or a third person plural verb of some sort is a great help Then depending on your inclination return to the grammar book or your basic Spanish book or move on to lengthier bilingual text like in 2Language Books texts containing news or stories for example or find some suitable Spanish text a simple novel a Spanish news website etc Grammar books will likely have some verb charts However there are currently good on line resources that go further dictionaries with a verb conjugation search option Many basic language books offer some form of audio support Internet services primarily news based radio stations offer podcasts Audio from television is an additional resource and can be formatted for use on various digital platforms However if audio is an important component of your interest in languages electronic devices that support quality text to speech TTS will likely be appealing With a library card TTS technology in a device that supports the relevant content and the above mentioned resources an entire language learning system is available for not much more than a cup of coffee There is no substantial financial outlay to get you started Furthermore there are no additional ongoing fees and updates and there are no expiry dates on premium content and resources A Dual Language Book Project 2Language Books TÚ ERES PEDRO Mario Madrid-Malo Garizábal,2005 *Selecciones de Matematicas Aplicadas* Max H.
