Luftwaffe Im Focus Edition 26 Axel Urbanke, 2017

Luftwaffe Im Focus, Edition 29 Axel Urbanke, 2019

Luftwaffe Special Weapons 1942-45 Robert Forsyth, 2021-06-10 A highly illustrated study of some of the weapons developed by Nazi Germany to equip the Luftwaffe in their desperate war against the encroaching Allied forces. As the course of World War II turned against the Third Reich after Stalingrad, some of the most inventive and radical proposals and designs were put forward by armaments manufacturers, scientists and technicians, aircrew and even private individuals to the Reichsluftministerium (German Air Ministry) for consideration. Some proposals were destined never to leave the drawing board, while others not only underwent trials but were issued to operational units and used in action. In this fascinating new book, leading Luftwaffe historian Robert Forsyth examines the many different types of weapons that comprised the Luftwaffe's increasingly potent arsenal during the second half of the war. This was the period that saw the development and adoption of aerial torpedoes, wire-guided rockets and missiles, batteries fired by photoelectric cells, chemical weapons, composite bombers and air-launched flying bombs.

Luftwaffe Viermot Aces 1942-45 Robert Forsyth, 2022-09-15 A full account of the German airmen who achieved ace status by destroying Allied bombers. Viermot Aces were pilots who shot down five or more USAAF and RAF bombers during the daylight Defence of the Reich missions from May 1942 through to VE Day. This book tells the complete story of the men and the planes that challenged the great bomber offensive. Flying a number of different aircraft, including the Bf 110G, Me 210 and the Me 410, they fought their desperate battles against the numerous machine guns of B-17s and Lancasters. This book also covers the jet aces that flew the Me 262 jet-powered interceptors in the closing days of the war to wage a desperate last-ditch fight against the endless Allied bomber fleets.

Luftwaffe Bomber to Nightfighter Arnold Doring, 2024-06-30 This book offers the reader thrilling action-packed snapshots of life as a Luftwaffe nightfighter pilot. Suddenly, flash bombs to my right. I instantly dive low to avoid being a direct target. We stay down close above ground before too long. Life returns in the area and we spot men milling around. Richard and Pitt let them have it but good. We're down to our last bit of ammunition. Some Russians have frozen in fear, others lift their arms, others still lie flat on the ground. Not a single one remembers to get up and fire. On 21 June 1941, assigned to Luftwaffe bomber wing Kampfgeschwader 53, the 23-year-old Arnold Doring took off to fly his first mission against the Soviet Union on the Eastern Front. From that day, he kept a diary describing his operations in vivid detail. These diaries, here translated into English for the first time, give a unique perspective on the action on the Eastern Front from the point of view of a bomber pilot. Doring's accounts not only give technical aspects but are also filled with suspense and excitement with their close descriptions of bombing raids and narrow escapes from enemy fighter planes. This unembellished account gives an honest and meticulous record that moves rapidly from one area to another, from one operation to the next. With a detached professionalism, Doring offers us thrilling action-packed snapshots of life as a Luftwaffe nightfighter. Doring flew a total of 392 aerial attacks and was

awarded the Knight's Cross in April 1945 Jagdgeschwader 7 'Nowotny' Robert Forsyth,2011-03-15 An illustrated account of the infamous Me 262 and its pilots in the dark days of 1945 containing previously unseen photographs ALSO AVAILABLE AS AN EBOOK When the revolutionary Messerschmitt Me 262 jet fighter first appeared in the skies over northwest Europe in mid 1944 it represented one of the greatest challenges to Allied air superiority The first group to solely fly jet fighters Jagdgeschwader 7 was tasked with wresting back command of the skies Put almost immediately into action despite fuel shortages poor training and problems with the jet engine victories quickly followed against both US and British aircraft By the end of the war the Jagdgeschwader had claimed nearly 200 enemy aircraft destroyed in daylight bomber raids during 1945 This book follows the history of the JG 7 unit examining how their courage determination and the most advanced aircraft in the world were simply not enough to ensure victory In the final section of the book Robert Forsyth details how JG 7 were eventually defeated by gradual losses restricted operating conditions lack of fuel and overwhelming Allied fighter strength Vermisst Jonathan Nicholas,2023-05-28 Young Paul Goetz loves aeroplanes and so joins the Luftwaffe as soon as he can Like so many he's taken in swept along in the unquestioning tide of excitement keen to be airborne as a fighter pilot
