Lugares Comunes:

Diccionario de lugares comunes Gustave Flaubert, 2006-01-09 Esta pequeña joya considerada como el libro flaubertiano por excelencia fue el proyecto más largamente acariciado por su autor. Durante treinta años fue escogiendo, desechando y afinando las entradas de que debía constar este tan peculiar diccionario escrito contra los típicos amasados por la burguesía francesa del siglo XIX. El consenso general expresado en los lugares comunes de este libro corresponde a una forma de pensar emergente que por primera vez en Europa esbozaba lo que medio siglo después daría lugar a la rebelión de las masas y más adelante a la omnipotente opinión del hombre de la calle. La lucidez del escritor no puede dejar de lado el fracaso que ante sus ojos críticos empieza a cosechar una democratización del saber confundida con la fijación de saberes superficiales. Esa pereza mental generalizada fue el enemigo público número uno de Flaubert. La llamada de atención de este Diccionario mantiene aún su vigencia y desde luego con una resonancia inquietantemente amplificadas por los poderosos lugares comunes del mundo contemporáneo.

Lugares comunes del modernismo Mauricio Souza Crespo, 2003

Medios, pantallas y otros lugares comunes Lisa Block de Behar, 2009 Si hasta hace no mucho el lugar común oponía a las formas visuales y las formas verbales, la actualidad mediática ha suspendido la oposición entre películas y pantallas y ha provocado que la voz sea vista. De allí el interés en esbozar una teoría de la pantalla que considere los acuerdos entre el sujeto que ve y el sujeto que es visto. Las metamorfosis en transiciones mediáticas, las incursiones del espacio de ficción en otro espacio diferente pero que puesto en pantalla, disgregado o concentrado en sitios, es asediado y ocupado por la imitación, la reproducción por el copioso frenesí de la copia. Medios, pantallas y otros lugares comunes se ocupan de la plenitud de la visión que ofician las redes sin fin y que hace visible la letra como si por la tecnología se retornara al originario de la escritura, de la letra al ideograma, de la lectura a la visión y se remitiera desde el nuevo mundo de las pantallas a uno más arcano y arcaico celebrando en la escritura los milagros de la vista o la maravilla de mirar que al restituir la unidad del acontecimiento, estético concilia la idea, la forma visible de la reflexión en el milagro regular y secular de la pantalla. En suma, esta obra de Lisa Block de Behar considera cuestiones concernientes a medios y pantallas, a los cambios e intercambios que posibilitan a las potencias que toleran, permiten o propician a las fronteras del discurso, a las metamorfosis de la palabra.
