system borrowed from theoretical biology in his 1968 essay *System Aesthetics* announced the relational character of conceptual art and newer research based projects. Trained as an art historian, Burnham was also a sculptor. His first book *Beyond Modern Sculpture* (1968) established him as a leading commentator on art and technology. A postformalist pioneer, an influential figure in new media art history, an early champion of conceptual and ecological art, and the curator of the first exhibition of digital art, Burnham is long overdue for reevaluation. This book offers that opportunity by collecting a substantial and varied selection of his hard to find texts, some published here for the first time. Although Burnham left the art world abruptly in the 1990s, his visionary theoretical ideas have only become more relevant in recent years. This collection seeks to restore Burnham to his rightful place in art criticism and theory, reestablishing his voice as crucial to critical conversations of the period. It gathers his early writing on sculpture, his essays on systems art and conceptualism, his views of the New York art world, and his later occult work, including an unorthodox interpretation of Marcel Duchamp's work that draws on the

Kabbalah. [The Collected Essays and Criticism, Volume 4](#) Clement Greenberg, 1986. Clement Greenberg is widely recognized as the most influential and articulate champion of modernism during its American ascendancy after World War II. The period largely covered by these highly acclaimed volumes of *The Collected Essays and Criticism*, Volume 3 *Affirmations and Refusals*, presents Greenberg's writings from the period between 1950 and 1956, while Volume 4 *Modernism with a Vengeance* gathers essays and criticism of the years 1957 to 1969. The 120 works range from little known pieces originally appearing in *Vogue* and *Harper's Bazaar* to such celebrated essays as *The Plight of Our Culture* (1953), *Modernist Painting* (1960), and *Post Painterly Abstraction* (1964). Preserved in their original form, these writings allow readers to witness the development and direction of Greenberg's criticism, from his advocacy of abstract expressionism to his enthusiasm for color field painting. With the inclusion of critical exchanges between Greenberg and F. R. Leavis, Fairfield Porter, Thomas B. Hess, Herbert Read, Max Kozloff, and Robert Goldwater, these volumes are essential sources in the ongoing debate over modern art. For each volume, John O. Brian has furnished an introduction, a selected bibliography, and a brief summary of events that places the criticism in its artistic and historical context.
