antihero which includes subtopics such as the Cain theme the infantile cruelty and the death in the childhood secondly an analysis of the aesthetic techniques that contribute to the subjective descriptions of the identity of child thirdly an observation of the relationship between the Matutian Child and the external world In the part entitled Childhood in the fantastic works of Ana Maria Matute we have used as corpus fantastic works of the second period of Ana Mar a Matute and showed how the world of children is adapted to a new fantastic and medieval environment The analysis also includes three sections a discussion of the continuation renewal of the topic mentioned above the analysis of some secondary fantastic characters related to the theme of childhood finally a systematic study of the symbolic objects in the works of Ana Mar a Matute
