Lunch Bunch:

Inclusive Programming for Elementary Students with Autism Sheila Wagner, 2021-10-05 Appropriate social and communicative behavior is a fundamental concern for parents and teachers of school children. Children and teenagers should be able to move in a safe and socially successful manner through their school years despite changing family culture, their high activity level, and a lack of insight into the consequences of their behavior. One would also hope that they develop a positive character and good values about human rights and social responsibility along the way. The most important long term goal, however, is that they turn into content kind and successful fellow human beings. This Social Cartoon Curriculum illustrates more than 120 goals for developing positive personality features, adequate social behavior, and communicative competence. Ideas for long and short term goals have been selected from existing school programs, general education of values, as well as wishes of parents, teachers, and employers. A precursor of the book was the Cartoon and Script Curriculum for Training Social Behavior and Communication, which aimed at children with Autism Spectrum Disorders. Bernard Opitz, 2014.

Never before has your kids had the opportunity to learn a lesson in life as well as learning all about food. As of now, there are only three books completed and published. Each character is a food, and then the main character, the star, is featured after the story with its nutritional value and facts. After that, the kids have a coloring book with the same story that they had just read and learned from, but with the color taken out. Another first: This is a story of Molly having a dream. This book educates children on the importance of paying attention and obedience to their parents. The story is followed by a watermelon's nutritional value.
