Making Room Chistine D. Pohl, 1999-08-03 For most of church history hospitality was central to Christian identity Yet our generation knows little about this rich life giving practice

Searching for Meaning in the Holocaust Sidney M. Bolkosky, 2002-07-30 Scholars survivors and other interested parties have offered over the years their own interpretations of the meaning of the Holocaust and the lessons we can learn from it However the quest to find a rational explanation for this seemingly irrational course of events has led to both controversy and continued efforts at assigning meaning to this most horrible of events Examining oral histories provided by survivors written accounts and explanations scholarly analysis and commonly held assumptions Bolkosky challenges the usual collection of platitudes about the lessons or the meanings we can derive from the Holocaust Indeed he argues against the kind of reductionism that such a quest for meaning has led to and he analyzes the nature of the perpetrators in order to support his position on the inconclusivity of the study of the Holocaust Dealing with the perpetrators of the Holocaust as manifestations of twentieth century civilized trends foreseen by the likes of Kafka Ortega y Gasset Arthur Koestler and Max Weber Bolkosky suggests a new nature of evil and criminality along the lines developed by Hannah Arendt Raul Hilberg and Richard Rosenstein Woven into the fabric of the text are insights from literary and historical writers sociologists and philosophers This interdisciplinary attempt to shed new light on efforts to determine the meanings and lessons of the Holocaust provides readers with a challenging approach to considering the oral histories of survivors and the popular and professional assumptions surrounding this devastating moment in history

Luther: Selected Political Writings Martin Luther, 2003-03-27 Martin Luther pivotal figure of the sixteenth century Reformation continues to exercise a powerful influence in the affairs of the twentieth century not just in the area of religion but also in the political sphere The direction and desirability of that influence is a matter of dispute J M Porter a political scientist here presents revealing selections from nine of Luther s more important writings all excerpted from the American Edition of Luther s Works His texts suggest the complexity of the Reformer s thinking its theological base and the situational focus of his political utterances Professor Porter also provides a helpful introduction in which he clarifies the meaning and implications of Luther s famous two kingdoms theory whereby the state is freed both from domination by the church and from the temptation to dominate the conscience of its citizens Here are to be found generous excerpts from the seminal writings which shaped the Reformation and continue to influence the course of events in our time They illustrate Luther s innovative ideas about the nature of temporal authority political obligation and its limits church state relations and political resistance Luther s plain and often pungent words will be of interest to students of history religion political science and ethics to everyone concerned about the issues of freedom and authority ideology and politics violence and nonviolence war and freedom

Living by Grace William Hordern, 2002-10-03 How can Protestant churches overcome their denial in actual attitudes and actions of their central belief in justification The

chief paradox of Protestantism manifest in all denominations is the blurring and contradicting of the central belief in justification by grace alone through faith alone. The church in America says the author has always been prone to preach that being a good Christian will result in health, wealth, and happiness. Many church practices support a reward and punishment ethic, thereby denying the heart of justification. God's forgiveness. No wonder the laity does not understand the doctrine or its call to a new life. In this criticism of common church attitudes and actions, Dr. Hordern contrasts the interpretation of justification found in the teachings of Scripture and the great Reformers with the practical pursuit of works righteousness. In conclusion, he shows how the church could act to enhance rather than deny the doctrine of justification in particular in coping with the important matters of evangelism, attendance, giving to the church, accepting people into the church, and social service.

Hardness of Heart in Biblical Literature Charles B. Puskas, 2022-09-13 Every speaker, teacher, or preacher has on some occasion encountered an audience that was unreceptive to what he or she had to say. One response to such communication breakdowns given by both the Old Testament prophets and New Testament authors was to declare that the hearers have hardened their hearts to the message or that God has hardened them. What is this hardness of heart phenomenon? Who became hardened and why? Was it a result of some deficiency in communication? What were the consequences of such a disposition? Is there any hope for a change of perspective for those hardened? In this concise and carefully argued volume, Charles Puskas considers all the key texts relating to human obstinacy towards God in pursuit of answers to these questions.

The Heart of Man's Destiny Herman Westerink, 2012 The Heart of Man's Destiny is a new reading of Lacan's seventh seminar. Working from a new perspective, it explores the relationship between Freudian psychoanalysis and the Reformation.

Racism Kevin Reilly, Stephen Kaufman, Angela Bodino, 2003 Racism has existed throughout the world for centuries and has been at the root of innumerable conflicts and human tragedies including war, genocide, slavery, bigotry, and discrimination. Defined broadly, racism has had many forms and effects from caste prejudice in India and mass extermination in Tasmania to slavery in the Americas and the Holocaust in Europe. Put simply, racism has been one of the overriding forces in world history for more than a millennium. This book provides a global perspective of racism in its myriad forms. Consisting of twelve parts and fifty-one articles, it focuses on racism worldwide over the past thousand years. It includes three types of articles: original documents, scholarly essays, and journalistic accounts.
