Spoils of War Aidan Dodson, Serena Cant, 2020-03-30 An extensive history of enemy fleets following both World Wars featuring never before seen archival and archaeological materials *Spoils of War* traces the histories of navies and ships of the defeated powers from the months leading up to the relevant armistices or surrenders to the final execution of the appropriate post war settlements In doing so it discusses the way in which the victorious powers reached their final demands how these were implemented and to what effect The later histories of ships that saw subsequent service either in their original navies or in those navies which acquired them are also described Much use is made of archival materials and in some cases archaeological sources some of which have never previously been used Ultimately a wide range of long standing myths are busted and some badly distorted modern views are set right The fascinating narrative is accompanied by lists of all major navy built and certain significant ex mercantile enemy ships in commission at the relevant date of the armistice or surrender or whose hulks were specifically listed for attention in post Second World War allied agreements These include key dates in their careers and their ultimate

fates This original book featuring numerous photographs is sure to become an essential reference tool for all those interested in the naval history of the two World Wars Praise for Spoils of War Most highly recommended Firetrench For those who need to finally know the ultimate fate of the often gallant ships that strove against the Allies in both world wars this is the book Julian Stockwin author of the Thomas Kydd series **The Times History of the War** ,1921 **The Publishers' Circular and Booksellers' Record** ,1907 Dictionary Catalog of the Rare Book Division New York Public Library.
