Lycanthropes Leeches:

Lycanthropes & Leeches R. Reutter, 2004-06 Lisa is an unworldly young woman who feels her life is unfulfilled and yearns to break free from her imminent responsibility of running the family restaurant Her longing for freedom becomes a reality the night her mother's boyfriend tries to kill her With a rift torn between herself and her mother she is left with nowhere else to turn Now she must flee from the city that has been her home for nearly twenty years Lisa finds herself caught in a world where supernatural beasts come alive to wage war in an age old conflict Werewolves and vampires lurk around every corner and she is forced to come to terms with whom she is and what she has become Before she can fulfill her birthright she must face an insidious clan of vampires help heal the wounds of an ancient werewolf tribe and destroy the man responsible for her mother's death

The Best Werewolf Short Stories 1800-1849 Catherine Crowe, Frederick Marryat, 2010-05 Transformation of the werewolf in literature made its greatest strides in the 19th century when the shape shifting monster leapt from poetry to the short story It happened when this shorter form of literature was morphing into darker shapes thanks in no small part to Edgar Allan Poe Honore de Balzac E T A Hoffmann Nathaniel Hawthorne Prosper Merimee James Hogg and so many others in Europe and the United States The fifty year period between 1800 and 1849 is truly the cradle of all werewolf short stories For the first time in one anthology Andrew Barger has compiled the best werewolf stories from this period The stories are Hugues the Wer Wolf A Kentish Legend of the Middle Ages The Man Wolf A Story of a Weir Wolf The Wehr Wolf A Legend of the Limousin and The White Wolf of the Hartz Mountains It is believed that two of these fine stories have never been republished in over one hundred and fifty years since their original printing Read The Best Werewolf Short Stories 1800 1849 tonight just make sure it is not by the light of a full moon

Werewolves Dr. Bob Curran, 2009-08-01 Most of us are familiar with the idea of a werewolf that someone can change either deliberately or unwillingly into a ravenous creature but is there some justification for such a belief And if so how is it achieved through magical potions or ointments or simply by the light of the full moon Or is the whole thing simply a form of delusion the product of a disturbed mind In Werewolves author Dr Bob Curran examines the deep psychological perceptions about the linkage of man with the natural bestial world Do the roots of such a belief lie in the supernatural world or are there other explanations How has the discovery of feral children living in the wild shaped our ideas of human beasts And what is the future of such beliefs The book considers genetically based speculations regarding the possible fusion of human and animal genes in order to alleviate some human diseases and suffering Is the idea of man into beast really so far fetched Werewolves is an essential reference book which looks in depth at a fascinating subject One word of warning though it must never be read under the baleful rays of a full moon You have been warned

The Werewolf Filmography Bryan Senn,2017-02-06 From the horrific to the heroic cinematic werewolves are metaphors for our savage nature symbolizing the secret bestial side of humanity that hides beneath our civilized veneer Examining acknowledged classics like The Wolf Man 1941 and The Howling 1981 as well as overlooked gems like Dog Soldiers 2011 this comprehensive filmography covers the highs and lows of the genre Information is provided on production cast and filmmakers along with critical discussion of the tropes and underlying themes that make the werewolf a terrifying but fascinating figure

Man into Wolf Robert Eisler,2023-03-08 First published in 1951 Man into Wolf attempts to suggest the possibility of historical or rather prehistorical evolutionist derivation of all crimes of violence from the individual attack on life known as murder or manslaughter to the collective organized killing which we call war The author has tried to show that the evidence from prehistory can be made intelligible on the theory of Jung s archetypes surviving in the collective conscience and revealing themselves all over the world in legends myths and rites He discusses in the notes on the lecture every possible aspect of the subject ranging from the perverseness of the Marquis de Sade to the Grecian Bacchantes and from the Green Men and the agricultural ceremonies to a case study of John George Haigh This book will be of interest to students of anthropology gender studies and psychology
