Bomhard, John C. Kerns, 2011-05-12 No detailed description available for The Nostratic Macrofamily *Toward Proto-Nostratic* Allan R. Bomhard, 1984-01-01 This book represents the culmination of the author's work to date it incorporates and updates previous articles and adds much new material This book is not nor was it ever intended to be a comparative grammar of either the Indo European or the Afroasiatic language families It is rather a comparison of Proto Indo European with Proto Afroasiatic While this is not the first attempt to demonstrate that Proto Indo

European and Proto Afroasiatic are genetically related it is the first to use the radical revision of the Proto Indo European consonantal system proposed by Thomas V Gamkrelidze Paul J Hopper and Vja eslav V Ivanov Moreover unlike previous endeavors this is the first to make extensive use of data from the non Semitic branches of Afroasiatic The assumptions underlying this investigation of the possibility of the common genetic origin of Proto Indo European and Proto Afroasiatic differ considerably from the assumptions made in other works on Nostratic the methodological approach followed in this monograph has been one of rigorous adherence to the time honored principles of comparative reconstruction Handbook of Comparative and Historical Indo-European Linguistics Jared Klein,Brian Joseph,Matthias Fritz,2017-09-25 This book presents the most comprehensive coverage of the field of Indo European Linguistics in a century focusing on the entire Indo European family and treating each major branch and most minor languages The collaborative work of 120 scholars from 22 countries Handbook of Comparative and Historical Indo European Linguistics combines the exhaustive coverage of an encyclopedia with the in depth treatment of individual monographic studies A Gothic Etymological Dictionary Winfred Philipp Lehmann,1986 **Cultures, Ideologies, and the Dictionary** Braj B. superbly translated from Russian is a must for every student of Indo European prehistory Its erudition is unsurpassed and its unorthodox conclusions are a continuing challenge Prof Dr Martin Haspelmath Max Planck Institut f r Evolution re Anthropologie The authors propose a revision of views on a number of central issues of Indo European studies Based on findings of typology they suggest a new analysis of the phonological system of Proto Indo European the Glottalic Theory they offer novel assumptions about the relative chronology of changes in PIE vowels and laryngeals Their conclusions are compared with data from Proto Kartvelian In the second part of the book semantically organized presentation of material from the lexicon is combined with analyses of the use of forms and formulae in a broadly defined cultural context Again similarities with properties of primarily Kartvelian and Semitic are described and extended close contacts with these language families are postulated This necessarily leads to a proposal to place the hypothetical Urheimat of the Indo Europeans in the region south of the Caucasus Volume and II of the original Russian edition have been combined in the English version as Part I the Bibliography and Indexes are published as Part II **The Library of Enno Littman**
