Lyotard And The End Of Grand Narratives:

Lyotard and the End of Grand Narratives Gary K. Browning, 2000 Lyotard's work challenges the presumption and orientation of modern political philosophy. In particular, he repudiates attempts to justify knowledge and society in terms of grand narratives, for example, the liberation of mankind or the immanence of science. He argues that the totalising perspective of these meta-narratives is superseded by a post-modern acceptance of difference and variety and a scepticism towards unifying meta-theories.

The Predicament of Postmodern Theology Gavin Hyman, 2001-01-01 Gavin Hyman explores in depth two antithetical schools of postmodern theology: the radical orthodoxy of John Milbank and the nihilist textualism of Don Cupitt. Hyman critiques Milbank's influential project from a postmodern perspective and then points out the major difficulties with Cupitt's approach. Finally, he explores the work of Mark C. Taylor and Michael de Certeau to articulate a third way that leads beyond the responses of both Cupitt and Milbank.

The Art of Reading Scripture Ellen F. Davis, Richard B. Hays, 2003-10-02 The difficulty of interpreting the Bible is felt all over today. Is the Bible still authoritative for the faith and practice of the church? If so, in what way? What practices of reading offer the most appropriate approach to understanding Scripture? The church's lack of clarity about these issues has hindered its witness and mission, causing it to speak with an uncertain voice to the challenges of our time. This important book is for a twenty-first century church that seems to have lost the art of reading the Bible attentively and imaginatively. *The Art of Reading Scripture* is written by a group of eminent scholars and teachers seeking to recover the church's rich heritage of biblical interpretation in a dramatically changed cultural environment. Asking how best to read the Bible in a postmodern context, the contributors together affirm up front Nine Theses that provide substantial guidance for the church. The essays and sermons that follow both amplify and model the approach to Scripture outlined in the Nine Theses. Lucidly conceived, carefully written, and shimmering with fresh insights, *The Art of Reading Scripture* proposes a far-reaching revolution in how the Bible is taught in theological seminaries and calls pastors and teachers in the church to rethink their practices of using the Bible.

Theory in Social and Cultural Anthropology R. Jon McGee, Richard L. Warms, 2013-08-28 Social and cultural anthropology and archaeology are rich subjects with deep connections in the social and physical sciences Over the past 150 years the subject matter and different theoretical perspectives have expanded so greatly that no single individual can command all of it Consequently both advanced students and professionals may be confronted with theoretical positions and names of theorists with whom they are only partially familiar if they have heard of them at all Students in particular are likely to turn to the web to find quick background information on theorists and theories However most web based information is inaccurate and or lacks depth Students and

professionals need a source to provide a quick overview of a particular theory and theorist with just the basics the who what where how and why if you will In response SAGE Reference plans to publish the two volume Theory in Social and Cultural Anthropology An Encyclopedia Features Benefits Two volumes containing approximately 335 signed entries provide users with the most authoritative and thorough reference resource available on anthropology theory both in terms of breadth and depth of coverage To ease navigation between and among related entries a Reader s Guide groups entries thematically and each entry is followed by Cross References In the electronic version the Reader s Guide combines with the Cross References and a detailed Index to provide robust search and browse capabilities An appendix with a Chronology of Anthropology Theory allows students to easily chart directions and trends in thought and theory from early times to the present Suggestions for Further Reading at the end of each entry and a Master Bibliography at the end guide readers to sources for more detailed research and discussion

The Mass and Modernity Jonathan Robinson, 2010-11-12 Many in the Church have accepted modernity in their effort to speak to the modern world and not nearly enough attention has been given to trying to disentangle the complex of ideas and half formulated convictions that constitute this mind set which is in fact contrary to Christianity The first aim of this book is to examine the origins and present day influence of modernity and then to argue that there is nothing in the Christian s concern for the modern world that requires accepting this damaging mind set in connection with the highest form of worship the Mass The second aim of the book is to show that the sources of a genuine liturgical renewal are to be found in a heightened sense of the centrality of the Mass and a return to a theology compatible with the Catechism of the Catholic Church Fr Robinson s book is a philosopher s gift to the Catholic liturgy He provides a thoroughly lucid account of the climate of ideas which handicaps the celebration of Catholic worship in the modern world This is a diagnosis which shows just how far reaching must be the cure Fr Aidan Nichols Author Looking at the Liturgy

Thinking in Education Research Nick Peim, 2018-03-08 Thinking in Education Research examines the resources available from philosophy and theory that can be practically applied to any educational research project Nick Peim argues that the current well established divide between theory and the empirical in research methods is unhelpful to

students Instead Thinking in Education Research looks at major lines of thinking in modern European philosophy from Kant to Freud and Derrida to Malabou and how they provide a rich resource for every stage of conducting research By getting students engaged in how to think and how to do Peim illustrates that thinking is in fact a vital part of how you do research and is not an aside Essential aspects of the research endeavour are re examined in the light of key philosophical positions to offer constructive potential including defining the object giving an account of the field the relation to truth the process of writing and constructing a case and the value attributed to formal knowledge Thinking in Education Research does not try to resolve the unresolved issues of research thinking but rather encourages readers to productively engage with them so that we can enhance the possibilities of research practice and find opportunities for its expansion and refinement Throughout the chapters clear and concise summaries of key philosophical positions and ideas are complemented with boxed accounts of how the philosophical debates discussed can be applied to real research projects These features encourage the reader to consider how they can develop thinking and apply theory at every stage of their own research This is essential reading for any educational research methods student or practicing researcher for important ways of thinking afresh about research methodology
