Lysenkoism In China Proceeding Of The 1956 Qingdao Genetics Conference:

Lysenkoism in China Laurence Schneider, 1987 Adopting a comparative perspective this book traces the social political economic and cultural conditions under which environmental movements have emerged and assesses the transformative capacities of these movements *China and Albert Einstein* Danian HU, Danian Hu, 2009-06-30 China and Albert Einstein is the first extensive study in English or Chinese of China's reception of the celebrated physicist and his theory of relativity Tracing the influence of Jesuit missionaries in the seventeenth century and Western missionaries and educators in the nineteenth and twentieth centuries as they introduced key concepts of Western physical science and paved the way for Einstein's radical new ideas Danian Hu shows us that Chinese receptivity was fostered by the trickle of Chinese students sent abroad for study beginning in the mid nineteenth century and by the openness of the May Fourth Movement 1916 1923 In a series of biographical studies of Chinese physicists Hu describes the Chinese assimilation of relativity and explains how Chinese physicists offered arguments and theories of their own Hu's account concludes with the troubling story of the fate of foreign ideas such as Einstein's in the Chinese Cultural Revolution 1966 1976 when the theory of relativity was denigrated along with Einstein's ideas on democracy and world peace China and Albert Einstein is an important contribution to Einstein studies and a landmark work in the history of Chinese science *Lysenkoism in China* Laurence Schneider, 1986 Biology and Revolution in Twentieth-Century China Laurence Schneider, 2005-10 Using the field of genetics as a case study this book follows the troubled development of modern natural science in China from the 1920s through Mao's China to the present post socialist era Through detailed portraits of key scientists and institutions basic dilemmas are **Contested Environmentalisms** Cheng Li, 2025-01-21 For decades tree planting and forestry have been pivotal to Chinese environmentalism During the Mao era while forests were razed to fuel rapid increases in industrial production the Greening the Motherland campaign promoted conservationist tree planting nationwide Contested Environmentalisms explores the seemingly contradictory rhetoric and desires of Chinese conservation from the early twentieth century through to the present Drawing on literary cinematic scientific archival and digital media sources Cheng Li investigates the emergence evolution and devolution of Chinese conservationist ideas Combining literary historical and environmental studies approaches he shows that these ideas acquired their value and assumed their power precisely because of their malleability and adaptability Li historicizes authoritarian environmentalism and probes the global local dynamics underlying conservationist ideas that energize environmental impulses in China Examining ethnic borderlands the Beijing political center and China's growth on the world stage this book demonstrates the strength of Chinese environmentalism to adapt and survive through tumultuous change lies in what seems to be a weakness its inconsistency and contestation *Chinese Studies in the History and Philosophy of Science and Technology* Fan Dainian, Robert S. Cohen, 2013-03-09 The articles in this collection were all selected from the first five volumes of the Journal of Dialectics of Nature published by the Chinese Academy of Sciences

between 1979 and 1985 The Journal was established in 1979 as a comprehensive theoretical publication concerning the history philosophy and sociology of the natural sciences It began publication as a response to China's reform particularly the policy of opening to the outside world Chinese scholars began to undertake distinctive original research in these fields This collection provides a cross section of their efforts during the initial phase To enable western scholars to understand the historical process of this change in Chinese academics Yu Guangyuan's On the Emancipation of the Mind and Xu Liangying's Essay on the Role of Science and Democracy in Society have been included in this collection Three of the papers included on the philosophy of science are discussions of philosophical issues in cosmology and biology by scientists themselves The remaining four are written by philosophers of science and discuss information and cognition homeostasis and Chinese traditional medicine the I Ching Yi Jing and mathematics etc Papers have been selected on the history of both classical and modern science and technology the most distinctive of which are macro comparisons of the development of science in China and the west Some papers discuss the issue of the demarcation of periods in the history of science the history of ancient Chinese mathematics astronomy metallurgy machinery medicine etc Others discuss the history of modern physics and biology the history of historiography of science in China and the history of regional development of Chinese science and technology Also included are biographies of three post eighteenth century Chinese scholars Li Shanlan 1811-1882 Hua Hengfang 1833-1902 and Cai Yuanpei 1868-1940 who contributed greatly to the introduction of western science and scholarship to China In addition three short papers have been included introducing the interactions between Chinese scholars and three great western scientists Niels Bohr Norbert Wiener and Robert A Millikan
