M Stanton Evans:

M. Stanton Evans Steven F. Hayward, 2022-03-22 M Stanton Evans d 2015 was one of the unsung heroes and key figures of the modern conservative movement offering a model to be remembered and emulated in both thought and deed A person of extraordinary breadth he combined the roles of journalist first rank thinker and political action often at the center of crucial events for the conservative movement from the mid 1950s to his last decade in the 2010s He was the principal author of the Sharon Statement the founding document of Young Americans for Freedom Evans was also a mentor to an entire generation of conservative writers and journalists including Ann Coulter John Fund Martin Morse Wooster Tim Carney Richard Miniter William McGurn and this author Evans was libertarian in economics and policy traditionalist in moral and social matters respectful of religion and resolutely anti Communist Over the years he wrote a number of elegant articles and one book *The Theme is Freedom* that reconciled many of the strains that often appear between these differing schools of conservative thought He also wrote a controversial defense of Joseph McCarthy *Blacklisted by History* which is one of many examples of his fearlessness in contesting the conventional wisdom Beyond his professional profile Stan was also known for his ironic dry wit which only came out in person as well as his personal modesty and kindness and fondness for fast food sports and classic rock and roll music trivia He was the conservative for the common man *The future of conservatism; from Taft to Reagan and beyond*, by M. Stanton Evans Medford Stanton Evans, *Blacklisted by History* M. Stanton Evans, 2009-11-24 Accused of creating a bogus Red Scare and smearing countless innocent victims in a five year reign of terror Senator Joseph McCarthy is universally remembered as a demagogue a bully and a liar History has judged him such a loathsome figure that even today a half century after his death his name remains synonymous with witch hunts But that conventional image is all wrong as veteran journalist and author M Stanton Evans reveals in this groundbreaking book *The long awaited Blacklisted by History* based on six years of intensive research dismantles the myths surrounding Joe McCarthy and his campaign to unmask Communists Soviet agents and flagrant loyalty risks working within the U S government Evans s revelations completely overturn our understanding of McCarthy McCarthyism and the Cold War Drawing on primary sources including never before published government records and FBI files as well as recent research gleaned from Soviet archives and intercepted transmissions between Moscow spymasters and their agents in the United States Evans presents irrefutable evidence of a relentless Communist drive to penetrate our government influence its policies and steal its secrets Most shocking of all he shows that U S officials supposedly guarding against this danger not only let it happen but actively covered up the penetration All of this was precisely as Joe McCarthy contended *Blacklisted by History* shows for instance that the FBI knew as early as 1942 that J Robert Oppenheimer the director of the atomic bomb project had been identified by Communist leaders as a party member that high level U S officials were warned that Alger Hiss was a Soviet spy almost a decade before the Hiss case became a public scandal that a cabal of White House Justice Department and State Department officials lied

about and covered up the Amerasia spy case and that the State Department had been heavily penetrated by Communists and Soviet agents before McCarthy came on the scene Evans also shows that practically everything we've been told about McCarthy is false including conventional treatment of the famous 1950 speech at Wheeling West Virginia that launched the McCarthy era I have here in my hand the Senate hearings that casually dismissed his charges the matter of leading McCarthy suspect Owen Lattimore the Annie Lee Moss case the Army McCarthy hearings and much more In the end Senator McCarthy was censured by his colleagues and condemned by the press and historians But as Evans writes The real Joe McCarthy has vanished into the mists of fable and recycled error so that it takes the equivalent of a dragnet search to find him Blacklisted by History provides the first accurate account of what McCarthy did and more broadly what happened to America during the Cold War It is a revealing exposé of the forces that distorted our national policy in that conflict and our understanding of its history since

The Theme is Freedom Medford Stanton Evans, 1994 Splendidly argued and intensely interesting especially to modern conservatives and also to liberals who like to have their assumptions challenged Booklist

The Genevan Reformation and the American Founding David W. Hall, 2005-01-01 In this provocative study David W Hall argues that the American founders were more greatly influenced by Calvinism than contemporary scholars and perhaps even the founders themselves have understood Calvinism's insistence on human rulers tendency to err played a significant role in the founders prescription of limited government and fed the distinctly American philosophy in which political freedom for citizens is held as the highest value Hall's timely work countervails many scholars doubt in the intellectual efficacy of religion by showing that religious teachings have led to such progressive ideals as American democracy and freedom *The Authoritarians* Jonathan W Emord, 2021-03-09 The untold story of how Authoritarians from the Progressive Era to the present removed all constitutional barriers to the deprivation of individual rights upending the promise of the Declaration of Independence and inviting a new socialist state in America

The Man Who Invented Conservatism Daniel J. Flynn, 2025-08-19 Frank Meyer devised the blueprint for American conservatism fusionism championed by Barry Goldwater Ronald Reagan and so many to this day Yet long before and far away Communists in London chanted Free Frank Meyer to block the deportation of a comrade who was their cause c l bre Those fervent Marxists could never have predicted that their hero would one day provide the intellectual energy necessary to propel conservatives to political power The Man Who Invented Conservatism unveils one of the twentieth century's great untold stories a Communist turned conservative an antiwar activist turned soldier and a free love enthusiast turned family man whose big idea captured the American Right This intellectual migration coincided with a clandestine affair inside 10 Downing Street service as a lieutenant to the man who later constructed the Berlin Wall and neighborly chats with the pop star and poet celebrity next door Present at the creation of National Review Meyer helped launch Joan Didion's writing career From H G Wells to Henry Kissinger to Milton Friedman he rubbed shoulders with everyone who mattered Having discovered Meyer's previously unexamined correspondence in an

old soda warehouse Daniel J Flynn documents this saga in *The Man Who Invented Conservatism* exposing the rivalries jealousies friendships and fights that shaped the movement and what it means to be a conservative today [Congressional Record](#) United States. American Betrayal Diana West,2013-05-28 Conservative columnist West uncovers how and when America gave up its core ideals and began the march toward socialism She digs into the modern political landscape dominated by President Barack Obama to ask how it is that America turned its back on its basic beliefs [Debunking Howard Zinn](#) Mary Grabar,2019-08-20 Howard Zinn s *A People s History of the United States* has sold more than 2 5 million copies It is pushed by Hollywood celebrities defended by university professors who know better and assigned in high school and college classrooms to teach students that American history is nothing more than a litany of oppression slavery and exploitation Zinn s history is popular but it is also massively wrong Scholar Mary Grabar exposes just how wrong in her stunning new book *Debunking Howard Zinn* which demolishes Zinn s Marxist talking points that now dominate American education In *Debunking Howard Zinn* you ll learn contra Zinn How Columbus was not a genocidal maniac and was in fact a defender of Indians Why the American Indians were not feminist communist sexual revolutionaries ahead of their time How the United States was founded to protect liberty not white males ill gotten wealth Why Americans of the Greatest Generation were not

the equivalent of Nazi war criminals How the Viet Cong were not well meaning community leaders advocating for local self rule Why the Black Panthers were not civil rights leaders Grabar also reveals Zinn s bag of dishonest rhetorical tricks his slavish reliance on partisan history explicit rejection of historical balance and selective quotation of sources to make them say the exact opposite of what their authors intended If you care about America s past and our future you need this book

Bringing the Market Back in J. Kelley,1997-05-19 This timely volume tells the fascinating story of how an almost forgotten classical liberalism resuscitated itself in America Using educational institutions think tanks foundations and the Libertarian Party market liberals capitalized on the post 1969 crisis of Great Society liberalism to promote an alternate vision Despite Ronald Reagan s anti government rhetoric the activist state survived because market liberals remained a minority albeit a vocal one Kelley argues that the recent Gingrich Revolution will fail for the same reason Although remaining profoundly skeptical about the modern state Americans have yet to be persuaded by F A Hayek s vision of a classical liberal utopia

Right Face Niels Bjerre-Poulsen,2002 Right Face tells the compelling story of how the American conservative movement in the two decades following World War II managed to move from obscurity to the center stage of national politics When Dwight D Eisenhower in 1952 defeated the conservative champion Robert Taft and won the Republican presidential nomination many on the American right felt that they had become homeless within the established party system The brand of liberalism which permeated the nation s intellectual life had also become bipartisan political doctrine The feeling of cultural and political ostracism triggered a quest for an independent conservative network of organizations with the hope of either taking back the Republican Party or creating a viable alternative The first part of Right Face recounts the often bitter struggle to define the meaning of conservatism in modern America Part two concerns the search for influential national outlets for conservative opinion whereas part three focuses on the movement s actual plunge into electoral politics not least on its well planned takeover of the Republican Party machinery in 1964 and the resulting presidential nomination of Senator Barry Goldwater An epilogue attempts to trace main currents in the evolution of American conservatism since the 1960s as well as to assess the extent to which American conservatives have managed to create the Counter Establishment they set out to create more than half a century ago In a sense the conservatives actually set out on two different quests One was for intellectual respectability The other was for political power As this study reveals the two goals were not always compatible Based on extensive archival sources Right Face provides an incisive analysis of the conservative movement and the forces that shaped it With its blending of intellectual and organizational developments it adds an important chapter to the history of American political culture in the 20th century

Cadres for Conservatism Gregory L. Schneider,1999 In this history of the other Sixties Gregory L Schneider traces the influence of Young Americans for Freedom a conservative political group that locked horns with the New Left and spawned many of the major players in the contemporary conservative movement from the Goldwater campaign in 1964 to Reagan s revolution in the 1980s Cadres for Conservatism reveals how young political

conservatives unlike their leftist counterparts avoided fracture in the wake of the Sixties Rather YAF continued to serve as a seedbed for future conservative leaders many of whom drew on the contacts and counter activism of their youth to consolidate conservative power Schneider s talent for trenchant archival research is supplemented by a plethora of detailed interviews with virtually every past national chairman and executive director of the YAF as well as important sponsors such as William F Buckley William Rusher and M Stanton Evans **Shipper's Export Declarations** United States. Congress. Senate. Committee on Governmental Affairs,1980 **Postwar American Fiction and the Rise of Modern Conservatism** Bryan M. Santin,2021-03-11 Bryan M Santin examines over a half century of intersection between American fiction and postwar conservatism He traces the shifting racial politics of movement conservatism to argue that contemporary perceptions of literary form and aesthetic value are intrinsically connected to the rise of the American Right Instead of casting postwar conservatives as cynical hustlers or ideological fanatics Santin shows how the long term rhetorical shift in conservative notions of literary value and prestige reveal an aesthetic antinomy between high culture and low culture This shift he argues registered and mediated the deeper foundational antinomy structuring postwar conservatism itself the stable social order of traditionalism and the creative destruction of free market capitalism Postwar conservatives produced in effect an ambivalent double register in the discourse of conservative literary taste that sought to celebrate neo aristocratic manifestations of cultural capital while condemning newer more progressive manifestations revolving around racial and ethnic diversity *Dollars for Life* Mary Ziegler,2022-06-21 A new understanding of the slow drift to extremes in American politics that shows how the antiabortion movement remade the Republican Party A sober knowledgeable scholarly analysis of a timely issue Kirkus Reviews As Mary Ziegler shows us in this incisive and important book anti abortion activists have shaped the GOP in ways that even they could not have anticipated Everyone interested in the past and future of American politics should read this book Laura Kalman University of California Santa Barbara The modern Republican Party is the party of conservative Christianity and big business two things so closely identified with the contemporary GOP that we hardly notice the strangeness of the pairing Legal historian Mary Ziegler traces how the anti abortion movement helped to forge and later upend this alliance Beginning with the Supreme Court s landmark decision in *Buckley v Valeo* right to lifers fought to gain power in the GOP by changing how campaign spending and the First Amendment work The anti abortion movement helped to revolutionize the rules of money in U S politics and persuaded conservative voters to fixate on the federal courts Ultimately the campaign finance landscape that abortion foes created fueled the GOP s embrace of populism and the rise of Donald Trump Ziegler offers a surprising new view of the slow drift to extremes in American politics and explains how it had everything to do with the strange intersection of right to life politics and campaign spending Studies in Intelligence ,2012
