M3 Infantry Half-Track 1940-73 Steven J. Zaloga, 2013-06-20 As armoured warfare tactics matured mechanised infantry became a key ingredient in what is now called combined arms doctrine For the US Army of World War 2 the most important technical aspect of infantry mechanisation was the development of the M3 half track personnel carrier Steven Zaloga guides the reader through the early 1930s development of the half track its first deployment in action in the Philippines in 1941 and its varied and vital role in international deployments since World War 2 This authoritative text also examines the operators of half tracks and the troops that they carried Browning .50-caliber Machine Guns Gordon L. Rottman, 2011-03-15 The Browning 50 cal has become the longest serving weapon in the US inventory The fifty has been employed in every imaginable role for a machine gun It is considered such an effective and reliable weapon that few countries ever attempted to develop an equivalent weapon Even the Japanese created a copy of it during World War II when the US was producing literally thousands every month to use in every theater This is a history of the development of this famous weapon its most critical operational use and the variants that have been produced to keep it at the forefront of the action American Tanks & AFVs of World War II Michael Green, 2014-07-20 A comprehensive highly illustrated study of US tanks and other armoured vehicles used in World War II The entry of the US into World War II provided the Allies with the industrial might to finally take the war to German and Japanese forces across the world Central to this was the focus of the American military industrial complex on the manufacture of tanks and armoured fighting vehicles Between 1939 and 1945 88 140 tanks and 18 620 other armored vehicles were built almost twice the number that Germany and Great Britain combined were able to supply In this lavishly illustrated volume armour expert Michael Green examines the dizzying array of machinery fielded by the US Army from the famed M4 Sherman M3 Stuart and M3 Lee through to the half tracks armored cars self propelled artillery tank destroyers armored recovery vehicles and tracked landing vehicles that provided the armoured fist that the Allies needed to break Axis resistance in Europe and the Pacific Publishing in paperback for the first time and packed with historical and contemporary colour photography this encyclopedic new study details the design development and construction of these vehicles their deployment in battle and the impact that they had on the outcome of the war **World War II US Cavalry Groups** Gordon L. Rottman, 2012-07-20 An introduction to the US Cavalry units equipped with light armor and their role in the European Theater during World War II The cavalry regiments of the US Army were in the process of being transformed into a mechanized force when the USA entered World War II While those cavalry regiments deployed to the Pacific to fight the Japanese were turned into infantry units those sent to Europe were employed as light armor in the cavalry s traditional spearhead roles reconnaissance the screening of advances and flanks and the pursuit of beaten enemy forces Equipped with M8 Greyhound armored cars M5 Stuart and M24 Chaffee light tanks and halftracks these units were designated cavalry groups mechanized each c 1 700 strong and divided into two heavily armed

squadrons They were seldom attached to divisions but to higher level corps commands meaning they could be shifted around quickly and independently and be formed at need into flexible battle groups with armored infantry and other units depending on the mission Featuring specially drawn full color illustrations depicting uniforms insignia armored vehicles and tactical scenarios this is the story of the US cavalry units that led the advance to victory in Europe during World War II **The Imjin and Kapyong Battles** S.P. MacKenzie,2013-03-12 An excellent history of a massive Communist offensive and the brigades that resisted it H War The sacrifice of the British regiment known as the Glorious Glosters in defense of the Imjin River line and the hilltop fights of Australian and Canadian battalions in the Kapyong Valley have achieved great renown Using official and unofficial source material ranging from personal interviews to war diaries this in depth study the first of its kind seeks to disentangle the mythology surrounding both battles and explain why events unfolded as they did Based on thorough familiarity with all available sources many not previously utilized it sheds new light on fighting the forgotten war In Korea on the night of 22nd April 1951 communist forces unleashed what remains to this day their greatest offensive since Zhukov s storm on Berlin In the desperate fighting that followed the key flanks of free world forces were held by one British and one Commonwealth brigade The former took on a Chinese army the latter a Chinese division Six decades later an American historian has dismantled the barriers between Australian British Canadian and New Zealand accounts of those whirlwind days to compose the only comparative analysis of the tragedy on the Imjin and the stand at Kapyong Andrew Salmon author of *Scorched Earth Black Snow Britain and Australia in the Korean War 1950* **The Sleeping Giant** J. E. Kaufmann,H. W. Kaufmann,1996 A study of American military history this text examines the trials and tribulations of US armed forces between the wars the machinations of politicians intent on saving money at the cost of national security and the strategems of military leaders intent on saving the US military machine **To Cage the Red Dragon** Damien Fenton,2012 It is now 20 years since the Cold War effectively ended with the dramatic collapse of the Soviet Union and its client states in Eastern and Central Europe and just over three decades since the final bloody climax of the Vietnam War played itself out on the streets of Saigon Phnom Penh and Vientiane The historiography of the wider Cold War has burgeoned accordingly greatly assisted by increasing access to all manner of archival material belonging to former foes on both sides of what was once the Iron Curtain That of the Vietnam War at least insofar as the West is concerned had already established itself as a field of significant depth and breadth by the end of the 1980s However it too has benefited and continued to grow in the wake of the large scale release by many Western governments of their remaining official material from that era into the public domain

The Maginot Line 1928-45 William Allcorn,2003-08-20 The Maginot Line the massive series of fortifications built by France in the 1930s to defend its borders with Germany and Italy is perhaps the most maligned collection of fortifications ever built Despite being a technological marvel and the most sophisticated and complex set of fortifications built up to that time it failed to save France from crushing defeat in 1940 Yet there are those who argue that it accomplished exactly what it was designed to do This book provides a concise and informative treatment of the Maginot Line from North East France to the Mediterranean Packed with plans contemporary and modern images plus digital artwork it presents a detailed visual exploration of this famous fortification system M26/M46 Pershing Tank 1943-53 Steven J. Zaloga,2000-11-25 From the moment that the M4 Sherman had been matched against German Panther and Tiger tanks the American tank crews had known that their vehicles were outclassed by the opposition What was needed was a more powerful tank more heavily armed and armored that could take on the powerful German panzers on a more equal footing Although it took time to develop by the latter months of the war numbers of M26 Pershing tanks were reaching the frontline US armored units Well armored and with a powerful 90mm gun the Pershing was a match for any tank in the German order of battle *Fallschirmjäger* Bruce Quarrie,2001-10-25 Few of the combatants of World War II have captured the imagination as compulsively as the Fallschirmjäger Boldness and courage were vital characteristics in the rigorous selection process and their training was highly demanding Hitler s airborne troops were involved in some of the most daring actions of the whole war from the 1940 assault on Eben Emael and the invasion of Crete in 1941 to the rescue of Mussolini and the attempt on Tito s life In addition they saw service as elite line infantry in the key theatres of North West Europe North Africa and the Eastern Front This title looks at the life and experiences of the average Fallschirmjäger and includes first hand accounts from different theatres and periods of the war **Tank Warfare, 1939-1945** Simon Forty,Jonathan Forty,2020-07-19 On the battlefields of Europe and North Africa during the Second World War tanks played a key role and the intense pressure of combat drove forward tank design and tactics at an extraordinary rate In a few years on all sides tank warfare was transformed This is the dramatic process that Simon and Jonathan Forty chronicle in this heavily illustrated history They describe the fundamentals of pre war tank design and compare the theories formulated in the 1930s as to how they should be used in battle Then they show how the

harsh experience of the German blitzkrieg campaigns in Poland France and the Soviet Union compelled the Western Allies to reconsider their equipment organization and tactics and how the Germans responded to the Allied challenge The speed of progress is demonstrated in the selection of over 180 archive photographs which record as only photographs can the conditions of war on each battle front They also give a vivid impression of what armoured warfare was like for the tank crews of 75 years ago *Bibliografía española* ,2001-04 *M2/M3* Robert Jackson,2019-02-28 A history of these versatile vehicles with photos and useful information for modelers Among the most successful armored vehicles produced by American industry known as the Arsenal of Democracy during the Second World War were the M2 and M3 half tracks They served on every battlefield and were as recognizable as other famous American wartime vehicles like the Sherman and the Jeep and around 40 000 were produced between 1941 and 1945 They were easy to assemble operate and maintain and their versatility allowed them to fulfill a variety of purposes This volume traces the design development and manufacturing history of the M2 M3 and describes its operational role within the Allied armies A selection of archive photographs showing the M2 M3 in action gives a graphic impression of how adaptable these vehicles were and records the range of equipment they could carry The book is also an excellent source for the modeler providing details of available kits together with specially commissioned color profiles demonstrating how the M2 M3 used by different units and armies appeared **M3 Half-Track in Action** Jim Mesko,1996-08-01 *M2/M3 Half Track Walk Around* Jim Mesko,Darren Glenn,David Gebhardt,Don Greer,2004-01-01 Provides an in depth look at the history and variants of the WW II US personnel carrier Includes full color profiles B W line art technical data dozens of full color photos and B W photos
