Staying Maasai? Katherine Homewood, Patti Kristjanson, P. Trench, 2009-02-08 The area of eastern Africa which includes Tanzania and Kenya is known for its savannas wildlife and tribal peoples Alongside these iconic images lie concerns about environmental degradation declining wildlife populations and about worsening poverty of pastoral peoples East Africa presents in microcosm the paradox so widely seen across sub Saharan Africa where the world s poorest and most vulnerable populations live alongside some of the world s most outstanding biodiversity resources Over the last decade or so community conservation has emerged as a way out of poverty and environmental problems for these rural populations focusing on the sustainable use of wildlife to generate income that could underpin equally sustainable development Given the enduring interest in East African wildlife and the very large tourist income it generates these communities and ecosystems seem a natural case for green development based on community conservation This volume is focused on the livelihoods of the Maasai in two different countries Kenya and Tanzania This cross border comparative analysis looks at what people do why they choose to do it with what success and with what implications for wildlife The comparative approach makes it possible to unpack the interaction of conservation and development to identify the main drivers of livelihoods change and the main outcomes of wildlife conservation or other land use policies while controlling for confounding factors in these semi arid and perennially variable systems This synthesis draws out lessons about the successes and failures of community conservation based approach to development in Maasailand under different national political and economic contexts and different local social and historical particularities

Indigenous Ecotourism Heather Zeppel, 2006 Drawing on case studies from Pacific Islands Africa Latin America and Southeast Asia this book examines ecotourism enterprises controlled by indigenous people in tribal reserves or protected areas It compares indigenous ecotourism in developed and developing countries and covers cultural ecotours ecolodges and bungalows hunting and fishing tours cultural attractions and other nature based facilities or services **Life in Tanzania Today and Since the Sixties** John Ndembiwe, 2010-05 This work is about life in Tanzania today It is also a general survey of life in Tanzania since the sixties Subjects covered include major political and socioeconomic changes which have taken place in the country since independence The author also looks at life under ujamaa the African version of socialism in the seventies and eighties when the government tried to transform Tanzania into a socialist nation life under capitalism after socialism was abandoned in the early 1990s how multiparty democracy has worked and how it has not worked in Tanzania after the country abandoned one party rule in 1992 the union of Tanganyika and Zanzibar and the problems and challenges it faces and has faced since it was formed in 1964 and other subjects The book is also a general introduction to Tanzania its geography and its people The author has looked at all the administrative regions or provinces and the ethnic groups in every region Tanzania has one of the largest numbers of ethnic groups in Africa The author also explains why Tanzania's demographic composition is unique on the continent The work is intended for members of the general public including those who are going to Tanzania for the first time *Livestock Development In Kenya's Maasailand* Phyllo Evangelou, 2019-03-04 Throughout Sub-Saharan Africa traditional pastoral societies are experiencing great change as ecological limitations intensify and national demands for livestock products expand In light of these pressures the transition of pastoralists from a principally subsistence way of life to greater involvement in market economies seems inevitable Focus in *Library of Congress Subject Headings* Library of Congress, 2002 We Alone David Western, 2020-11-24 A thoughtful exploration of how humans have endangered the Earth but can pull it back from the brink as told by a renowned conservationist This personal and thoughtful book by renowned Kenya conservationist David Western traces our global conquest from Maasai herders battling droughts in Africa to the technological frontiers of California Western draws on a half century of research in the savannas and his own life's journey to argue that conservation is not a modern invention The success of all societies past and present lies in conservation practices breaking biological barriers and learning to live in large cooperative groups able to sustain a healthy environment Our ecological emancipation from nature enabled us to expand our horizons from conserving food and water for survival to saving whales elephants and our cultural heritage In the Anthropocene our scientific knowledge and modern sensibilities offer hope for combating global warming and creating a planet able to sustain the wealth of life but only if we use our unique cultural capacity of cooperation to plan our future **Indigenism in Africa** Felix Mukwiza Ndahinda, 2011-04-27 With a Foreword by Prof Asbjørn Eide a former Chairman of the UN Working Group on Indigenous Populations Chairman of the UN Working Group on Minorities President of the Advisory Committee on National

Minorities of the Council of Europe Following the internationalization of the indigenous rights movement a growing number of African hunter gatherers pastoralists and other communities have channelled their claims for special legal protection through the global indigenous rights movement Their claims as the indigenous peoples of Africa are backed by many international actors such as indigenous rights activists donors and some academia However indigenous identification is contested by many African governments some members of non claimant communities and a number of anthropologists who have extensively interacted with claimant indigenous groups This book explores the sources as well as the legal and political implications of indigenous identification in Africa By highlighting the quasi inexistence of systematic and discursive rather than activist studies on the subject matter the analysis questions the appropriateness of this framework in efforts aimed at empowering claimant communities in inherently multiethnic African countries The book navigates between various disciplines in trying to better capture the phenomenon of indigenous rights advocacy in Africa The book is valuable reading for academics in law and all other social sciences such as anthropology sociology history political science as well as for economists It is also a useful tool for policy makers legal practitioners indigenous rights activists and a wide range of NGOs

Empire of Borders Todd Miller, 2019-08-06 The United States is outsourcing its border patrol abroad and essentially expanding its borders in the process The twenty first century has witnessed the rapid hardening of international borders Security surveillance and militarization are widening the chasm between those who travel where they please and those whose movements are restricted But that is only part of the story As journalist Todd Miller reveals in *Empire of Borders* the nature of US borders has changed These boundaries have effectively expanded thousands of miles outside of US territory to encircle not simply American land but Washington's interests Resources training and agents from the United States infiltrate the Caribbean and Central America they reach across the Canadian border and they go even farther afield enforcing the division between Global South and North The highly publicized focus on a wall between the United States and Mexico misses the bigger picture of strengthening border enforcement around the world *Empire of Borders* is a tremendous work of narrative investigative journalism that traces the rise of this border regime It delves into the practices of extreme vetting which raise the possibility of ideological tests and cyber policing for migrants and visitors a level of scrutiny that threatens fundamental freedoms and allows once again for America's security concerns to infringe upon the sovereign rights of other nations In Syria Guatemala Kenya Palestine Mexico the Philippines and elsewhere Miller finds that borders aren't making the world safe they are the frontline in a global war against the poor
