Anderson, 2004-08      The International Confectioner , 1924      **The Money Machines** Clifton K. Yearley, Professor Clifton K Yearley, 1970-01-01 The Money Machines advances the provocative thesis that the mechanisms for financing state and local government in the Northern United States from 1860 to 1920 were deeply enmeshed with those financing the extralegal often illegal activities of the major political parties complicating reform or change mandated by the post Civil War breakdown of the North's legal fiscal machinery Few reformers then recognized the interdependence of government and the party money machines fewer still acknowledged the effectiveness or social value of the extralegal machines On the contrary basic fiscal reform in this period was characterized by attempts to exorcise politics in any form which in turn provoked counteraction from politicians whose organizations had the same need for efficient reliable revenue systems as did governments Dr Yearley demonstrates the failure of the established legal money machines to cope with the demands of postwar governments facing industrialization and urbanization He characterizes the revolt of old and new middle classes against fiscal inequity and inefficiency and shows how much of the North's new wealth escaped taxation altogether while much of its old wealth similarly went into hiding Because of its forbidding complexities tax reform was sustained by a small group of experts from the middle class whose sincerity and competence were unquestionable but whose reformism evidenced the peculiar views and prejudices of their class Here therefore the graft grabbing politician is presented in a fresh light In his efforts to maintain his sources of revenue and power he emerges as a vital instrument of mass democracy of the new politics of the ever growing urban lower classes as well as their principal source of government welfare or support The author reevaluates the Gilded Age politician in several important ways principally regarding his power relationship to the business communities and his ability to perform his job well despite middle class disdain and continual allegations of fraud and incompetence Further Dr Yearley shows that often politicians were ahead of reformers in their fiscal thinking in recognizing and utilizing taxation of income rather than of property The volume considers in some depth several individual reformers revealing them to be among other things prototypes of present academic experts used by government to manage problems too complex for laymen The book then proceeds to explain essential changes made in local fiscal systems and which of these were to be the most effective explanations that are of particular interest in view of the continuing crises in state and local financing today      *The MACHINE CRUSADE* BRIAN. **Dune: The Butlerian Jihad**

Brian Herbert, Kevin J. Anderson, 2010-04-01 Frank Herbert's Dune series is one of the grandest epics in the annals of imaginative literature. Selling millions of copies worldwide, it is science fiction's answer to *The Lord of the Rings*, a brilliantly imaginative epic of high adventure, unforgettable characters, and immense scope. Decades after Herbert's original novels, the Dune saga was continued by Frank Herbert's son, Brian Herbert, an acclaimed SF novelist, in his own right, in collaboration with Kevin J. Anderson. Their New York Times bestselling trilogy *Dune House*, *Atreides*, *Dune House*, *Harkonnen*, and *Dune House*, *Corrino* formed a prequel to the classic Herbert series that was acclaimed by reviewers and readers alike. Now Herbert and Anderson, working from Frank Herbert's own notes, reveal a pivotal epoch in the history of the Dune universe: the chapter of the saga most eagerly anticipated by readers, *The Butlerian Jihad*. Throughout the Dune novels, Frank Herbert frequently referred to the long ago war in which humans wrested their freedom from thinking machines. Now in *Dune Butlerian Jihad*, Brian Herbert and Kevin J. Anderson bring to life the story of that war, a tale previously seen only in tantalizing hints and clues. Finally, we see how Serena Butler's passionate grief ignites the war that will liberate humans from their machine masters. We learn the circumstances of the betrayal that made mortal enemies of House Atreides and House Harkonnen, and we experience the Battle of Corrino that created a galactic empire that lasted until the reign of Emperor Shaddam IV. Herein are the foundations of the Bene Gesserit Sisterhood, the Suk Doctors, the Order of Mentats, and the mysteriously altered Navigators of the Spacing Guild. Here is the amazing tale of the Zensunni Wanderers who escape bondage to flee to the desert world where they will declare themselves the Free Men of Dune. And here is the backward, nearly forgotten planet of Arrakis, where traders have discovered the remarkable properties of the spice melange. Ten thousand years before the events of Dune, humans have managed to battle the remorseless Machines to a standstill, but victory may be short-lived. Yet amid shortsighted squabbling between nobles, new leaders have begun to emerge. Among them are Xavier Harkonnen, military leader of the Planet of Salusa Secundus; Xavier's fiancée, Serena Butler, an activist who will become the unwilling leader of millions; and Tio Holtzman, the scientist struggling to devise a weapon that will help the human cause. Against the brute efficiency of their adversaries, these leaders and the human race have only imagination, compassion, and the capacity for love. It will have to be enough. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.
