Excerpt from Machine Politics Chicago Model If time and money had permitted the present study would have been entirely comparative Wherever possible an attempt has been made to show how typical of other cities the patterns of political behavior are in Chicago Fortunately in the past ten years a number of studies of the party politics of other cities has appeared and in so far as these studies yielded comparable data they have been compared with the findings reached in Chicago Peel's study of New York City political clubs Salter's and Kurtzman's quite different analyses of Philadelphia district leaders and Mosher's research on upstate committee men in New York State have all furnished the basis of significant comparisons However none of these studies of other cities purports to cover as broad a field as the present analysis The present study not only attempts to examine the party machine and the characteristics of the party workers but also presents an analysis of voting behavior in candidate and proposition elections Among the influences studied are the circulations of the important daily newspapers in Chicago To the writer's knowledge in no other city has so exhaustive a study been made of the social and economic background of voting behavior The present analysis is a highly condensed presentation of the main findings of a number of studies Preliminary manuscripts on the operation of the referendum in Chicago and on the 19928 committeemen are each longer than this book itself The case stories of ward and precinct committeemen could be amplified and multiplied Records were obtained regarding one hundred and seventy five ward leaders and nine hundred precinct captains As far as possible the materials presented are the most representative Those who are interested in a detailed study of two typical ward leaders in Chicago and the groups they serve should consult the author's Negro Politicians The Rise of Negro Politics in Chicago About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works Machine Politics Harold F. Gosnell, 1971 **Machine Politics** Harold Foote Gosnell, 1939 **Machine politics** Harold F. Gosnell, 1968 Machine Politics Harold Foote Gosnell, 1968 **Machine Politics in Transition** Thomas M. Guterbock, 1980-03-01 Since 1932 elections and decision making in Chicago have been dominated by the Regular Democratic Organization of Cook County led for a quarter of a century by the late Mayor Richard J Daley The extraordinary longevity of this Democratic machine provides the basis for this penetrating investigation into the nature of machine politics and grassroots party organization For three years Thomas M Guterbock participated in the daily activities of the Regular Democratic Organization in one North Side Chicago ward in

order to discover how political machines win the support of the urban electorate Guterbock's participant observation data supplemented by a sample survey of ward residents attitudes toward and contacts with the machine provide convincing evidence that the most widely accepted notions of how political machines work are no longer correct Contrary to conventional wisdom about the machine Guterbock finds that the party does not secure votes by doing favors for people nor do services rendered determine actual voting behavior Instead party loyalty is governed by such factors as social status educational achievement and bureaucratic competence Guterbock finds that Democratic loyalists are drawn disproportionately from the ward's lowest strata Ironically the characteristics of these loyal Democrats contrast sharply with the characteristics of those most likely to use party services What keeps the machine going then To answer this question Guterbock takes us behind the scenes for a unique look inside the ward club He shows how members develop loyalty and motivation beyond concern for their own pocketbooks And he analyzes the public involvement of machine politicians in neighborhood affairs describing the skillful sometimes devious ways in which they appeal to their constituents sense of community By focusing on the interplay of party loyalty and community attachments Guterbock is able to explain the continued hegemony of Chicago's political machine and its enduring image of legitimacy Machine Politics : Chicago Model. The Political Party Matrix J. P. Monroe, 2001-04-12 The Political Party Matrix focuses on the organizational life of the party as it emerges through the collaboration of elected officials Monroe argues that rather than experiencing an institutional or bureaucratic rebirth the parties remain what they have always been institutions through which elites coordinate their activities in the political process requiring neither an elaborate bureaucracy nor a formal organization Monroe contends that the growth of political staff allows the incumbent to attract and retain a stable core of workers who can handle the tasks vital to the maintenance of the incumbent's personal political apparatus Working together these personal political apparatuses create intricate structures for electoral coordination Using interviews and state and national data Monroe provides evidence that office holders and their organizations coordinate their efforts to help other candidates in the electoral arena they have a complex grooming and recruitment apparatus and they cooperate in government to satisfy their supporters The result is an elaborate party network based on the interaction and collaboration of these local units Political Science William J. Crotty, 1991 In this volume the study of legislatures has traditionally been a central preoccupation of political scientists Legislatures provide good laboratories for testing theories and methodologies of significance in the discipline and more broadly for contributing to an understanding of how representative government works *Bossism and Reform in a Southern City* James Duane Bolin, 2021-12-14 William Frederick Billy Klair 1875 1937 was the undisputed czar of Lexington Kentucky for decades As political boss in a mid sized southern city he faced problems strikingly similar to those of large cities in the North As he watched the city grow from a sleepy market town of 16 000 residents to a bustling active urban center of over 50 000 Klair

saw changes that altered not just Lexington but the nation and the world urbanization industrialization and immigration But Klair did not merely watch these changes like other political bosses and social reformers he actively participated in the transformation of his city As a political boss and a practitioner of what George Washington Plunkitt of Tammany Hall referred to as honest graft Klair applied lessons of organization innovation manipulation power and control from the machine age to bring together diverse groups of Lexingtonians and Kentuckians as supporters of a powerful political machine James Duane Bolin also examines the underside of the city once known as the Athens of the West He balances the postcard view of Bluegrass mansions and horse farms with the city's well known vice district housing problems racial tensions and corrupt politics With the reality of life in Lexington as a backdrop the career of Billy Klair provides as a valuable and engaging case study of the inner workings of a southern political machine

The Pan American Book Shelf, 1948 **The American Presidency Under Siege** Gary L. Rose, 1997-01-01 Attributes the failure of the modern presidency to the development of a political system that inherently impedes creative leadership and offers prescriptive measures to restore the governing capacity of the president This book explores the failure of the modern American presidency a failure the author attributes to the development of a political system that impedes creative leadership The American presidency Gary L. Rose argues is under siege Surrounded and blockaded by a reactionary Congress an entrenched bureaucracy an aggressive media lobbyists political action committees and special interest groups American presidents fail not because of a lack of ability or character but because of the political system and style of politics inside the Beltway Rose ascribes this emergence of a political system that obstructs presidential leadership to the decline of political parties as electoral and governing mechanisms As political parties have declined presidents have lost vital political connections that historically have enhanced their capacity to lead He presents a variety of prescriptive measures including political party and legal reform that have the potential to restore political parties and the governing capacity of the presidency This book fills an important gap in the literature on both the presidency and parties The most original and provocative parts of the book concern the author's proposals for reforming the national conventions in order to revitalize them as decision making federal bodies and thus to simultaneously de-emphasize the role of candidate centered party weakening primaries Also I am intrigued by the fact that Rose elaborates on the role of patronage in party building and explores patronage reform for the purpose of both strengthening the parties and helping presidents govern more effectively Sean J. Savage Saint Mary's College The unique quality of this book is the manner in which it presents the problems of the presidency and the exciting manner in which it chooses among the various reforms presented The result is a very readable and stimulating book on the presidency It will take its place with Cronin's *The State of the Presidency* and *Rethinking the Presidency* as an important work in presidential studies but it will stand alone because of its critical and

prescriptive character Robert D Loevy Colorado College Women, Gender, and Politics Mona Krook, Sarah Childs, 2010-03-18 Six areas of research of the subjects of women gender and politics are debated social movements political parties elections political representation public policy and the state **Judge Aaron Jaffe: Reforming Illinois** Charles M. Wright Austin, 2018-03-01 Examines the continuing ethnic diversification of black America and its impact on black political empowerment In The Caribbeanization of Black Politics Sharon D Wright Austin explores the impact of ethnic diversification of African American communities on the prospects for black political empowerment Focusing on Boston Chicago Miami and New York City cities that for the last several years have experienced an influx of black immigrants she surveyed more than two thousand African Americans Cape Verdeans Haitians and West Indians Although many studies conclude that African American group consciousness causes them to participate in politics at higher rates when socioeconomic status is controlled for Wright Austin analyzes whether this is true for other black groups She assesses the current political incorporation of these groups by looking at data on public officeholders and by examining political coalitions and conflicts among the groups and she also discusses the possible future of black political development in these cities The greatest contribution of this book

is its analysis of black ethnics in a diverse geographic space Moving beyond the New York City lens to Boston Chicago and Miami is something that has never been done in political science This book is incredibly important Christina M Greer author of *Black Ethnics Race Immigration and the Pursuit of the American Dream* **Making a New Deal** Lizabeth Cohen, 2014-11-06 This book examines how it was possible and what it meant for ordinary factory workers to become effective unionists and national political participants by the mid 1930s We follow Chicago workers as they make choices about whether to attend ethnic benefit society meetings or to go to the movies whether to shop in local neighborhood stores or patronize the new A P As they made daily decisions like these they declared their loyalty in ways that would ultimately have political significance When the depression worsened in the 1930s workers adopted new ideological perspectives and overcame longstanding divisions among themselves to mount new kinds of collective action Chicago workers experiences all converged to make them into New Deal Democrats and CIO unionists First printed in 1990 *Making a New Deal* has become an established classic in American history The second edition includes a new preface by Lizabeth Cohen *Prejudice and the Old Politics* Allan J. Lichtman, 2000-01-01 Combining statistical analysis with well written narrative history this re evaluation of the 1928 presidential election gives a vivid portrait of the candidates and the campaign Lichtman has based his study primarily on a statistical analysis of data from that election and the presidential elections from 1916 to 1940 for all the 2 058 counties outside the former Confederate South Not relying exclusively on the results of his quantitative analysis however Lichtman has also made an exhaustive survey of previous scholarship and contemporary accounts of the 1928 election He discusses and challenges previous interpretations especially the ethnocultural and pluralist interpretations and the application of critical election theory to the election In disputing this theory which claims that 1928 was a realigning election in which the coalitions were formed that dominated future elections Lichtman determines that 1928 was an aberration with little impact on later political patterns
