Isotopes in Economic Geology, Metallogenesis and Exploration David Huston, Jens Gutzmer, 2023-06-19 This open access book documents the use of radiogenic and stable isotopes to study mineral deposits from a global to the deposit scale. It includes data sets that have been directly used in mineral exploration. Isotopic data have been key to developing models for the origin of many mineral deposit types. The book has four sections: 1 the use of radiogenic isotopes to date mineral deposits; 2 the use of radiogenic isotope mapping to understand metal sources and regional to district scale controls on metallogenesis; 3 the use of light stable isotopes to determine fluid and sulfur sources; and 4 the use of metallic stable isotopes to understand the sources of ore metals. Each section includes chapters on specific isotopic systems and/or mineral systems that provide information on theory, analytical methods, uses in deposit and metallogenic studies, examples, and traps for young players.

The Kid from Norfolk Island John S Croucher, 2019-06-01 This warm and lively biography provides insight not just into the life of Alf Pollard but also into Australian life from the 1920s right through to the 1990s. Born almost 100 years ago in Melbourne, Alf Pollard spent most of his childhood on Norfolk Island where his family leased a banana plantation. Despite having virtually no education in his early years, Pollard's tenacity and natural intelligence saw him top the state in the NSW Leaving Certificate and graduate from university with honours. He later gained a Masters degree and a PhD and at age 23 became one of the youngest people ever to qualify as an actuary. A brilliant businessman, Pollard became Deputy General Manager of the MLC in 1954, aged just 37, but was later controversially embroiled in the scandalous H G Palmer affair that led to his forced resignation from the MLC in January 1966. He was later appointed as the Foundation Professor in Economic Statistics at Macquarie University where he founded the first university actuarial program in the world. Pollard received many awards during his lifetime, including an Order of Australia, NSW Father of the Year, and a prestigious Doctor of Science degree. He served on the boards of many companies and helped save both the Sydney Eisteddfod and the Wesley Mission from bankruptcy.
