## **Mad Avenue Award Winning Advertising In The 20th Century:**

*Adman's Dilemma* Paul Rutherford, 2018-01-01 The *Adman's Dilemma* is a cultural biography that explores the rise and fall of the advertising man as a figure who became effectively a licensed deceiver in the process of governing the lives of American consumers. Apparently this personage was caught up in a contradiction both compelled to deceive yet supposed to tell the truth. It was this moral condition and its consequences that made the adman so interesting to critics, novelists and eventually filmmakers. The biography tracks his saga from its origins in the exaggerated doings of P. T. Barnum, the emergence of a new profession in the 1920s, the heyday of the adman's influence during the post WW2 era, the later rebranding of the adman as artist until the apparent demise of the figure symbolized by the triumph of that consummate huckster Donald Trump. In *The Adman's Dilemma*, author Paul Rutherford explores how people inside and outside the advertising industry have understood the conflict between artifice and authenticity. The book employs a range of fictional and nonfictional sources including memoirs, novels, movies, TV shows, websites and museum exhibits to suggest how the adman embodied some of the strange realities of modernity.

*Lights, Camera, Madison Avenue* Robert Naud, 2016-02-11 This inside look at the production of 20th century television commercials begins with a review of advertising's beginnings going through the 1960s and early 1970s. The author, a career Mad man, recounts lightheartedly his experiences on commercial productions both live and film in theaters and studios in New York City, at LBJ's ranch on the White House lawn, along Rome's Appian Way, in Lady Astor's dining room and on the Tryall Golf Course in Jamaica, among other places. The technical and people challenges involved in producing high end commercials for major corporations are given in often funny detail.

**20th Century Photographers** Grace Schaub, 2014-11-13 This book is a compilation of interviews and essays that cover a broad range of photographers and photographic disciplines. Each photographer profiled made a living by concentrating on a specific aspect of the craft but in doing so transcended their livelihood to become recognized for more than the type of images they created. Each had a distinct style, creative approach, dedication to the craft, point of view about themselves and the world. These interviews were conducted during a seminal period in the shift from film to digital and from print reproduction to global distribution on the Internet. Just like their photographs, continue to inspire today, now these pros' words can live on as an invaluable reference for the photographers of the future. The truth and wisdom in this collection
