produced particular anecdotes stories of a real skull in Hamlet superstitions about the name Macbeth toga troubles in Julius

Caesar and therefore express something embedded in the plays they attend Anecdotes constitute then not just a vital component of a play's performance history but a form of vernacular criticism by the personnel most intimately involved in their production actors These anecdotes are therefore every bit as responsive to and expressive of a play's meanings across time as the equally rich history of Shakespearean criticism or indeed the very performances these anecdotes treat Anecdotal Shakespeare provides a history of post Renaissance Shakespeare and performance one not based in fact but no less full of truth
