Mad Travelers:

Mad Travelers Ian Hacking, 1998 It all began one morning last July when we noticed a young man of twenty six crying in his bed in Dr Pitre s ward He had just come from a long journey on foot and was exhausted but that was not the cause of his tears He wept because he could not prevent himself from departing on a trip when the need took him he deserted family work and daily life to walk as fast as he could straight ahead sometimes doing 70 kilometers a day on foot until in the end he would be arrested for vagrancy and thrown in prison Dr Philippe Tissie July 1886 Thus begins the recorded case history of Albert Dadas a native of France s Bordeaux region and the first diagnosed mad traveler or fuguer An occasional employee of a local gas company Dadas suffered from a strange compulsion that led him to travel obsessively often without identification not knowing who he was or why he traveled He became notorious for his extraordinary expeditions to such far reaching spots as Algeria Moscow and Constantinople Medical reports of Dadas set off at the time of a small epidemic of compulsive mad voyagers the epicenter of which was Bordeaux but which soon spread throughout France to Italy Germany and Russia Today we are similarly besieged by mental illnesses of the moment such as chronic fatigue syndrome and attention deficit hyperactivity disorder The debate rages about which of these conditions are affectations or cultural artifacts and which are real In *Mad Travelers* Ian Hacking uses the Dadas case to weigh the legitimacy of cultural influences versus physical symptoms in the diagnosis of psychiatric disorders He argues that psychological symptoms find stable homes at a given place and time in ecological niches where transient illnesses flourish Using the records of Dadas s physician Philippe Tissie Hacking attempts to make sense of this strange epidemic While telling his fascinating tale he raises probing questions about the nature of mental disorders the cultural repercussions of their diagnosis and the relevance of this century old case study for today s overanalyzed society

Travel and Artisans in the Ottoman Empire Suraiya Faruqi, 2014-01-30 It has often been assumed that the subjects of the Ottoman sultans were unable to travel beyond their localities since peasants needed the permission of their local administrators before they could legitimately leave their villages However Suraiya Faruqi s extensive archival research shows that this was not the case Pious men from all walks of life went on pilgrimage to Mecca slaves fled from their masters and craftspeople travelled in search of work Faruqi shows that even those craftsmen who did not travel extensively had

Backpack Ambassadors Richard Ivan

Jobs,2017-05-23 Even today in an era of cheap travel and constant connection the image of young people backpacking across Europe remains seductively romantic In Backpack Ambassadors Richard Ivan Jobs tells the story of backpacking in Europe in its heyday the decades after World War II revealing that these footloose young people were doing more than just exploring for themselves Rather with each step each border crossing each friendship they were quietly helping knit the continent together From the Berlin Wall to the beaches of Spain the Spanish Steps in Rome to the Pudding Shop in Istanbul Jobs tells the stories of backpackers whose personal desire for freedom of movement brought the people and places of Europe into ever closer contact As greater and greater numbers of young people trekked around the continent and a truly international youth culture began to emerge the result was a Europe that even in the midst of Cold War tensions found its people more and more connected their lives more and more integrated Drawing on archival work in eight countries and five languages and featuring trenchant commentary on the relevance of this period for contemporary concerns about borders and migration Backpack Ambassadors brilliantly recreates a movement that was far more influential and important than its footsore travelers could ever have realized
