Mexico City, 1808 John Tutino, 2018-10-01 In 1800 Mexico City was the largest richest most powerful city in the Americas its vibrant silver economy an engine of world trade Then Napoleon invaded Spain in 1808 desperate to gain New Spain's silver He broke Spain's monarchy setting off a summer of ferment in Mexico City People took to the streets dreaming of an absent king seeking popular sovereignty and imagining that the wealth of silver should serve New Spain and its people until a military coup closed public debate Political ferment continued while drought and famine stalked the land Together they fueled the political and popular risings that exploded north of the capital in 1810 Tutino offers a new vision of the political violence and social conflicts that led to the fall of silver capitalism and Mexican independence in 1821 People demanding rights faced military defenders of power and privilege the legacy of 1808 that shaped Mexican history

education its numerous retirement and health care programs its control of public universities and its dominance **Mexico** City Nick Caistor,2000 A cultural guide to the Mexico City **Mexico-U.S. Migration Management** Augustín Escobar Latapí,Susan F. Martin,2008-10-23 The need to understand the migration between the United States and Mexico is greater today than at any time in its century long history Its volume and complexity are greater than most observers might have imagined even a decade ago and it operates in a context charged with serious human political and security challenges Yet there is often confusion over the most fundamental questions about the demography economics and political nature of the movement and its policy responses The editors of this book bring together a team of top policy oriented migration experts from Mexico and the United States to provide an up to date analysis leading to grounded policy recommendations for both governments Their conclusions derive from new analyses as well as from detailed discussions with policy makers Contributors assess the main characteristics trends and factors influencing Mexico U S migration and recommend actions that should improve migration management substantially reduce undocumented flows and refocus Mexican migration into legal channels Also contained within this book are recommendations of development strategies in Mexico that should reduce mid to long term emigration pressures The book shows that collaboration between the U S and Mexico is not only possible but necessary as unilateral reforms will continue to fail until both governments act together to regulate the flow improve conditions for the migrants and make sure that migration has positive social and economic impacts on both countries
