Madras The Gracious City:

Madras, the Gracious City S. Muthiah, 1990 **Madras, Its Past & Its Present** S. Muthiah, 1995 Diaspora of the Gods Joanne Punzo Waghorne, 2004-09-16 Many Hindus today are urban middle class people with religious values similar to those of their professional counterparts in America and Europe Just as modern professionals continue to build new churches synagogues and now mosques Hindus are erecting temples to their gods wherever their work and their lives take them Despite the perceived exoticism of Hindu worship the daily life style of these avid temple patrons differs little from their suburban neighbors Joanne Waghorne leads her readers on a journey through this new middle class Hindu diaspora focusing on their efforts to build and support places of worship She seeks to trace the changing religious sensibilities of the middle classes as written on their temples and on the faces of their gods She offers detailed comparisons of temples in Chennai formerly Madras London and Washington D C and interviews temple priests devotees and patrons In the process she illuminates the interrelationships between ritual worship and religious edifices the rise of the modern world economy and the ascendancy of the great middle class The result is a comprehensive portrait of Hinduism as lived today by so many both in India and throughout the world Lavishly illustrated with professional photographs by Dick Waghorne this book will appeal to art historians as well as urban anthropologists scholars of religion and those interested in diaspora transnationalism and trends in contemporary religion It should be especially appealing for course use because it introduces the modern Hinduism practiced by the friends and neighbors of students in the U S and Britain **Madras Rediscovered** S. Muthiah, 2004

Mortuary Monuments and Burial Grounds of the Historic Period Harold Mytum, 2012-12-06 Burial grounds strike an immediate chord with all who visit them They are land scapes full of pathos and cultural associations which many find attractive though a minority feel are too morbid to deserve detailed attention This book is designed to offer a framework for studying historic burial ground monuments and contains a certain amount of information regarding below ground archaeology as some projects will involve the study of both Moreover from a research perspective above and below ground archaeology together can throw considerable light on the process of dying body disposal and commemoration that formed a continuum for those involved However the more easily accessible graveyard memorials can be used to study many aspects of past culture beyond that directly associated with death and they are the focus of the book Most people who become interested in historic graveyard memorials come to the subject via the material itself Only rarely does a research question get posed and graveyard data seem like an appropriate arena for investigation This has the advantage that many researchers have some ideas about the data available but the disadvantage that they may not have clear questions to ask of it nor how to set their discoveries in a wider intellectual context The India Magazine of Her People and Culture ,1995 *Madras Discovered* S. Muthiah, 1987 **Architecture and Independence** Jon T.
