Stealing Fire from Heaven Nevill Drury,2011-03-02 The Western magical traditions are currently undergoing

an international resurgence In *Stealing Fire from Heaven* Nevill Drury offers an overview of the modern occult revival and seeks to explain this growing interest in ancient magical belief systems Gnosticism and the Hermetica the medieval Kabbalah Tarot and Alchemy and more recently Rosicrucianism and Freemasonry collectively laid the basis for the modern magical revival which first began to gather momentum in Europe at the end of the nineteenth century Western magic has since become increasingly eclectic drawing on such diverse sources as classical Greco Roman mythology Celtic cosmology Kundalini yoga and Tantra shamanism chaos theory and the various spiritual traditions associated in many different cultures with the Universal Goddess Drury traces the rise of various forms of magical belief and practice from the influential Hermetic Order of the Golden Dawn to the emergence of Wicca and Goddess worship as expressions of contemporary feminine spirituality He also explores Chaos Magick and the occult practices of the so called Left Hand Path as well as twenty first century magical forays into cyberspace He believes that the rise of modern Western magic stems essentially from the quest for personal spiritual transformation and direct experience of the sacred a quest which the trance occultist and visionary artist Austin Osman Spare once referred to as stealing fire from heaven Considered in this light Drury argues modern Western magic can be regarded as a form of alternative spirituality in which the practitioners seek direct engagement with the mythic realm

History of Religion The volume aims at initiating a comparative historiography of religion and combines disciplinary competences of Religious Studies and the History of Religion Confessional Theologies History History of Science and Literary Studies By applying literary comparison and historical contextualization to those texts that have been used as central documents for histories of individual religions their historiographic themes tools and strategies are analysed The comparative approach addresses circum Mediterranean and European as well as Asian religious traditions from the first millennium BCE to the present and deals with topics such as the origins of religious historiography the practices of writing and the transformation of narratives **Handbook of Religion and the Authority of Science** Jim R. Lewis, Olav

Hammer, 2010-11-19 There has been a significant but little noticed aspect of the interface between science and religion namely the widespread tendency of religions to appeal to science in support of their truth claims Though the appeal to science is most evident in more recent religions like Christian Science and Scientology no major faith tradition is exempt from this pattern Members of almost every religion desire to see their truths supported by the authority of science especially in the midst of the present historical period when all of the comforting old certainties seem problematic and threatened The present collection examines this pattern in a wide variety of different religions and spiritual movements and demonstrates the many different ways in which religions appeal to the authority of science The result is a wide ranging and uniquely compelling study of how religions adapt their message to one of the major challenges presented by the contemporary world

The interfaith movement which began with the 1893 World's Parliament of Religions in Chicago has grown worldwide Although this movement has been largely unknown to the public it now provides a spiritual face for globalization the economic and political forces leading us all from nationalism to One World The most ambitious organization in today's interfaith movement is the United Religions Initiative URI founded by William Swing the Episcopal Bishop of California Investigative reporter Lee Penn a Catholic ex Marxist exhaustively documents the history and beliefs of the URI and its New Age and globalist allies the vested interests that support these movements and the direction they appear to be taking The interfaith movement is no longer merely the province of a coterie of little heeded religious idealists with grandiose visions

The URI's proponents have ranged from billionaire George Soros to President George W Bush from the far right Rev Sun Myung Moon to the liberal Catholic theologian Hans K ng and from the Dalai Lama to the leaders of government approved Protestant churches in the People's Republic of China The interfaith movement including the URI is being promoted by globalist and New Age reformers who favor erosion of national sovereignty marginalization of traditional religions establishment of global governance and creation of a new Earth based global spirituality in effect a one world religion Therefore the URI and the interfaith movement are poised to become the spiritual foundation of the New World Order the new civilization now proposed by Mikhail Gorbachev the last leader of the Soviet Union In The Reign of Quantity and the Signs of the Times French metaphysician Ren Gu non spoke of the anti tradition the forces of materialism and secular humanism finally giving way to the counter tradition the satanic inversion of true spirituality leading to the regime of Antichrist The anti tradition weakens and dissolves traditional spiritualities after which the counter tradition sets up a counterfeit in their place Since Gu non's time as is well known anti traditional forces have greatly advanced worldwide It is less well known that counter traditional movements have also made great strides and now stand closer to the centers of global political and religious power than ever before The counter tradition is making inroads on the political and cultural Right as much as it is doing on the Left False Dawn painstakingly documents these trends and speculates on their future development In so doing the author takes investigative reporting to the threshold of prophecy and gives us a stunningly plausible picture of the global religious landscape of the 21st century This extraordinary project is the literary equivalent of turning over a flat rock There is much to be seen and learned here all of it unsettling disquieting occasionally downright scary William Murchison Radford Distinguished Professor Baylor University When a bishop of a Christian church happily worships alongside a Wiccan invoking other gods something has gone horribly wrong In False Dawn Lee Penn has produced a comprehensive and critical history of the United Religions Initiative This book sounds a clear warning Anyone who makes theological truth subservient to utopianism denigrates all religions Douglas LeBlanc Editor GetReligion.org [History Of Witchcraft](#) Jeffrey B Russell, Brooks Alexander, 2007-02-20 For nearly thirty years during which it has been continuously in print Jeffrey Russell's A History of Witchcraft has been the one authoritative concise illustrated history of witchcraft Now in collaboration with Brooks Alexander who has conducted innovative researches in the field this classic book has been fully revised with new chapters and illustrations publisher website June 2007 [Simpatias e Feitiços Poderosos - Poder Pessoal e Autoconfiança](#) Aurion, 2025-05-16 Desperte o Poder que J Existe em Voc Voc sente que poderia estar vivendo com mais confian a presen a e autenticidade Este n o apenas mais um livro de simpatias um verdadeiro guia de reconex o com sua for a interior Poder Pessoal e Autoconfian a inaugura a cole o Simpatias e Feiti os Poderosos com uma proposta transformadora unir sabedoria ancestral pr ticas espirituais e autoconhecimento para ajud lo a se tornar protagonista da sua pr pria hist ria Por meio de ensinamentos profundos rituais acess veis e orienta es pr ticas voc aprender a cultivar sua energia dissolver
