This book explores the extent to which historical and recent Western media coverage has reflected and continues to reflect the foreign policies of the United States and the United Kingdom towards ten non-Western countries: Afghanistan, China, Cuba, Haiti, Iran, Palestine, Russia, Serbia, Syria, and Vietnam. Chapters analyse media coverage before, during, and after war, and geo-political and economic conflicts. Drawing from diverse perspectives and methods, including historical analysis, content analysis, critical discourse analysis, and critical linguistics, Journalism and Foreign Policy offers original insight into the Western media's representation of important global events and developments, as well as the key scholarly issues of propaganda and digital

Media, Wars and Politics Ekaterina Balabanova, 2017-11-30 The interaction between media and foreign policy is a critical dimension of the so called age of new military humanitarianism The media is now more effective in gathering and distributing information all over the world and media coverage of humanitarian wars allows for information and images to reach a wide audience with great immediacy and realism For policy making the 24/7 news cycle means high levels of exposure to fast breaking international stories receiving global attention and producing a powerful do something effect This topical book widens the debate beyond US media and policy making by considering the case of Western and Eastern European media and policy processes It tests the wider application of existing theoretical approaches and provides useful comparisons allowing the reader to draw conclusions on the media policy relationship It is an excellent resource for all those interested in political communication European politics and media studies **US Foreign Policy** Michael Cox, Doug Stokes, 2012-02-09 This textbook provides a comprehensive introduction to US foreign policy Bringing together a number of the world's leading experts the text deals with the rise of America US foreign policy during and after the Cold War and the complex issues facing the US since September 11th *News Media and EU-China Relations* L. Zhang, 2011-04-11 An exploration of the role of the news media in the development of EU China relations after the end of the Cold War this book provides empirical evidence to support what Nye and Anholt have argued that branding a country's image is soft power The author examines the nature of European Union and China coverage in Chinese and European news media respectively and explores how the economics politics and journalistic practice interplay in shaping the coverage Based on this analysis the author delves into the relationship between the news media and their foreign policy toward each other in terms of both the general direction of policy making and the policy in a specific issue area Including not only content analysis of media coverage but also has first hand interview materials with the officials involved in the decision making process and the journalists involved in reporting the EU and China the book sheds light on the way in which the media construct the post Cold War world and therefore play a role in transforming international relations *The Media and Political Process* Eric Louw, 2010-02-17 How have professional communicators transformed the business of politics How do political bodies use the media to sell domestic and foreign policies to the public This fully revised new edition of *The Media and Political Process* assesses the impact of spin doctoring

and media activity in liberal democracies that are just as concerned with impression management and public relations as with policy. Political processes never stand still and this revised second edition explores the mediatisation of the political process in light of recent developments from Vladimir Putin's growth into a political celebrity to the activities of spin doctors in the 2008 US Presidential Elections. Providing a comprehensive overview of the evolution, operation and terminology of political communication, this text is an accessible, lively resource for students of political communication and media and politics and will be important further reading for students of journalism, public relations and cultural studies.
