literary journalist rather than the subject being interviewed can become the hero of a narrative in its recording and retelling

Latin American Documentary Narratives covers a variety of nonfiction genres from the 1950s to the 2000s that address topics such as social protests dictatorships natural disasters crime and migration in Latin America This book analyzes and includes an appendix of interviews with authors who have not previously been critically read together from the early and emblematic works of Gabriel Garc a M rquez and Elena Poniatowska to more recent authors like Leila Guerriero and Juan Villoro who are currently reshaping media and audiences in Latin America In a world overwhelmed by data production and marked by violent acts against those considered others Liliana Ch vez D az argues that storytelling plays an essential role in communication among individuals classes and cultures [America's Communal Utopias](#) Donald E. Progressive Era in the USA: 1890-1921 Kristofer Allerfeldt, 2017-05-15 Few periods in American history have been explored as much as the Progressive Era It is seen as the birth place of modern American liberalism as well as the time in which America emerged as an imperial power Historians and other scholars have struggled to explain the contradictions of this period and this volume explores some of the major controversies this exciting period has inspired Investigating subjects as diverse as conservation socialism or the importance of women in the reform movements this volume looks at the lasting impact of this productive yet ultimately frustrated generation's legacy on American and world history *Biographical Dictionary of North American and European Educationists* Richard Aldrich, Peter Gordon, 2023-05-09 This is a guide to the lives and work of more than 500 Americans Canadians and Europeans in the categories subsumed under the term educationists Entries are almost entirely restricted to those with main careers in the 19th and 20th centuries none of the subjects is still living Ageing and Contemporary Female Musicians Abigail Gardner, 2019-07-11 Ageing and Contemporary Female Musicians focuses on ageing within contemporary popular music It argues that context genres memoirs racial politics and place all contribute to how women are aged in popular music Framing contemporary female musicians as canonical grandmothers Rude Girls neo Afrofuturist and memoirists settling accounts the book gives us some respite from a decline or denial narrative and introduces a dynamism into ageing Female rock memoirs are age appropriate survival stories that reframe the histories of punk and independent rock music Old age has a functional and canonical place in the work of Shirley Collins and Calypso Rose Janelle Mon e Christine and the Queens and Anohni perform queer age specifically a kind of going beyond both corporeal and temporal borders Genres age and the book introduces the idea of the time crunch an encounter between an embodied represented age and a genre age which is itself produced through historicity and aesthetics Lastly the book goes behind the scenes to draw on interviews and questionnaires with 19 women involved in the contemporary British and American popular music industry DIY and ex musicians producers music publishers music journalists and audio engineers Ageing and Contemporary Female Musicians is a vital intergenerational feminist viewpoint for researchers and students in gender studies popular music popular culture media studies cultural studies and ageing studies **African American Autobiography and the Quest for Freedom** Roland L. Williams Jr., 2000-01-30 Slave narratives were one of the earliest forms of African American writing These works autobiographical in nature later fostered other pieces of African American autobiography Since the rise of Black Studies in the late 1960s leading critics have constructed black lives and letters as antitheses of the ways and writings of mainstream American culture According to such thinking black writing stems from a set of experiences very different from the world of whites and black autobiography must therefore differ radically from heroic white American tales But in pointing to differences between black and white autobiographical works these critics have overlooked the similarities This volume argues that the African American autobiography is a continuation of the epic tradition much as the prose narratives of voyage by white Americans in the nineteenth century likewise represent the

evolution of the epic genre The book makes clear that the writers of black autobiography have shared and shaped American culture and that their works are very much a part of American literature An introductory essay provides a theoretical framework for the chapters that follow It discusses the origins of African American autobiography and the larger themes of the epic tradition that are common to the works of both black and white authors The book then pairs representative African American autobiographies with similar works by white writers Thus the volume matches Olaudah Equiano's slave narrative with The Autobiography of Benjamin Franklin the Narrative of the Life of Frederick Douglass An American Slave with Richard Henry Dana's Two Years Before the Mast and Harriet Jacobs Incidents in the Life of a Slave Girl with Fanny Fern's Ruth Hall The study indicates that these various works all recognize the importance of learning as a means for attaining freedom The final chapter provides a broad survey of the African American autobiography

Eastern European Jewish American Narratives, 1890-1930 Dana Mihailescu, 2018-06-29 The compelling argument of Eastern European Jewish American Narratives 1890 1930 Struggles for Recognition is that narratives of Eastern European Jewish Americans are important discourses offering a response to America's norms of assimilation rationalized progress and control in the early twentieth century under the guise of commitment to the specificity of individual experiences The book sheds light on how these texts suggest an alternative ethical agency which encompasses both mainstream and minority practices and which capitalizes on the need of keeping alive individual responsibility and vulnerability as the only means to actually create a democratic culture In that this book opens up novel areas of inquiry and research for both the academic world and the social and cultural fields facilitating the rediscovery of long neglected Eastern European Jewish American writers and the rethinking of the more familiar authors addressed
