Reading Old Testament Narrative as Christian

Scripture Douglas S. Earl, 2017-03-03 Douglas Earl sets out a fresh perspective on understanding what is involved in reading Old Testament narrative as Christian Scripture Earl considers various narratives as examples that model different interpretive challenges in the form of exegetical ethical historical metaphysical and theological difficulties Using these examples the significance of interpretive approaches focused on authorial intention history of composition canonical context reception history and reading context are considered in conjunction with spiritual literary structuralist existential historical critical and ethical critical approaches Christian interpretation of Scripture as Scripture is shown to be an inherently ad hoc task understood as a rule governed practice in Wittgenstein's sense an established goal directed activity for which no method hermeneutical principle or critical perspective discovers meaning or generates good interpretation Good interpretation involves exploration of various construals of the world of the text using hermeneutics of tradition and critique of ideology Ricoeur The interpreter's task is to discern faithful readings and develop their significance in a given intellectual or cultural context The interpretation of Scripture and its appropriation is seen to involve wisdom in forming judgments on a case by case basis learned through examples and experience on what constitutes good interpretation and use Earl shows how traditional hermeneutics and contemporary critical resources suggest that history ethics and theology can rarely be read off Old Testament narrative but also how Christians can appropriate ethically and historically problematic books such as Joshua faithfully adopt a minimalist approach to 1 2 Samuel and embrace a Trinitarian reading of Genesis 1
