Living and Nursing in America - The Way it Is and Was Dawn Griffis,2011-07 Dawn was born England 1940 just after the start of WWII Raised in a Northamptonshire village she trained as a nurse when training was done in hospitals The work was hard lasting 60 to 72 hours a week taking classes in her spare time She married Mike an American in 1962 In 1965 they moved to the States with two daughters She continued her nursing career She was shocked by the patient care the attitudes of medical staff towards patients and nurses The discourtesy to nurses who had obviously received limited training was unprofessional This charts her experiences of the medical social aspects of living in the USA She and her family moved many times living in 9 different states working in a variety of medical facilities Her experiences should shock horrify you She reveals a mountain of medical incompetence misdemeanors Sadly much generated by greed Different states had varying levels of care Upon reaching VA Hospital Vermont the level was more like she was used to in England

Exploring New Hampshire Through Project-Based Learning Carole Marsh,2016-05-17 Exploring New Hampshire through Project Based Learning includes 50 well thought out projects designed for grades 3 5 In assigning your

students projects that dig into New Hampshire s geography history government economy current events and famous people you will deepen their appreciation and understanding of New Hampshire while simultaneously improving their analytical skills and ability to recognize patterns and big picture themes Project based learning today is much different than the craft heavy classroom activities popular in the past Inquiry planning research collaboration and analysis are key components of project based learning activities today However that doesn t mean creativity individual expression and fun are out They definitely aren t Each project is designed to help students gain important knowledge and skills that are derived from standards and key concepts at the heart of academic subject areas Students are asked to analyze and solve problems to gather and interpret data to develop and evaluate solutions to support their answers with evidence to think critically in a sustained way and to use their newfound knowledge to formulate new questions worthy of exploring While some projects are more complex and take longer than others they all are set up in the same structure Each begins with the central project driving questions proceeds through research and supportive questions has the student choose a presentation option and ends with a broader view inquiry Rubrics for reflection and assessments are included too This consistent framework will make it easier for you assign projects and for your students to follow along and consistently meet expectations Encourage your students to take charge of their projects as much as possible As a teacher you can act as a facilitator and guide The projects are structured such that students can often work through the process on their own or through cooperation with their classmates
