Operas Operatic Style Of John Frederic:

The Theatre Career of Thomas Arne Todd Gilman, 2013 This book concerns the life and theatrical career of the great native born English composer and musician of the eighteenth century Thomas Augustine Arne 1710 1778 Its purpose is three fold First it provides a comprehensive biography and account of the performance and publication of Arne s works during his lifetime Although Arne s childhood years get some attention the book focuses on the period from 1732 to 1778 a time of great innovation for English opera and related genres Second it considers Arne s social context his relationships with the many dramatists actors singers and fellow composers and instrumentalists including many members of his own family with whom he collaborated on the London and Dublin stages as well as at the London pleasure gardens Third it offers analysis of eighty musical illustrations drawn from vocal works for the theatre spanning Arne s career and readers can simultaneously study and listen to the musical examples on a companion web page that hosts media files produced using music notation software The audio component constitutes a crucial supplement to a study of Arne because so much of his extant theatre music cannot otherwise readily be heard Arne was the leading figure in English theatrical music of his day Dr Charles Burney the great eighteenth century historian of music had a high opinion of the composer especially of Arne s setting of Milton s Comus 1738 In this masque he introduced a light airy original and pleasing melody wholly different from that of Purcell or Handel whom all English composers had hitherto either pillaged or imitated Indeed the melody of Arne at this time forms an era in English Music it was so easy natural and agreeable to the whole kingdom that it became the standard of all perfection at our theatres and public gardens Yet Burney s greatest compliment concerns Arne as a composer of secular vocal music He must be allowed to have surpassed Purcell in ease grace and variety During his forty six year career Arne composed music for over 100 stage works to say nothing of his myriad single songs cantatas and instrumental compositions Yet despite a relative wealth of source material scholars of theatre drama and music in our own time have almost completely ignored him As a consequence musicologists theatre historians and laypeople alike tend to evince a detrimentally limited sense of the magnitude of Arne s contribution to English music and especially to the history of English opera To listen to musical examples that accompany The Theatre Career of Thomas Arne please visit <http://www2.lib.udel.edu/udpress/thomasarne.htm>

Opera Remade, 1700-1750 Charles Dill, 2017-07-05 Opera in the first half of the eighteenth century saw the rise of the memorable composer and the memorable work Recent research on this period has been especially fruitful showing renewed interest in how opera operated within its local cultures what audience members felt was at stake in opera performances who the people composers and performers were who made opera possible The essays for this volume capture the principal themes of current research the idea of opera opera criticism the people of opera and the emerging technologies of opera *Opera in the British Isles, 1875-1918* Dr Paul Rodmell, 2013-12-28 While the musical culture of the British Isles in the long nineteenth century has been reclaimed from obscurity by musicologists in the last thirty years appraisal of operatic culture in

the latter part of this period has remained largely elusive Paul Rodmell argues that there were far more opportunities for composers performers and audiences than one might expect an assertion demonstrated by the fact that over one hundred serious operas by British composers were premiered between 1875 and 1918 Rodmell examines the nature of operatic culture in the British Isles during this period looking at the way in which opera was produced and consumed by companies and audiences the repertory performed social attitudes to opera the dominance of London s West End and the activities of touring companies in the provinces and the position of British composers within this realm of activity In doing so he uncovers the undoubted challenges faced by opera in Britain in this period and delves further into why it was especially difficult to make a breakthrough in this particular genre when other fields of compositional endeavour were enjoying a period of sustained growth Whilst contemporaneous composers and commentators and later advocates of British music may have felt that the country s operatic life did not measure up to their aspirations or ambitions there was still a great deal of activity and even if this was not necessarily that which was always desired it had a significant and lasting impact on musical culture in Britain

Opera Magazine ,1914 Tonic to the Nation: Making English Music in the Festival of Britain Nathaniel G. Lew,2016-07-01 Long remembered chiefly for its modernist exhibitions on the South Bank in London the 1951 Festival of Britain also showcased British artistic creativity in all its forms In Tonic to the Nation Nathaniel G Lew tells the story of the English classical music and opera composed and revived for the Festival and explores how these long overlooked components of the Festival helped define English music in the post war period Drawing on a wealth of archival material Lew looks closely at the work of the newly chartered Arts Council of Great Britain for whom the Festival of Britain provided the first chance to assert its authority over British culture The Arts Council devised many musical programs for the Festival including commissions of new concert works a vast London Season of almost 200 concerts highlighting seven centuries of English musical creativity and several schemes to commission and perform new operas These projects were not merely directed at bringing audiences to hear new and old national music but to share broader goals of framing the national repertory negotiating between the conflicting demands of conservative and progressive tastes and using music to forge new national definitions in a changed post war world
