Realpoetik Paul Hamilton, 2013-11-14 Realpoetik compares the writings of key German French and Italian Romantics with an eye to their differences from British Romanticism The principle of selection is to choose writers whose use of fiction is realistic not realist but fundamentally contributory to the purposes of non fictional discourse The political resonance audible when we put Real at the start of a compound noun is also true to the period looked at At that time positive political institutions were recovering from their upending in the French Revolution and their strategic re shaping in the period of Restoration after Napoleon In this volume Paul Hamilton pinpoints a moment when the political imagination was actually creative of political reality It is a long gloss on Friedrich Meinecke s description of the early Romantic period in Germany as that past era of teeming intellectual impulses with its excess of non political political ideals but Hamilton finds his insight into the contemporary inextricability of the ideal and the political true of France and Italy Before the existence of a unified Germany or Italy and in the new France after Napoleon there was an opportunity and a necessity to imagine the kind of nation which would be desirable Realpoetik examines the extent to which this illuminates the fiction and philosophy of Friedrich Schlegel Madame de Sta l Giacomo Leopardi and others It also reflects on current dissatisfaction with existing political arrangements and our contemporary desire to re imagine a new more representative politics *California*

The Bourgeois Virtues Deirdre Nansen,2024-05-31 First in The Bourgeois Era trilogy A significant contribution to the study of the moral basis of economic life and thought her vision is original Jonathan S Feinstein Journal of Economic Literature For a century and a half the artists and intellectuals of Europe have scorned the bourgeoisie And for a millennium and a half the philosophers and theologians of Europe have scorned the marketplace The bourgeois life capitalism Mencken s booboisie and David Brooks s bobos all have been and still are framed as being responsible for everything from financial to moral poverty world wars and spiritual desuetude Countering these centuries of assumptions and unexamined thinking is Deirdre McCloskey s The Bourgeois Virtues a magnum opus that offers a radical view capitalism is good for us McCloskey s sweeping charming and even humorous survey of ethical thought and economic realities from Plato to Barbara Ehrenreich overturns every assumption we have about being bourgeois Can you be virtuous and bourgeois Do markets improve ethics Has capitalism made us better as well as richer Yes yes and yes argues McCloskey who takes on centuries of capitalism s critics with her erudition and sheer scope of knowledge Applying a new tradition of virtue ethics to our lives in modern economies she affirms American capitalism without ignoring its faults and celebrates the bourgeois lives we actually live High Noon Kant Bill Murray the modern novel van Gogh and of course economics and the economy all come into play in a book that can only be described as a monumental project and a life s work The Bourgeois Virtues is nothing less than a dazzling reinterpretation of Western intellectual history a dead serious reply to the critics of capitalism and a surprising page turner

The Ethics of Giacomo Leopardi Alice Gibson,2023-10-19 Providing a comprehensive introduction to the work of pioneering poet philosopher Giacomo Leopardi Alice Gibson pushes his thought into new directions by investigating how his ethics and philosophy of nature offer means for understanding and taking responsibility for the environmental crisis Through examination of the whole of Leopardi s oeuvre from the Zibaldone to the poems he wrote towards the end of his life this book disrupts the common image of Leopardi as a pessimist poet whose works contribute to the nihilistic tradition The Ethics of Giacomo Leopardi instead uncovers his forward looking views on living in a multispecies world in which humans live alongside other living beings in a delicate ecosystem that not only requires respect but also instigates wonder Bringing Leopardi s thought into dialogue with contemporary ecological theorists such as Donna Haraway Bruno Latour and Timothy Morton Gibson reveals how a Leopardian ethics of solidarity compassion and community is the guide we need today to reframe our relationship with nature

*Bourgeois Equality* Deirdre Nansen McCloskey,2020-03-04 How standards of living have skyrocketed since 1800 and the political philosophy that made it possible Persuasive richly detailed and erudite

Financial Times There's little doubt that most humans today are better off than their forebears. Stunningly so, the economist and historian Deirdre McCloskey argues in this concluding volume of her trilogy celebrating the oft derided virtues of the bourgeoisie. The poorest of humanity, McCloskey shows, will soon be joining the comparative riches of Japan and Sweden and Botswana. Why? Most economists, from Adam Smith and Karl Marx to Thomas Piketty, say the Great Enrichment since 1800 came from accumulated capital. McCloskey disagrees fiercely. Our riches, she argues, were made not by piling brick on brick, bank balance on bank balance, but by piling idea on idea. Capital was necessary, but in the same way that oxygen is necessary for a fire. Nor were institutions the drivers. The World Bank orthodoxy of adding institutions and stirring hasn't worked. McCloskey builds a powerful case for the initiating role of ideas: ideas for electric motors and free elections, of course, but more deeply, the bizarre and liberal ideas of equal liberty and dignity for ordinary folk. Liberalism arose from theological and political revolutions in northwest Europe, yielding a unique respect for betterment and its practitioners and upending ancient hierarchies. Commoners were encouraged to have a go, and the bourgeoisie took up the Bourgeois Deal, and we were all enriched. Few economists or historians write like McCloskey; her ability to invest the facts of economic history with the urgency of a novel or of a leading case at law is unmatched. She summarizes modern economics and modern economic history with verve and lucidity yet sees through to the really big scientific conclusion: Not matter, but ideas. Big books don't come any more ambitious or captivating than *Bourgeois Equality*. Genre, 2000. Program of the Annual Meeting - American Historical Association. American Historical Association, 1980. American Historical Association. Meeting, 1984. *Crisis and Culture in Post-Enlightenment Germany*. Hans Schulze, David Richards, 1993-11-22. In the spirit of the comparatist Peter Heller, to whom this book is dedicated, twenty-three leading scholars from various disciplines explore the modern crisis consciousness: its origins in Romantic Germany and its rich, though troubled, cultural harvest. An ever-shifting crisis is the result of the new spirit of subjective individualism confronting the old rational and social orders. As these essays demonstrate, the contradictory dynamics of enlightenment and irrationalism inspired the course and the manifestations of German culture from Klopstock to the Historikerstreit of very recent history. Co-published with the McMaster Colloquium on German Literature, Art, and Thought. **World Literature Today**, 1984. **Program of the Annual Meeting**. American Historical Association, 1982. Some programs include also the programs of societies meeting concurrently with the association. **Monstrous Liminality**. Robert G. Beghetto, 2022-01-24. This book examines the transformation of the figure of the stranger in the literature of the modern age in terms of liminality. As a spectral monster that has a paradoxical and liminal relationship to both the sacred and the secular, the figure of the modern stranger has played a role in both adapting and shaping a culturally determined understanding of the self and the other. With the advent of modernity, the stranger, the monster, and the spectre became interconnected. Haunting the edges of

reason while also being absorbed into normal society all three together with the cyborg manifest the vulnerability of an age that is fearful of the return of the repressed Yet these figures can also become re appropriated as positive symbols able to navigate between the dangerous and chaotic elements that threaten society while serving as precarious and ironic symbols of hope or sustainability The book shows the explanatory potential of focusing on the resacralizing in a paradoxical and liminal manner of traditionally sacred concepts such as messianic time and the utopian and the conflicts that emerged as a result of secularized modernity s denial of its own hybridization This approach to modern literature shows how the modern stranger a figure that is both paradoxically immersed and removed from society deals with the dangers of failing to be re assimilated into mainstream society and is caught in a fixed or permanent state of liminality a state that can ultimately lead to boredom alienation nihilism and failure These monstrous aspects of liminality can also be rewarding in that traversing difficult and paradoxical avenues they confront both traditional and contemporary viewpoints enabling new and fresh perspectives suspended between imagination and reality past and future nature and artificial In many ways the modern stranger as a figure of literature and the cultural imagination has become more complicated and challenging in the post modern contemporary age both clashing with and encompassing people who go beyond simply the psychological or even spiritual inability to blend in and out of society However while the stranger may be altering once again the defining or essentializing the figure could result in the creation of other sets of binaries and thereby dissolve the purpose and productiveness of both strangeness and liminality The intention of *Monstrous Liminality* is to trace the liminal sphere located between the secular and sacred that has characterized modernity itself This space has consequently altered the makeup of the stranger from something external into a figure far more liminal which is forced to traverse this uncanny space in an attempt to find new meanings for an age that is struggling to maintain any
