Church leaders and church attenders have always known there is something off with our current model of doing church. They just didn't know exactly what went wrong and why. We now realize the modern model is too top heavy, hierarchical and authoritarian when held up next to the flattened, gift rich and flexible style of the New Testament church. We may even know the historical damage that our modern models have caused. But have we actually looked at the results of our systems and structures over the past couple millennia? The book just asks a simple question: have we produced more Pharisees than disciples?
