Fudge,2014-12-05 When I play with my cat who knows if I am not a pastime to her more than she is to me Michel de Montaigne Why do we live with pets Is there something more to our relationship with them than simply companionship What is it we look for in our pets and what does this say about us as human beings In this fascinating book Erica Fudge explores the nature of this most complex of relationships and the difficulties of knowing what it is that one is living with when one

chooses to share a home with an animal Fudge argues that our capacity for compassion and ability to live alongside others is evident in our relationships with our pets those paradoxical creatures who give us a sense of comfort and security while simultaneously troubling the categories human and animal For what is a pet if it isn't a fully fledged member of the human family This book proposes that by crossing over these boundaries pets help construct who it is we think we are Drawing on the works of modern writers such as J M Coetzee Elizabeth Marshall Thomas and Jacques Derrida Fudge shows how pets have been used to think with and to undermine our easy conceptions of human animal and home Indeed Pets shows our obsession with domestic animals that reveals many of the paradoxes contra dictions and ambiguities of life Living with pets provides thought provoking perspectives on our notions of possession and mastery mutuality and cohabitation love and dominance We might think of pets as simply happy loved additions to human homes but as this captivating book reveals perhaps it is the pets that make the home and without pets perhaps we might not be the humans we think we are For anyone who has ever wondered like Montaigne what their cat is thinking it will be illuminating reading Pet Nation Mark Cushing,2021-09-21 Now in paperback and with an update about pets during COVID In the last 20 years pets have gone from the backyard to sleeping on our beds then showing up in every corner of America Pet Nation tells the story of this seismic shift and the economic media legal political and social dramas springing from this cultural transformation Since 1998 the pet population in the U S has almost doubled about two thirds of the country now owns a pet No longer left to wander the neighborhood dogs and cats eat special food get individualized medical attention and even fly in the cabin As founder of the Animal Policy Group Mark Cushing provides an inside look at the rise of Pet Nation tracking the myriad ways pets are acquired a Canine Freedom Train runs south to north reporting on pet rights legislation and the unseen problems that come with elevating their status pet healthcare revealing the truth and myths about large scale breeders and discovering that despite what many organizations would have us believe there is a shortage of dogs Insightful surprising and full of great stories Pet Nation opens our eyes to the big changes happening in front of us right now It shows us not only what our love of animals says about pets it shows us what it says about ourselves
