Potential Weapons A Novella And Stories:

Dancing On One Foot Shanti Elke Bannwart, 2012-03-15 *Dancing On One Foot* confronts a major issue World War II observed during the author's childhood in Nazi Germany. It explores the psychological imprint of that experience and the healing in later years after the author settles in the High Desert of the American Southwest. The book is also a tribute to the ability of women and children to survive hardships and celebrate life in all its straight and crooked ways to dance even if there's only one foot left to stand on. Here is the account of a woman's lifelong journey to understand what she came to face about war and her native country's part in a great crime. She is driven by a deep urge to lift the veil around the dark mystery of human violence. Yet an undercurrent of vibrant joy runs inside her and through this book. It infuses all the layers of her memory as if her wounding and the darkness of her story have fertilized her love of life. SHANTI ELKE BANNWART was born in Hamburg, Germany, at the onset of World War II. She moved to the United States in 1983 and studied at Lesley University, Cambridge, for her master's degree in Expressive Therapies. She also received a MFA in Creative Writing from Goddard College and is now a Life Coach and psychotherapist in private practice in Santa Fe, New Mexico, and a clay artist educated at the Institute of American Indian Arts. Her essays have been published in national and international magazines, and she has been awarded various winning prizes in literary competitions.

Chicano Authors Bruce Novoa, 2014-04-15 The need for this book became apparent to Bruce Novoa when he first taught a Chicano culture course in 1970. His students could find no source to satisfy their curiosity about Chicano writers' backgrounds, opinions, and attitudes. *Chicano Authors: Inquiry by Interview* provides that information. Fourteen leading Chicano authors respond to questions about their personal and educational backgrounds, their perception of the role of the Chicano writer, and their evaluation of the literary, linguistic, and sociocultural significance of Chicano literature. The authors included are Jos Antonio Villarreal, Rolando Hinojosa, Sergio Elizondo, Miguel M. Ndez, M. Abelardo Delgado, Jos Montoya, Tom's Rivera, Estela Portillo, Rudolfo A. Anaya, Bernice Zamora, Ricardo Sanchez, Ron Arias, Tino Villanueva, and Alurista. Each interview is preceded by a brief introductory note which locates the author in the context of Chicano literature and provides a sense of his or her writing. Also included are a general introduction to Chicano literature, a chronological chart of publications by genre, and a selected bibliography. The volume will be an essential research tool for the student of Chicano literature and culture and a useful introduction for the general reader.

Dr. Strangelove or: How I Learned to Stop Worrying and Love the Bomb Peter Krämer, 2017-10-07 Stanley Kubrick's *Dr. Strangelove or: How I Learned to Stop Worrying and Love the Bomb* (1964) has long been recognised as one of the key artistic expressions of the nuclear age. Made at a time when nuclear war between the United States and the Soviet Union was a real possibility, the film is menacing, exhilarating, thrilling, insightful, and very funny. Combining a scene-by-scene analysis of *Dr. Strangelove* with new research in the Stanley Kubrick Archive, Peter Krämer's study foregrounds the connections the film establishes between the Cold War and World War II and between sixties America and Nazi Germany. How did the film come

Book Review Digest , 1906 The Story of Nursing in British Mental Hospitals Niall McCrae, Peter Nolan, 2016-02-22 From their beginnings as the asylum attendants of the 19th century mental health nurses have come a long way This comprehensive volume is the first book in over twenty years to explore the history of mental

health nursing and during this period the landscape has transformed as the large institutions have been replaced by services in the community McCrae and Nolan examine how the role of mental health nursing has evolved in a social and professional context brought to life by an abundance of anecdotal accounts Moving from the early nineteenth to the end of the twentieth century the book's nine chronologically ordered chapters follow the development from untrained attendants in the pauper lunatic asylums to the professionally qualified nurses of the twentieth century and finally consider the rundown and closure of the mental hospitals from nurses' perspectives Throughout the argument is made that whilst the training organisation and environment of mental health nursing has changed the aim has remained essentially the same to develop a therapeutic relationship with people in distress McCrae and Nolan look forward as well as back and highlight significant messages for the future of mental health care For mental health nursing to be meaningfully directed we must first understand the place from which this field has developed This scholarly but accessible book is aimed at anyone with an interest in mental health or social history and will also act as a useful resource for policy makers managers and mental health workers
