Readings In African Politics:

Readings in African Politics Tom Young, 2003 Table of contents Readings in African Political Thought Gideon-Cyrus Makau Mutiso, S. W. Rohio, 1975 **Readings in Gender in Africa** Andrea Cornwall, International African Institute, 2005-02-14 *Readings in Gender in Africa* collects the most important critical and theoretical writings on how gender issues have transformed contemporary views of Africa. Scholarship from North America, Europe, and Africa is represented in this comprehensive volume. A synthetic introduction by Andrea Cornwall discusses efforts to include women in research about Africa. The volume not only shows how gender relations have been constructed on the African continent but reflects the changes in approach and inquiry that have been brought about as scholars consider gender identities and difference in their work. Specific themes covered here include the contestation and representation of gender, femininity and masculinity, livelihoods and lifeways, gender and religion, gender and culture, and gender and governance. Readers from across the landscape of African studies will find this an essential sourcebook. Published in association with the International African Institute, London.

A Companion to African Philosophy Kwasi Wiredu, 2008-04-15 This volume of newly commissioned essays provides comprehensive coverage of African philosophy ranging across disciplines and throughout the ages. Offers a distinctive historical treatment of African philosophy. Covers all the main branches of philosophy as addressed in the African tradition. Includes accounts of pre-colonial African philosophy and contemporary political thought. *TIMES AND THOUGHTS OF AFRICAN POLITICAL THINKERS* Godfrey O. Ozumba & Elijah Okon John (Edited), 2017-01-07 This book is aimed principally at assessing the political theories of some of the most prominent African political philosophers and nationalists who from diverse perspectives responded to the African Black Man's predicament. The contributors who are seasoned scholars drawn from different universities and disciplines have made their marks in their various assessments of the positions of these political thinkers. I strongly recommend this book to students of philosophy, history, sociology, and political science. It is a must for human rights organizations, all those who are interested in redressing the African predicament, and the reading public. Endorsed by Edioms Research and Innovation Centre, E. RIC.

Politics of African Anticolonial Archive Shiera S. el-Malik, Isaac A. Kamola, 2017-03-03 African political writing of the mid 20th century seeks to critically engage with questions of identity, history, and the state for the purpose of national and human liberation. This volume collects an array of essays that reflect on anticolonialism in Africa broadly defined. Each contribution connects the historical period with the anticolonial present through a critical examination of what constitutes the anticolonial archive. The volume considers archive in a Derridean sense as always in the process of being constructed such that the assessment of the African anticolonial archive is one that involves a contemporary process of curating. The essays in this volume, as well as the volume itself, enact different ways of curating material from this period. The project reflects an approach to documents, arguments, and materials that can be considered international relations and world politics but in ways that intentionally leaves them

unhinged from these disciplinary meanings While we examine many of the same questions that have been asked within area studies African studies and International Relations we do so through an alternative archive In doing so we challenge the assumption that Africa is solely the domain of policy makers and area studies and African peoples as the objects of data

Readings from Reading Herbert Ekwe-Ekwe, 2011 The essays here underscore Herbert Ekwe-Ekwe's continuing optimism about the possibilities of Africans constructing post-Berlin states as the launch pad to transform the topography of the African renaissance Readings from Reading is a timely publication coming on the eve of the historic January 2011 referendum in south Sudan in which the people of the region will choose to vote to restore their national independence or get stuck hopelessly in the Sudan the first of the Berlin states that Africans tragically inherited in January 1956 Ekwe-Ekwe insists that the contemporary Africa state imposed on Africans by a band of European conqueror states and currently run by what the author describes as a shard of disreputable African regimes to exploit and despoil the continent's human and material resources cannot serve African interests The legacy as this study demonstrates has indeed been catastrophic The African overseers pushed the states into even deeper depths of genocidal and kakistocratic notoriety in the past 54 years as the grim examples of particularly Nigeria the Democratic Republic of the Congo and the Sudan depressingly underscore 15 million Africans have been murdered by African led regimes in these states and elsewhere in Africa since the Igbo genocide of 1977 1970 This is an engaging incisive wide ranging and multidisciplinary discourse salient features that have come to define Ekwe-Ekwe's groundbreaking scholarship of the past three decades The author covers an assemblage of diverse topics and themes which include the Igbo genocide the Jos massacres in central Nigeria Umar Farouk Abdul Mutallab's failed attempt to blow up an incoming aircraft over Detroit on Christmas Day 2009 African presence in Britain Robert Mugabe Muammar Gaddafi Obafemi Awolowo Omar al Bashir Charles Taylor Olusegun Obasanjo Ali Mazrui Andrew Young the G8 and Africa Africa debt African emigres remittances to Africa sub-Saharan Africa reparations to Africans African representation on the UN Security Council African choices for the Nobel Peace Prize Africa and the International Criminal Court Nigeria Cote d'Ivoire Kenya the Sudan and the Congo arms to Africa arms ban on Africa Finally on the subject of the restoration of independence the key connecting thread that links all the visitations Ekwe-Ekwe critically examines the contributions made variously on this cord by an impressive line up of some of the very best and brightest of African intellectuals Achebe Adichie Césaire Damas Coltrane Diop Equiano Ngugu Okigbo Senghor

Readings in the International Relations of Africa Tom Young, 2016-01-11 These readings in international relations in Africa grapple with the continent's changing place in the world The essays confront issues such as the increasing tempo of armed conflict the tendency of Western states and agencies to intervene in African settings the presence of China and the health of African states and their ability to participate in the global economy Questions regarding sovereignty leading regional actors conflict and resolution and the neoliberal African renaissance add to the broad thematic coverage presented in this timely volume

Bird, 2018-10-19 This book addresses the potential existence of shared foundational principles in the work of Immanuel Kant and a range of African political thought as well as their suitability in facilitating just and fair cross cultural dialogue The book first establishes an analytical framework grounded in a Kantian approach to understanding shared human principles suggesting that a drive to be self law giving may underpin all human interactions regardless of cultural background It then investigates this assumption by carrying out a theoretical analysis of texts and speeches from a variety of African scholarship ranging from the colonial period to the present day The analysis divided into three distinctive chapters covers the Ngritude movement African socialism and post colonial philosophers including such thinkers as Leopold Sedar Sengor Julius K Nyerere Kwame Nkrumah Kwame Anthony Appiah Kwasi Wiredu and Kwame Gyekye The author argues that underpinning each of their very different theoretical positions and arguments is a foundational argument for the importance of self law giving In doing so she highlights the need to respect this principle when embarking on cross cultural dialogues The book will be of interest to students and scholars in the fields of African political thought political theory and international relations Reading African American Autobiography Eric D. Lamoore, 2017-01-10 From the 1760s to Barack Obama this collection offers fresh looks at classic African American life narratives highlights neglected African American lives texts and genres and discusses the diverse outpouring of twenty first

century memoirs Report of the South African Association for the Advancement of Science South African Association for the Advancement of Science,1907 *A Christian and African Ethic of Women's Political Participation* Léocadie W. Lushombo,2022-11-30 This book surveys a broad panorama of Christian and African traditions to discover and assess the components that will illuminate and motivate a Christian and African ethic of women s political participation The author s primary lens for diagnosing the problems faced by women in Africa is Engelbert Mveng s concept of anthropological poverty that results from slavery and colonialism It affects women in unique ways and is exacerbated by the religious and cultural histories of women s oppression The author advocates an interplay between the sacredness of every individual s life a salient principle of Christian ethics and the collective consciousness of solidarity distinctive to African cultures This interplay can in turn foster a more enlightened approach to African masculinity Using a sophiological hermeneutic this in depth study undertakes a moral imagination through narrative criticism It argues that the existential reality of African women must be addressed as an essential element in the development of Christian socio political ethic The righteous solidaristic and resistant anger of women can transform patriarchy and inform Catholic social teaching The author draws on The Circle of concerned African women theologians postcolonial theorists inculturation theology African males and Jon Sobrino s liberation theology to present an innovative Christian ethic that will radically affect the lives of African women and inform feminist theology **Politics & the Struggle for Democracy in Ghana** Dr. Joseph K. Manboah-Rockson,2016-09-23 Politics the Struggle for Democracy in Ghana is a pioneering attempt to describe the Ghanaian political system define its parameters its structures and analyze the ups and downs of democratic transitions and the struggles thereof The book is a good fit for students pursuing courses in political science at the university level in Ghana or studying social science at Ghanaian Senior High Schools The Executive in African Governments Bereket H. Selassie,1974 *The Routledge Handbook of African Theology* Elias Kifon Bongmba,2020-05-25 Theology has a rich tradition across the African continent and has taken myriad directions since Christianity first arrived on its shores This handbook charts both historical developments and contemporary issues in the formation and application of theologies across the member countries of the African Union Written by a panel of expert international contributors chapters firstly cover the various methodologies needed to carry out such a survey Various theological movements and themes are then discussed as well as biblical and doctrinal issues pertinent to African theology Subjects addressed include Orality and theology Indigenous religions and theology Patristics Pentecostalism Liberation theology Black theology Social justice Sexuality and theology Environmental theology Christology Eschatology The Hebrew Bible and the New Testament The Routledge Handbook of African Theology is an authoritative and comprehensive survey of the theological landscape of Africa As such it will be a hugely useful volume to any scholar interested in African religious dynamics as well as academics of Theology or Biblical Studies in an African context **Postmodern Reading of Contemporary East African Fiction** Andrew Nyongesa,2024-02-29 This book likens writers incessant focus on racism

negative ethnicity patriarchy and social stratification in societies to a naïve physician who prescribes analgesics to treat symptoms while the underlying cause of the disease seethes in the blood In the same way persons who consistently blame their reckless conduct and shabbiness miss the point if they do not transform the actual cause of the problem the mind While most literary scholars problematise gender disparities racial and political othering oppression environment degradation education matters poor parenting and governance they tend to disregard the root cause modernism This book finds a gap in this grey area to address the authentic cause of the symptoms that most literary writers and scholars treat Pertinent modernist tenets such as bureaucracy the nation state systematisation and rationality and dualism are at the heart of racism corruption and other aforementioned symptoms It is the contention of this study that postmodernism offers a comprehensive understanding of modernism to mitigate its effects on society

Religion and Politics in America Frank J.

Smith,2016-07-11 There has always been an intricate relationship between religion and politics This encyclopedia provides a comprehensive overview of the interrelation of religion and politics from colonial days to the present Can a judge display the Ten Commandments outside of the courthouse Can a town set up a nativity scene on the village green during Christmas Should U S currency bear the In God We Trust motto Should public school students be allowed to form bible study groups Controversies about the separation of church and state the proper use of religious imagery in public space and the role of religious beliefs in public education are constantly debated This work offers insights into contemporary controversies regarding the uneasy intersections of religion and politics in America Organized alphabetically the entries place each topic in its proper historical context to help readers fully grasp how religious beliefs have always existed side by side and often clashed with political ideals in the United States from the time of the colonies The information is presented in an unbiased manner that favors no particular religious background or political inclination This work shows that politics and religion have always had an impact on one another and have done so in many ways that will likely surprise modern students
