Donald G McCloud, 2019-06-26 Southeast Asia although not garnering the headlines of ten to twenty years ago is important in global politics Vietnam's domination of Indochina for example has polarized the region given the Soviet Union new regional access and magnified the military threat to Thailand Insurgency movements supported by the radical Left or Right continue to plague governments The Strait of Malacca the major sea lane through Southeast Asia provides primary access for the U S Pacific fleet to the Indian Ocean and the Middle East and is Japan's oil lifeline U S commercial and military interests remain strong in the Philippines and are expanding in Indonesia the world's fifth largest country with a population approaching 170 million people whereas Thailand Malaysia and Singapore are sources for investment raw materials and potential markets Thailand once closely allied with the United States has again renewed those ties in the face of Vietnam's expansion This comprehensive up to date textbook analyzes Southeast Asia in the context of regional and global political systems both traditional and contemporary After looking at the traditional patterns of interstate relations in the region Professor McCloud shows that Southeast Asia has been and continues to be dependent on the global system However he also identifies a neotraditional current in contemporary Southeast Asian politics as elements of traditional beliefs and values reassert themselves in policy and practice redefine the patterns of interstate behavior in the region and set the limits to dependence on the global system The book is intended as a primary text for courses on the history or politics of Asia or Southeast Asia regional development and integration and the role of Southeast Asia in world politics It will also be useful in survey courses in Asian studies comparative politics and Third World development Regional Organizations in International Society Kilian Spandler, 2018-09-20 This book explores the normative foundations of ASEAN and the EU It revives the history of the two organizations in an in depth narrative of the protracted arguments surrounding their establishment legal integration and enlargement While political actors used norms to legitimize their ideas for institutional change the complex and dynamic nature of these norms also provided the breeding ground for contestation and sometimes institutional sclerosis and failure Recasting these processes in an innovative English School framework the volume makes a crucial contribution to the literature of Comparative Regionalism that goes beyond Eurocentric perspectives Regionalism and Globalism in Southeast Asia E. Palmujoki, 2001-10-25 Eero Palmujoki examines the regionalist debate in Southeast Asia from the end of the Cold War up to the beginning of the new millennium He focuses on the organization of the ASEAN Association of Southeast Asian Nations and covers the political economic and security issues characterizing its development The book compares the theoretical debate with political developments in the region from the beginning of the post Cold War period with its rapid economic growth through the Asian economic crisis of 1997 and the resulting restructuring of Southeast Asian

regional systems *Proceedings of the Southeast Asian Conference on Migration and Development (SeaCMD 2023)*

communism but also an organization that reflects indigenous traditions Although Acharya deploys the notion of imagined community to examine the changes especially since the Cold War in the significance of ASEAN dealings for a regional identity he insists that imagination is itself not a neutral but rather a culturally variable concept The regional imagination in Southeast Asia imagines a community of nations different from NAFTA or NATO the OAU or the European Union In this new edition of a book first published as *The Quest for Identity* in 2000 Acharya updates developments in the region through the first decade of the new century the aftermath of the financial crisis of 1997 security affairs after September 2001 the long term impact of the 2004 tsunami and the substantial changes wrought by the rise of China as a regional and global actor Acharya argues in this important book for the crucial importance of regionalism in a different part of the world

(Re)Negotiating East and Southeast Asia Alice D. Ba, 2009-03-26 This book seeks to explain two core paradoxes associated with the Association of Southeast Asian Nations ASEAN How have diverse states hung together and stabilized relations in the face of competing interests divergent preferences and arguably weak cooperation How has a group of lesser self identified Southeast Asian powers gone beyond its original regional purview to shape the form and content of Asian Pacific and East Asian regionalisms According to Alice Ba the answers lie in ASEAN's founding arguments arguments that were premised on an assumed regional disunity She demonstrates how these arguments draw critical causal connections that make Southeast Asian regionalism a necessary response to problems give rise to its defining informality and consensus seeking process and also constrain ASEAN's regionalism Tracing debates about ASEAN's intra and extra regional relations over four decades she argues for a process driven view of cooperation sheds light on intervening processes of argument and debate and highlights interacting material ideational and social forces in the construction of regions and regionalisms

Human Security in Southeast Asia Yukiko Nishikawa, 2010-09-13 There is a growing interest in human security in Southeast Asia This book firstly explores the theoretical and conceptual basis of human security before focusing on the region itself It shows how human security has been taken up as a central part of security policy in individual states in Southeast Asia as well as in the regional security policy within the Association of Southeast Asian Nations ASEAN The book discusses domestic challenges for human security including the insurgencies in southern Thailand the Philippines and Indonesia Transnational security issues such as terrorism drugs human trafficking and the situation in Burma are explored by the author and the ASEAN way of contrasting the values and approaches of Southeast Asian countries with those in the West is assessed By focusing on the ongoing changes and efforts to achieve human security in Southeast Asia this book contributes to theoretical debates on human security as well as regional studies on Southeast Asia

Japan's Relations with Southeast Asia Peng Er Lam, 2013 The Fukuda Doctrine has been the official blueprint to Japan's foreign policy towards Southeast Asia since 1977 This book examines the Fukuda Doctrine in the context of Japan Southeast Asia relations and discusses the possibility of a non realist approach in the imagining and conduct of international relations in East Asia The collapse of 54

years of Liberal Democratic Party rule and the advent of a new Democratic Party of Japan raises the question of whether the Fukuda Doctrine is still relevant as a framework to analyse Tokyo's policy and behaviour towards Southeast Asia. Looking at its origins and norms amidst three decades of change, the book argues that the Fukuda Doctrine is still relevant to Japan's Southeast Asian relations and should be extended to relations between China and Japan if an East Asian Community is to be built. The book goes on to discuss the Fukuda Doctrine in relation to the power shift in Asia, including the revitalization of Japan's security role. By providing a detailed understanding of a non-western perspective of Japan's relationship with Southeast Asia, this book is a useful contribution for students and scholars of Asian Studies, Politics, and International Relations.
