Business Improvement Districts and the Shape of American Cities

Jerry Mitchell, 2009-01-01 Jerry Mitchell provides a comprehensive analysis of business improvement districts (BIDs) public private partnerships that shape city places into enticing destinations for people to work live and have fun Responsible for the revitalization of New York's Times Square and Seattle's Pioneer Square BIDs operate in large cities and small towns throughout the United States Mitchell examines the reasons for their emergence the ways they are organized and financed the types of services they provide their performance their advantages and disadvantages and their future prospects

Urban and Regional Technology Planning Kenneth E. Corey, Mark Wilson, 2006-08-21

Part of the popular Networked Cities series Urban and Regional Technology Planning focuses on the practice of relational planning and the stimulation of local city regional scale development planning in the context of the global knowledge economy and network society Designed to offer scholars practitioners and decision makers studies on the ways of cities technologies and multiple forms of urban movement intersect and create the contemporary urban environment Kenneth Corey and Mark Wilson explore the dynamics of technology induced change that is taking place within the context of the global knowledge economy and network society Examining first the knowledge economy itself Wilson and Corey go on to discuss its implications before proposing ways to strategize for future intelligent development with particular emphasis on the ALERT model for regional and local planning An important read for those practicing or studying planning in this network society

Demolition Means Progress Andrew

R. Highsmith, 2015-07-06 Tracks the fall of Flint Michigan once one of the nation's greatest industrial towns now one of its poorest cities compelling and powerful Kevin Boyle National Book Award winning author of *Arc of Justice* In 1997 after General Motors shuttered a massive complex of factories in the gritty industrial city of Flint Michigan signs were placed around the empty facility reading *Demolition Means Progress* suggesting that the struggling metropolis could not move forward to greatness until the old plants met the wrecking ball Much more than a trite corporate slogan the phrase encapsulates the operating ethos of the nation's metropolitan leadership from at least the 1930s to the present Again and again the leaders of Flint and other municipalities tried to revitalize their communities by demolishing outdated and inefficient structures and institutions and overseeing numerous urban renewal campaigns many of which yielded only more impoverished and more divided metropolises After decades of these efforts the dawn of the twenty first century found Flint one of the most racially segregated and economically polarized metropolitan areas in the nation In one of the most comprehensive works yet written on the history of inequality and metropolitan development in modern America Andrew R. Highsmith uses the case of Flint to explain how the perennial quest for urban renewal even more than white flight corporate abandonment and other forces contributed to mass suburbanization racial and economic division deindustrialization and political fragmentation Challenging much of the conventional wisdom about structural inequality and the roots of the nation's

urban crisis Demolition Means Progress shows in vivid detail how public policies and programs designed to revitalize the Flint area ultimately led to the hardening of social divisions Brilliantly narrates the entire arc of 20th century American industrialization at the scale of a single city Flint Michigan and its suburbs a remarkable book Robert Self author of American Babylon Race and the Struggle for Postwar Oakland **Listening to Harlem** David Maurrasse, 2014-05-01 Harlem is flourishing Many say a second Renaissance is happening above 120th Street Magic Johnson opened a major theater Bill Clinton has centered his post presidential offices there countless homes have been restored to their former glory and not without controversy many whites are flocking to the neighborhood But what will this gentrification do to Harlem and how will it change life for Harlem's longtime residents As communities and businesses struggle with differing motivations and needs David Maurrasse looks at ways they can work together to form partnerships Listening to Harlem offers an exciting portrait of the struggles confronting one of America's most important neighborhoods This engaging read will appeal to anyone with an interest in how the neighborhood is faring today as well as those involved professionally and socially in urban development

Race and Economic Opportunity in the Twenty-First Century Marlene Kim, 2007-06-19 Examining the crucial topic of race relations this book contains contributions from a range of international contributors The authors explore the economic and social environments that play a significant role in determining economic outcomes and why racial disparities persist **Equity, Growth, and Community** Chris Benner, Manuel Pastor, 2015-10-09 In the last several years much has been written about growing economic challenges increasing income inequality and political polarization in the United States Addressing these new realities in America's metropolitan regions this book argues that a few lessons are emerging first inequity is bad for economic growth second bringing together the concerns of equity and growth requires concerted local action and third the fundamental building block for doing this is the creation of diverse and dynamic epistemic or knowledge communities which help to overcome political polarization and to address the challenges of economic restructuring and social divides Governing Urban Regions Through Collaboration Joël Thibert, 2016-04-22 With the demise of the Old Regionalist project of achieving good regional governance through amalgamation voluntary collaboration has become the modus operandi of a large number of North American metropolitan regions Although many researchers have become interested in regional collaboration and its determinants few have specifically studied its outcomes This book contributes to filling this gap by critically re-evaluating the fundamental premise of the New Regionalism which is that regional problems can be solved without regional higher government In particular this research asks to what extent does regional collaboration have a significant independent influence on the determinants of regional resilience Using a comparative Canada U S mixed method approach with detailed case studies of the San Francisco Bay Area the Greater Montreal and trans national Niagara Buffalo regions the book examines the direct and indirect impacts of inter local collaboration on policy and policy outcomes at the regional and State Provincial levels The book research concentrates on the effects of bottom up state mandated and

functional collaboration and the moderating role of regional awareness higher governmental initiative and civic capital on three outcomes environmental preservation socio economic integration and economic competitiveness In short the book seeks to highlight those conditions that favor collaboration and might help avoid the collaborative trap of collaboration for its own sake More specifically this research concentrates on the effect of bottom up state mandated and functional collaboration the moderating role of regional awareness governmental initiative and civic capital on environmental preservation socio economic integration and economic competitiveness In short the book seeks to understand whether and how urban regional collaboration contributes to regional resilience

Up Against the Sprawl Jennifer R. Wolch, Manuel Pastor, Peter Dreier, 2004 Economists political scientists geographers and urban planners explore how government policy has shaped the development of greater Los Angeles They challenge the myth of market choice and point to the key roles of government policy often driven by business priorities In addition they show how residents are developing innovative approaches to

Urban and Regional Policies for Metropolitan Livability Michael S Hamilton, Patricia Sue Atkins, 2014-12-18 In today's public policy arena the regional level is gaining increased attention as problems in policy and service delivery continue to spill over traditional urban government boundaries This authoritative work focuses on the growing role of regions in addressing and resolving local governance problems *Urban and Regional Policies for Metropolitan Livability* provides a concise up to date and systematic treatment of the problems and issues involved in urban and regional policy concerns Each policy chapter is written by a respected expert in the area and the book covers all the key policy issues that confront contemporary metropolitan areas including transportation the environment affordable housing crime employment poverty education and regional governance Each chapter outlines an issue which is followed by current thinking on problem diagnosis and problem solving as well as the prognosis for future policy success

Urban and Regional Policies for Metropolitan Livability David K. Hamilton, 2008-02-12 In today's public policy arena the regional level is gaining increased attention as problems in policy and service delivery continue to spill over traditional urban government boundaries This authoritative work focuses on the growing role of regions in addressing and resolving local governance problems *Urban and Regional Policies for Metropolitan Livability* provides a concise up to date and systematic treatment of the problems and issues involved in urban and regional policy concerns Each policy chapter is written by a respected expert in the area and the book covers all the key policy issues that confront contemporary metropolitan areas including transportation the environment affordable housing crime employment poverty education and regional governance Each chapter outlines an issue which is followed by current thinking on problem diagnosis and problem solving as well as the prognosis for future policy success

Neighborhood Decline Ronald van Kempen, Gideon Bolt, Maarten van Ham, 2018-10-18 The global financial and economic crisis that hit the world since 2008 has affected the lives of many people all over the world and resulted in declining incomes rising unemployment foreclosures forced residential moves and cut backs in government expenditure The extent to which the crisis has affected

urban neighborhoods and has led to rising intra urban inequalities has not yet received much attention The implemented budget cuts and austerity programs of national and local governments are likely to have hit some neighborhoods more than others The authors of this this book which come from a variety of countries and disciplines show that the economic crisis has affected poor neighborhoods more severely than more affluent ones The tendency of the state to retreat from these neighborhoods has negative consequences for their residents and may even nullify the investments that have been made in many poor neighborhoods in the recent past This book was originally published as a special issue of Urban Geography

The Routledge International Handbook of the Sociology of Education Michael W. Apple, Stephen J. Ball, Luis Armando Gandin, 2009-12-16 This collection brings together many of the world's leading sociologists of education to explore and address key issues and concerns within the discipline The thirty seven newly commissioned chapters draw upon theory and research to provide new accounts of contemporary educational processes global trends and changing and enduring forms of social conflict and social inequality The research conducted by leading international scholars in the field indicates that two complexly interrelated agendas are discernible in the heat and noise of educational change over the past twenty five years The first rests on a clear articulation by the state of its requirements of education The second promotes at least the appearance of greater autonomy on the part of educational institutions in the delivery of those requirements The Routledge International Handbook of the Sociology of Education examines the ways in which the sociology of education has responded to these two political agendas addressing a range of issues which cover three key areas perspectives and theories social processes and practices inequalities and resistances The book strongly communicates the vibrancy and diversity of the sociology of education and the nature of sociological work in this field It will be a primary resource for teachers as well as a title of major interest to practising sociologists of education

Life in Poverty Neighbourhoods Jürgen Friedrichs, George Galster, Sako Musterd, 2013-09-13 In contemporary European and American urban policy and politics and in academic research it is typically assumed that spatial concentrations of poor households and or ethnic minority households will have negative effects upon the opportunities to improve the social conditions of those who are living in these concentrations Since the level of concentration tends to be correlated with the level of spatial segregation the debate on segregation is also linked to the social opportunity discussion This book explores the central questions in urban and housing studies Do poor neighbourhoods make their residents poorer Does the neighbourhood structure exert an effect on the residents behavioural attitudinal or psychological even when controlling for individual characteristics of the residents This issue has offered a locus for multi disciplinary investigations on both sides of the Atlantic and this volume demonstrates the rich geographical sociological economic and psychological dimensions of this issue This book was previously published as a special issue of the journal Housing Studies

[This Could Be the Start of Something Big](#) Manuel Pastor Jr., Chris Benner, Martha Matsuoka, 2015-10-27 For nearly two decades progressives have been dismayed by the steady rise of the right in U S politics

Often lost in the gloom and doom about American politics is a striking and sometimes underanalyzed phenomenon the resurgence of progressive politics and movements at a local level Across the country urban coalitions including labor faith groups and community based organizations have come together to support living wage laws and fight for transit policies that can move the needle on issues of working poverty Just as striking as the rise of this progressive resurgence has been its reception among unlikely allies In places as diverse as Chicago Atlanta and San Jose the usual business resistance to pro equity policies has changed particularly when it comes to issues like affordable housing and more efficient transportation systems To see this change and its possibilities requires that we recognize a new thread running through many local efforts a perspective and politics that emphasizes regional equity Manuel Pastor Jr Chris Benner and Martha Matsuoka offer their analysis with an eye toward evaluating what has and has not worked in various campaigns to achieve regional equity The authors show how momentum is building as new policies addressing regional infrastructure housing and workforce development bring together business and community groups who share a common desire to see their city and region succeed Drawing on a wealth of case studies as well as their own experience in the field Pastor Benner and Matsuoka point out the promise and pitfalls of this new approach concluding that what they term social movement regionalism might offer an important contribution to the revitalization of progressive politics in America

Governing Urban Economies Neil Bradford, Allison Bramwell, 2014-04-30 Today more than ever cities matter to the economic and social well being of the vast majority of Canadians Canada's urban centers are simultaneously the engines of the national economy and the places where the risks of social exclusion are most concentrated making innovative and inclusive urban governance an urgent national priority Governing Urban Economies is the first detailed scholarly examination of relations among governmental and community based actors in Canadian city regions Comparing patterns of municipal community relations and federal provincial interactions across city regions this volume tracks the ways in which urban coalitions tackle complex economic and social challenges Featuring an interdisciplinary group of established and up and coming scholars this collection breaks new ground in the Canadian urban politics literature and will appeal to urbanists working in a range of national contexts

Digital Cities Karen Mossberger, Caroline J. Tolbert, William Franko, William W. Franko, 2013-01-10 This analysis of how the ability to participate in society online affects political and economic opportunity finds that technology use matters in wages and income and civic participation and voting

The New American Suburb Katrin B. Anacker, 2016-03-03 The majority of Americans live in suburbs and until about a decade or so ago most suburbs had been assumed to be non Hispanic White affluent and without problems However recent data have shown that there are changing trends among U S suburbs This book provides timely analyses of current suburban issues by utilizing recently published data from the 2010 Census and American Community Survey to address key themes including suburban poverty racial and ethnic change and suburban decline suburban foreclosures and suburban policy

Urban Growth Management and Its Discontents Y.

Dierwechter,2008-06-23 This book introduces synthesizes and evaluates spatial planning for growth management in the contemporary USA It discusses the neglected relationship between the actual environmental results of various state growth management systems and the geographically diverse politics of discontent with these various systems **The Futures of the City Region** Michael Neuman,Angela Hull,2013-09-13 Does the city region constitute a new departure in urbanisation If so what are the key elements of that departure The realities of the urban in the 21st century are increasingly complex and polychromatic The rise of global networks enabled by supranational administrations both governmental and corporate strongly influences and structures the management of urban life How we conceive the city region has intellectual and practical consequences First in helping us grasp rapidly changing realities and second in facilitating the flow of resources ideas and learning to enhance the quality of life of citizens Two themes interweave through this collection within this broad palette First are the socio spatial constructs and their relationship to the empirical evidence of change in the physical and functional aspects of urban form Second is what they mean for the spatial scales of governance This latter theme explores territorially based understandings of intervention and the changing set of political concerns in selected case studies In efforts to address these issues and improve upon knowledge this collection brings together international scholars building new data driven cross disciplinary theories to create new images of the city region that may prove to supplement if not supplant old ones The book illustrates the dialectical interplay of theory and fact time and space and spatial and institutional which expands on our intellectual grasp of the theoretical debates on city regions through practical knowing citing examples from Europe the United States Australasia and beyond This book was originally published as a Special Issue of Regional Studies
