**Nos. 1458-1747** Charles Wilmer Foster,1940     **The King's Bishops** E. Crosby,2013-09-04 This is the first detailed comparative study of patronage as an instrument of power in the relations between kings and bishops in England and Normandy after the Conquest Esteemed medievalist Everett U Crosby considers new perspectives of medieval state building and the vexed relations between secular and ecclesiastical authority     Finance and the Crusades Daniel Edwards,2021-11-09 This book investigates the financial aspects of crusading in the thirteenth and early fourteenth centuries Taking the kingdom of England as a case study it explores a variety of themes such as how much crusades cost how they were financed how funds were transferred to the East and how crusaders fared financially after their return Its fundamental argument in contrast with current historiography is that it was the private fundraising of individuals not the public fundraising of the Crown and the Church that constituted the life blood of the crusade movement in the period under consideration Indeed it is likely that the crusades were only able to remain central to the religious and political life of England and indeed western Christendom because participants and those in their connection continued to be willing to sacrifice their own financial wellbeing for the interests of the Holy Land     **The revelation of the Monk of Eynsham** Adam (of Eynsham),2002 This is a late 15th century translation of the late 12th century Visio Monachi de Eynsham It recounts a vision of purgatory and paradise peopled by contemporary figures such as King Henry II experienced by the author s brother at the monastery of Eynsham in 1196     The registrum antiquissimum of the Cathedral Church of Lincoln Lincoln Record Society,1973     **Progress and Problems in Medieval England** Richard Britnell,John Hatcher,2002-05-16 A series of essays on the society and economy of England between the eleventh and the sixteenth centuries     *England and the Papacy in the Early Middle Ages* Benjamin Savill,2023 A detailed study of the relationship between England and the papacy across its first five centuries from the times of Bede up to the Norman Conquest It reassesses that relationship through a detailed study of a hitherto understudied corpus of papal documentary sources It sets developments in England within a wider comparative European context
