Creating a Modern Trauma Center Selwyn O. Rogers, Jr, 2024-10-14 Violence and trauma are growing global problems From the impacts of geopolitical forces to structural violence to the local effects of interpersonal violence trauma is ubiquitous in our society Existing trauma systems everywhere are expanding to meet the needs of injured patients Unfortunately in some places adequate resources are not in place to provide modern trauma care Until very recently this absence of resources existed on the South Side of Chicago For three decades the South Side of Chicago was a relative trauma desert In 2018 the University of Chicago Medicine opened a modern adult trauma center in an area that previously suffered from a relative lack of access to adult trauma care This book will provide the reader with an understanding of the journey the University of Chicago went through to develop a modern trauma center where there previously was nothing It will chart a journey through the history on the South Side of Chicago and will provide an understanding of the proper needs assessment that goes into planning a new trauma center It will describe the implementation of the multi disciplinary teams needed to provide modern trauma care It will then describe the effects of this trauma center and its future directions As many places are struggling with caring for increasing levels of violence there likely will be a need for others to go through a similar developmental process Sharing the experience of the University of Chicago Medicine going from a non trauma hospital to the busiest trauma center in Chicago we hope that this book will provide some guidance to others and accompany you on one s journey

French,2021-12-06 Okay I guess you good people would like to know why I wrote this book So I will dig into my past again and remember all things that happened to me and all the pain and all the hell Believe me I wish I was not writing this book I wish these things did not happen to me I wish my life could have been different I wish I didn t wake up in the middle of the night with sweats Body drenched remembering but I do I look around me at people pursuing their dreams their careers their ambitions with smiling faces Joyful attitudes and breezing through life without a care and I didn t mean they don t care I just mean they seem real happy I don t know how to do that myself It seems like there is a shell around me all the time The only thing that keeps me a float is Father God Jesus Christ and the Holy Spirit I don t know what it feels like when other people talk about the picnics and adventures Boating canoeing and things of that nature After what happened to me being sodomized by Sergeant Johnson and almost beat to death every day and now trying to get help from the VAs It just brings me

back around like a big circle Right back into depression and why do they do this Why are they like this Why do I have to tape record and video tape every single thing that is going on Because I realized that I needed to write this book to expose all of these evil doers And now just maybe by the hand of God our great president Donald Trump will read this book and do something about this God Bless America

Queer Identities / Political Realities Bruce Drushel, Kathleen German, 2009-01-23 **Queer Identities Political Realities** examines the intersection of political leadership media coverage and sexual identity with particular emphasis on the negotiation of meaning between public behavior and private behavior in the United States Centering on cases that illuminate key issues each chapter questions assumptions about media coverage and extends current theoretical understanding Each chapter focuses on a specific case within the broader conceptual fabric of queer theory media theory or rhetorical criticism Varied methodological approaches allow us to gauge public discourse of multifaceted controversies that involve same sex behavior History reveals frequent occasions when private sexual behaviors surface to attract public interest While the prejudices and discrimination against same sex partnerships whether casual or permanent remain entrenched in United States culture there have been occasions when the public discussion is riveted on instances This book argues that public interest changes when the partners

in such relationships are of the same sex The extraordinary public prejudice against same sex unions and public censure has been well documented in other research reports and continues to receive attention in other scholarly publications This book will examine the unique intersection of political leadership media coverage and same sex behavior What I Need Gale Trimmer,2020-04-02 What I Need A Romantic Fairy Tale is the story of how one woman enables a family to rise from relative obscurity to fame and fortune without realizing that she has done so Nor does the family put all the pieces of Effie Rose Shane Bentmont Trippen together until years after her death Through three and four generations and beyond the integrity of the family oath proves that individual fidelity can survive and even thrive Her vibrant legacy brings the family full circle in this sweet romance novel of love and sorrow and separation brought together

Offender Care and Support by Families in Contemporary Japan Mari

Kita,2023-09-01 Because people's contact with the criminal justice system comes in different shapes and forms scholars are now broadening their analytical scope and examining the overall repercussions of criminal justice contact on families of offenders Compared to Western societies Japan is known for its lower crime rates and more pronounced use of informal social control Thus it offers a useful research site for examining how families in a low crime society experience criminal justice contact and how they function as an integral part of the nation's crime control mechanism This book considers the role of the family in the lives of offenders and the criminal justice system in Japan Looking particularly at gender and patriarchal power relations it reveals how cultural notions of femininity prompt the criminal justice system to rely on women as its proxy This book explores how families of offenders often step in to fill the voids left by criminal justice institutions and social services to provide offenders with all inclusive care The burden of supervising and rehabilitating offenders on top of the expectation to atone for the crimes also renders families ambivalent and ashamed Whereas the state and criminal justice authorities tend to see offenders families as a crucial resource for prisoner reentry this book highlights the necessity for addressing families needs before automatically assuming their support It also pushes the boundaries of feminist criminology by showing how women can be affected by male criminality and male dominated criminal justice institutions other than as victims and offenders An accessible and compelling read this book will appeal to students and scholars of criminology sociology gender studies Japanese culture and all those interested in learning more about the criminal justice system in Japan

Historic Preservation Michael A. Tomlan,2014-11-21 This well illustrated book offers an up to date synthesis of the field of historic preservation cast as a social campaign concerned with the condition treatment and use of the legacy of existing properties in the United States Drawing on a wide range of research experience and scholarship over the last fifty years it allows us to re think past and current ideas in preservation challenging readers to explore how their own interests lie within the cognitive framework of the activities taking place with people who care Who is involved is explored first in such a way as to explore why before examining what is deemed important After that the questions of when and how to proceed are given attention The major topics are introduced in an historical review through the mid 1980s after which the broad intellectual basis and fundamental legal framework is provided The economic shifts associated with major demographic changes are explored in tandem with responses of the preservation community A chapter is dedicated to the financial challenges and sources of revenue available in typical preservation projects and another chapter focuses on the manner in which seeing recording and interpreting information provides the context for an appropriate vision for the future In this regard it is made clear that not all green design alternatives are preservation sensitive The advocacy battles during the last few decades

provide a number of short stories of the ethical battles regarding below ground and above ground historic resources and the eighth chapter attempts to explain why religion has been long held at arm s length in publicly supported preservation efforts when in fact it holds more potential to regenerate existing sites than any governmental program **Human Rights at Home** United States.
