None of us had the faintest idea where we were going but during 1938 39 the town Christchurch was made strangely interesting for anyone like myself with the scattered arrival of the refugees All at once there were people among us who were actually from Vienna or Chemnitz or Berlin who knew the work of Schoenberg and Gropius Anthony Alpers 1985 From the 1930s through the 1950s a substantial number of forced migrants refugees from Nazism displaced people after World War II and escapees from Communist countries arrived in New Zealand from Europe Among them were an extraordinary group of artists and writers photographers and architects whose European modernism radically reshaped the arts in this country In words and pictures *Strangers Arrive* tells their story Ranging across the arts from photographer Irene Koppel to art dealer and printmaker Kees Hos architect Imric Porsolt to writer Antigone Kefala Leonard Bell takes us inside New Zealand s bookstores and coffeeshouses studios and galleries to introduce us to a compelling body of artistic work He asks key questions How were migrants received by New Zealanders How did displacement and settlement in New Zealand transform their work How did the arrival of European modernists intersect with the burgeoning nationalist movement in the arts in New Zealand *Strangers Arrive* introduces us to a talented group of aliens who were critical catalysts for change in New Zealand culture

**Elderflora** Jared Farmer,2022-10-18 The epic story of the planet s oldest trees and the making of the modern world Humans have always revered long lived trees But as historian Jared Farmer reveals in *Elderflora* our veneration took a modern turn in the eighteenth century when naturalists embarked on a quest to locate and precisely date the oldest living things on earth The new science of tree time prompted travelers to visit ancient specimens and conservationists to protect sacred groves Exploitation accompanied sanctification as old growth forests succumbed to imperial expansion and the industrial revolution Taking us from Lebanon to New Zealand to California Farmer surveys the complex history of the world s oldest trees including voices of Indigenous peoples religious figures and contemporary scientists who study elderflora in crisis In a changing climate a long future is still possible Farmer shows but only if we give care to young things that might grow old Winner of the 2023 Jacques Barzun Prize in Cultural History
