Reinventing NASA United States. Congress. House. Committee on Science, Space, and Technology. Subcommittee on Space,1993 *Arts & Humanities Citation Index* ,1998 A multidisciplinary index covering the journal literature of the arts and humanities It fully covers 1 144 of the world's leading arts and humanities journals and it indexes individually selected relevant items from over 6 800 major science and social science journals **Bulletin of the Atomic Scientists** ,1994-01 The Bulletin of the Atomic Scientists is the premier public resource on scientific and technological developments that impact global security Founded by Manhattan Project Scientists the Bulletin's iconic Doomsday Clock stimulates solutions for a safer world *Philosophy & Methodology of the Social Sciences: Reinventing the social sciences: towards a postdisciplinary future* Mark J. Smith,2005 Covers the traditional literature on the philosophy of the social sciences and the contemporary

philosophical and methodological debates developing at the heart of the disciplinary and interdisciplinary groups in the social sciences It addresses the needs of researchers and academics who are grappling with the relationship between questions of knowledge construction and the problems of social scientific method **Restructuring Capitalism** Rogene

Buchholz,2017-04-21 The main theme of this book is that within contemporary capitalist societies a materialist outlook informed by science has triumphed creating the lack of a spiritual dimension to give meaning and purpose to the activities that are necessary for a capitalist society to function effectively Capitalist societies are in trouble and need to be restructured to provide for the material needs of all the people who work within the system not just the one percent but because of the lack of a spiritual connection with each other and with nature this is not likely to happen It has been said that society and the organizations within treat one another as objects to be manipulated in the interests of promoting economic growth and treat nature as an object to be exploited for the same purpose This way of treating each other and nature is consistent with the way a capitalist system has worked in the past and was supposed to enable it to function efficiently to provide a fulfilling and enriched life for all its adherents through growth of the economy However as capitalist societies have become dysfunctional they will need a different kind of orientation to continue in existence Restructuring Capitalism Materialism and Spiritualism in Business argues that what is needed is a new sense of a spiritualization of the self and its relation to others and to the establishment of a spiritual connection with nature in order for capitalism to be restructured to work for everyone and for the society as a whole *Cosmopolitan Imaginaries and International Disorder* Aaron C McKeil,2025-03-26 While the idea of a

cosmopolitan order embracing all humankind is ancient after the Cold War it was widely believed to be an emerging future As global interdependence and interaction through new technologies increased literature of cosmopolitan globalization argued that these changes were setting the stage for a structural transformation of world politics Yet a revolt against globalism and increasingly divisive and unstable international order has dramatically contradicted this idea This presents a puzzle for International Relations theory Why have attempts to construct cosmopolitan order struggled to emerge in the modern global world *Cosmopolitan Imaginaries and International Disorder* argues that advocacy for cosmopolitan order reform in the modern world has struggled to recognize the political identities of states and populations and to legitimize its proposed political hierarchies As a result these efforts have been overwhelmed by states shoring up their power and remobilizing exclusionary nationalist identities especially when struggles are intensified in contexts of international instability and economic turmoil In developing a theory to explain these patterns of cosmopolitan politics this book offers insight into the limits and role of cosmopolitanism in a dividing international order after liberal globalism **Fiscal Year**

2001 Budget Authorization Request United States. Congress. House. Committee on Science. Subcommittee on Energy and Environment,2001 *ESA Decisions by Closed-door Settlement* United States. Congress. House. Committee on Natural Resources,2014 **PC Mag** ,2008-01 PCMag com is a leading authority on technology delivering Labs based independent
