Redescribing the Gospel of Mark Barry S. Crawford, Merrill P. Miller, 2017-06-16 A collaborative project with a variety of critical essays This final volume of studies by members of the Society of Biblical Literature's consultation and later seminar on Ancient Myths and Modern Theories of Christian Origins focuses on Mark As with previous volumes the provocative proposals on Christian origins offered by Burton L Mack are tested by applying Jonathan Z Smith's distinctive social theorizing and comparative method Essays examine Mark as an author's writing in a book culture a writing that responded to situations arising out of the first Roman Judean war after the destruction of the Jerusalem temple in 70 CE Contributors William E Arnal Barry S Crawford Burton L Mack Christopher R Matthews Merrill P Miller Jonathan Z Smith and Robyn Faith Walsh explore the southern Levant as a plausible provenance of the Gospel of Mark and provide a detailed analysis of the construction of Mark as a narrative composed without access to prior narrative sources about Jesus A concluding retrospective follows the work of the seminar its developing discourse and debates and the continuing work of successor groups in the field Features A thorough examination of the relation between structure and event in social and

anthropological theory that provides conceptual tools for representing the project of the author of Mark An exploration of the southern Levant as a plausible provenance of the Gospel a permanent site of successive imperial regimes and culturally related peoples A detailed analysis of the construction of Mark as a narrative composed without access to prior narrative sources about Jesus      *Before Religion* Brent Nongbri, 2013-01-22 Examining a wide array of ancient writings Brent Nongbri dispels the commonly held idea that there is such a thing as ancient religion Nongbri shows how misleading it is to speak as though religion was a concept native to pre modern cultures      **The Proper Study of Religion** Sam D. Gill, 2020 In *The Proper Study of Religion* Sam Gill charts an innovative course of development for the academic study of religion by engaging the legacy of Jonathan Z Smith Gill s teacher and mentor for fifty years Building on Smith s foundational legacy through creative encounters Gill explores an extensive range of absorbing topics including comparison as essential to academic technique and to human knowledge itself play philosophically understood as a core dynamic of Smith s entire program the relationship of academic document based studies to the sensory rich real world of religions and self moving as providing a biological and philosophical foundation on which to develop and expand upon a proper academic study of religion      *The Sacred Is the Profane* William Arnal, Russell T. McCutcheon, 2013 *The Sacred Is the Profane* collects nine essays written over several years by William Arnal and Russell T McCutcheon that share a convergent perspective not simply that both the category and concept religion is a construct something that we cannot assume to be natural or universal but also that the ability to think and act religiously is quite specifically a modern political category in its origins and effects the mere by product of the modern state These collected essays substantially rewritten for this volume advance current scholarly debates on secularism debates which the authors argue insufficiently theorize the sacred secular church state and private public binaries by presupposing religion often under the guise of such terms as religiosity faith or spirituality to historically precede the nation state The essays return again and again to the question of what religion word and concept accomplishes now for those who employ it whether at the popular political or scholarly level The focus here for two writers from seemingly different fields is on the efficacy costs and the tactical work carried out by dividing the world between religious and political church and state sacred and profane      **After World Religions** Christopher R Cotter, David G. Robertson, 2016-02-05 *The World Religions Paradigm* has been the subject of critique and controversy in Religious Studies for many years *After World Religions* provides a rationale for overhauling the *World Religions* curriculum as well as a roadmap for doing so The volume offers concise and practical introductions to cutting edge Religious Studies method and theory introducing a wide range of pedagogical situations and innovative solutions An international team of scholars addresses the challenges presented in their different departmental institutional and geographical contexts Instructors developing syllabi will find supplementary reading lists and specific suggestions to help guide their teaching Students at all levels will find the book an invaluable entry point into an area of ongoing scholarly debate      **The Origins of Early Christian Literature** Robyn Faith Walsh, 2021-01-28

Conventional approaches to the Synoptic gospels argue that the gospel authors acted as literate spokespersons for their religious communities. Whether described as documenting intra group oral traditions or preserving the collective perspectives of their fellow Christ followers, these writers are treated as something akin to the Romantic poet speaking for their Volk, a questionable framework inherited from nineteenth century German Romanticism. In this book, Robyn Faith Walsh argues that the Synoptic gospels were written by elite cultural producers working within a dynamic cadre of literate specialists, including persons who may or may not have been professed Christians. Comparing a range of ancient literature, her ground breaking study demonstrates that the gospels are creative works produced by educated elites interested in Judean teachings, practices, and paradoxographical subjects in the aftermath of the Jewish War and in dialogue with the literature of their age. Walsh's study thus bridges the artificial divide between research on the Synoptic gospels and Classics.

Faith from a Positive Psychology Perspective Cindy Miller-Perrin, Elizabeth Krumrei Mancuso, 2014-10-01. This book highlights religious faith from a positive psychology perspective, examining the relationship between religious faith and optimal psychological functioning. It takes a perspective of religious diversity that incorporates international and cross-cultural work. The empirical literature on the role of faith and cognition, faith and emotion, and faith and behaviour is addressed, including how these topics relate to individuals' mental health, well-being, strength, and resilience. Information on how these faith concepts are relevant to the broader context of relational functioning in families, friendships, and communities is also incorporated. Psychologists have traditionally focused on the treatment of mental illness from a perspective of repairing damaged habits, damaged drives, damaged childhoods, and damaged brains. In recent years, however, many psychological researchers and practitioners have attempted to re-focus the field away from the study of human weakness and damage toward the promotion of a positive psychology of well-being among individuals, families, and communities. One domain within the field of positive psychology is the study of religious faith as a human strength that has the potential to enhance individuals' optimal existence and well-being.
