Helmut Schmitz, Peter Davies, 2017 New essays exploring the resurgence of the theme of romantic relationships and love in German literature since around the turn of the millennium While sociologists have long agreed that the problems of modern and contemporary subjectivity crystallize in the issue of romantic relationships and love e g Luhmann Illouz Beck etc the theme of love so crucial to the foundational text of modern German literature Goethe s *Werther* all but disappeared from German prose literature in the second half of the twentieth century Yet over the past fifteen years German language literature has witnessed an explosion of novels with *Liebe* in their titles as well as novels that centrally focus on intersubjective erotic and emotional relationships A number of major contemporary writers Treichel Walser Kermani Ortheil Maron Zaimoglu Genazino have written *Liebesromane* or novels in which significant sociohistorical questions are refracted through the love relationships of their protagonists German film likewise has increasingly thematized love relationships under postromantic conditions e g in the films of the Berlin school Simultaneously the development of both feminist and LGBTQ politics over the past decades has exploded the heteronormative discourses of desire in a way that has both expanded

and enriched the lovers discourse while recent developments of urban hetero sexuality have expanded the previously available models of expressing erotic relationships in ways that are reminiscent of the utopian ending of Goethe's first version of *Stella*. The present collection offers a wide ranging set of essays on these developments. Contributors: Esther K Bauer, Sven Glawion, Silke Horstkotte, Sarra Kassem, Maria Roca Lizarazu, Helmut Schmitz. Rather than dividing its chapters by methodology or approach, this volume proceeds by exploring the major categories of literary investigation that are coming under pressure in the digital age: concepts such as the canon, periodization, authorship and narrative. With chapters written by leading experts in all facets of literary studies, this book shows why all those who read, study and teach literature today ought to attend to the digital.
