Ferrer, 2002-01-01 A participatory alternative to the perennialism and experientialism dominant in transpersonal psychology , **Hindu and Buddhist Ideas in Dialogue** Irina Kuznetsova, Jonardon Ganeri, Chakravarthi Ram-Prasad, 2016-04-22 The debates between various Buddhist and Hindu philosophical systems about the existence definition and nature of self occupy a central place in the history of Indian philosophy and religion These debates concern various issues what self means whether the self can be said to exist at all arguments that can substantiate any position on this question how the ordinary reality of individual persons can be explained and the consequences of each position At a time when comparable issues are at the forefront of contemporary Western philosophy in both analytic and continental traditions as well as in their interaction these classical and medieval Indian debates widen and globalise such discussions This book brings to a wider audience the sophisticated range of positions held by various systems of thought in classical India Samkara's Advaita Vedanta Jacqueline G. Suthren Hirst, 2005-03-31 Samkara c 700 CE has been regarded by many as the most authoritative Hindu thinker of all time A great Indian Vedantin brahmin Samkara was primarily a commentator on the sacred texts of the Vedas and a teacher in the Advaitin teaching line This book serves as an introduction to Samkara's thought which takes this as a central theme The author develops an innovative approach based on Samkara's ways of interpreting sacred texts and creatively examines the profound interrelationship between sacred text content and method in Samkara's thought The main focus of the book is on Samkara's teaching method This method is for Samkara based on the Upanishads own it is to be employed by Advaitin teachers to draw pupils skilfully towards that realisation which is beyond all words Consequently this book will be of interest not only to students and scholars of Indian philosophy but to all those interested in the relation between language and that which is held to transcend it **World Philosophies** Ninian Smart, 2013-12-19 World Philosophies presents in one volume a superb introduction to all the world's major philosophical and religious traditions Covering all corners of the globe Ninian Smart's work offers a comprehensive and global philosophical and religious picture In this revised and expanded second edition a team of distinguished scholars assembled by the editor Oliver Leaman have brought Ninian Smart's masterpiece up to date for the twenty first century Chapters have been revised by experts in the field to include recent philosophical developments and the book includes a new bibliographic guide to resources in world philosophies A brand new introduction which celebrates the career and writings of Ninian Smart and his contribution to the study of world religions helps set the work in

context *Semantic Powers* Jonardon Ganeri,1999 The author defends a conception of language as essentially a means for the reception of knowledge through testimony He finds this account in the work of classical Indian philosophers of language and presents a detailed analysis of their theories **Engaging Philosophies of Religion** Gereon Kopf,Purushottama Bilimoria,Nathan R. B. Hudson,2013 This book explores the relationship between ethics aesthetics and religion in classical Indian literature and literary theory by focusing on one of the most celebrated and enigmatic texts to emerge from the Sanskrit epic tradition the Mahabharata This text which is widely acknowledged to be one of the most important sources for the study of South Asian religious social and political thought is a foundational text of the Hindu tradition s and considered to be a major transmitter of dharma moral social and religious duty perhaps the single most important concept in the history of Indian religions However in spite of two centuries of Euro American scholarship on the epic basic questions concerning precisely how the epic is communicating its ideas about dharma and precisely what it is saying about it are still being explored Disorienting Dharma brings to bear a variety of interpretive lenses Sanskrit literary theory reader response theory and narrative ethics to examine these issues One of the first book length studies to explore the subject from the lens of Indian aesthetics it argues that such a perspective yields startling new insights into the nature of the depiction of dharma in the epic through bringing to light one of the principle narrative tensions of the epic the vexed relationship between dharma and suffering In addition it seeks to make the Mahabharata interesting and accessible to a wider audience by demonstrating how reading the Mahabharata perhaps the most harrowing story in world literature is a fascinating disorienting and ultimately transformative experience **Just Love** Margaret Farley,2008-02-15 Winner of the 2008 Grawemeyer Award in Religion This long awaited book by one of American Christianity s foremost ethicists proposes a

framework for sexual ethics whereby justice is the criterion for all loving including love that is related to sexual activity and relationships It begins with historical and cross cultural explorations then addresses the large questions of embodiment gender and sexuality and finally delineates the justice framework for sexual ethics Though Just Love s particular focus is Christian sexual ethics Farley s framework is broad enough to have relevance for multiple traditions Also covered are specific issues in sexual ethics including same sex relationships marriage and family divorce and second marriage

Nothingness in Asian Philosophy Jeeloo Liu, Douglas Berger, 2014-06-13 A variety of crucial and still most relevant ideas about nothingness or emptiness have gained profound philosophical prominence in the history and development of a number of South and East Asian traditions including in Buddhism Daoism Neo Confucianism Hinduism Korean philosophy and the Japanese Kyoto School These traditions share the insight that in order to explain both the great mysteries and mundane facts about our experience ideas of nothingness must play a primary role This collection of essays brings together the work of twenty of the world s prominent scholars of Hindu Buddhist Daoist Neo Confucian Japanese and Korean thought to illuminate fascinating philosophical conceptualizations of nothingness in both classical and modern Asian traditions The unique collection offers new work from accomplished scholars and provides a coherent panoramic view of the most significant ways that nothingness plays crucial roles in Asian philosophy It includes both traditional and contemporary formulations sometimes putting Asian traditions into dialogue with one another and sometimes with classical and modern Western thought The result is a book of immense value for students and researchers in Asian and comparative philosophy Chapter 20 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license

Krsna and Christ Steven Tsoukalas, 2011-09-01 This work compares the Krsnavatara Krsna in his avatara doctrines of Sankara and Ramanuja and the incarnation of Christ as represented by classical Christian orthodoxy and draws out comparative theological and soteriological implications It does so first by examining the epistemologies theologies and world views of Sankara and Ramanuja and the theology and world view of classical Christian orthodoxy so that second an adequate foundation and subsequent thorough representation of avatara and incarnation might be accomplished in order that third accurate comparisons may be drawn between avatara and incarnation The result of this study is a demonstration that many of the popularly held similarities between avatara and incarnation are superficial and that therefore careful consideration of epistemologies and ontologies should be undertaken when comparing theologies and soteriologies pertinent to avatara and incarnation

Self Richard Sorabji, 2006-09-14 Richard Sorabji presents a brilliant exploration of the history of our understanding of the self which has remained elusive and mysterious throughout the spectacular development of human knowledge of the outside world He ranges from ancient to contemporary thought Western and Eastern to reveal and assess the insights of a remarkable variety of thinkers He discusses a set of topics which are at the heart of our understanding of ourselves personal identity memory the importance of seeing one's life as a whole the relation between self intellect will and agency self awareness the stream of consciousness embodiment death and survival He rejects the view found in various philosophical and religious writings that the self is an illusion and develops his own original conception of the self as essential to our ownership of our experience and our apprehension of the world

Philosophy in Classical India Jonardon Ganeri, 2003-09-01 This original work focuses on the rational principles of Indian philosophical theory rather than the mysticism more usually associated with it Ganeri explores the philosophical projects of a number of major Indian philosophers and looks into the methods of rational inquiry deployed within these projects In so doing he illuminates a network of mutual reference criticism influence and response in which reason is used to call itself into question This fresh perspective on classical Indian thought unravels new philosophical paradigms and points towards new applications for the concept of reason

Educating Character Through Stories David Carr, Tom Harrison, 2015-01-14 What could be the point of teaching such works of bygone cultural and literary inheritance as Cervantes Don Quixote and Shakespeare's The Merchant of Venice in schools today This book argues that the narratives and stories of such works are of neglected significance and value for contemporary understanding of human moral association and character However in addition to offering detailed analysis of the moral educational potential of these and other texts the present work reports on a pioneering project recently pursued by the Jubilee Centre for Character and Virtues concerned precisely with the use of these and other stories for moral and character education in schools The success of the Knightly Virtues project is an inspiring story in its own right and should therefore be of enormous interest to all schools teachers and parents rightly concerned with this all important aspect of their children's educational development

The Expression of Emotion Catharine Abell, Joel Smith, 2016-09-22 The Expression of Emotion collects cutting edge essays on emotional expression written by leading

philosophers psychologists and legal theorists It highlights areas of interdisciplinary research interest including facial expression expressive action and the role of both normativity and context in emotion perception Whilst philosophical discussion of emotional expression has addressed the nature of expression and its relation to action theory psychological work on the topic has focused on the specific mechanisms underpinning different facial expressions and their recognition Further work in both legal and political theory has had much to say about the normative role of emotional expressions but would benefit from greater engagement with both psychological and philosophical research In combining philosophical psychological and legal work on emotional expression the present volume brings these distinct approaches into a productive conversation
