Religion and Literature in Western England, 600-800 Patrick Sims-Williams, 2005-06-30 Describes the early conversion to Christianity of the pagan peoples of an area stretching from Stratford upon Avon to Offa's Dyke **The Christianization of the Anglo-Saxons C.597-c.700** Marilyn Dunn, 2010-09-27 Draws on historical ethnographical and anthropological studies to create a fresh understanding of Christianization in medieval Europe **The Earliest English Kings** D. P. Kirby, 2002-01-04 First published in 1990 Routledge is an imprint of Taylor Francis an informal company **The Writings of Medieval Women** Marcelle Thiebaux, 2019-05-23 Published in 1994 The period surveyed in this anthology extends from the eve of Christianity's triumph in the third century to the new age of expansion in the fifteenth century an age marked by the advent of printing pressed the European discovery of the Caribbean islands which Columbus called the Indies the relentless stripping of medieval altars by Church reformists and perhaps a diminution of female autonomy **The Writings of Medieval Women** Marcelle Theibaux, 2013-06-17 Royal and saintly women are well represented here with the welcome addition of women from the Mediterranean arc Garland has done a solid job of presenting this book Arthuriana The Anthology gives a fine sense of the great range of women's writing in the Middle Ages Medium Aevum *Trees in the Religions of Early Medieval England* Michael D. J. Bintley, 2015 Drawing on sources from archaeology and written texts the author brings out the full significance of trees in both pagan and Christian Anglo Saxon religion **Biblical Commentaries from the Canterbury School of Theodore and Hadrian** Bernhard Bischoff, Michael Lapidge, 1994 This volume includes the first edition of a previously unknown text which throws wholly new light on the intellectual history of early medieval Europe The biblical commentaries never before printed or studied represent the teaching of two extraordinarily gifted Greek scholars who came to England from the Byzantine East Theodore archbishop of Canterbury 668-90 and his colleague Hadrian d 710 established a school in Canterbury to which they brought a wealth of experience and learning These scholars applied their knowledge to the exposition of the Bible to a small group of Anglo Saxon scholars who recorded their teaching The commentaries throw new light on the range of subjects which were taught in Canterbury at the time medicine philosophy rhetoric Roman civil law as well as the biblical text itself illustrating what was undoubtedly the high point of biblical scholarship between late antiquity and the Renaissance Because both Hadrian and Theodore were from Greek speaking parts of the Roman empire their commentaries reveal new links between the Byzantine East and the Latin West in the seventh century The present commentaries found by Professor Bischoff in Milan in 1936 constitute one of the most important medieval texts discovered this century The edition is introduced by substantial chapters on the intellectual background of the texts their manuscript sources the lives and milieu of the two Greek scholars The Latin texts themselves are accompanied by facing English translations and extensive notes **The Apocryphal Gospels of Mary in Anglo-Saxon England** Mary Clayton, 1998 This book provides an edition translation and commentary of the three apocryphal gospels of Mary written in

Anglo-Saxon England: Volume 30 Michael Lapidge, Malcolm Godden, Simon Keynes, 2002-07-12 The pre eminence of Anglo Saxon England in its field can be seen as a result of its encouragement of interdisciplinary approaches to the study of all aspects of Anglo Saxon culture Thus this volume includes an important assessment of the correspondence of St Boniface in which it is shown that the unusually formulaic nature of Boniface s letters is best understood as a reflex of the saint s familiarity with vernacular composition A wide ranging historical contextualization of The Letter of Alexander to Aristotle illuminates the way English readers of the later tenth century may have defined themselves in contradistinction to the monstrous unknown and a fresh reading of the gendering of female portraiture in a famous illustrated manuscript of the Psychomachia of Prudentius CCCC 23 shows the independent ways in which Anglo Saxon illustrators were able to respond to their models The usual comprehensive bibliography of the previous year s publications rounds off the book and a full index of the contents of volumes 26 30 is provided Previous indexes have appeared in volumes 5 10 15 20 and 25 The Text of the Old Testament in Anglo-Saxon England Richard Marsden, 1995-11-02 This 1995 book is a study of the transmission of the Vulgate Old Testament in Anglo Saxon England *English Caroline Script and Monastic History* D. N. Dumville, 1993 An analysis and study of Caroline script from 200 years of ecclesiastical and secular records reveals important historical detail relating to late Anglo Saxon England **Anglo-Saxon Women and the Church** Stephanie Hollis, 1992 A fresh look at the position of women in the 8th and 9th centuries as defined by the literature of the early church **Tradition and Belief** Clare A. Lees, In this major study of Anglo Saxon religious texts sermons homilies and saints lives written in Old English Clare A Lees reveals how the invention of preaching transformed the early medieval church and thus the culture of medieval England in placing Anglo Saxon prose within a social matrix her work offers a new way of seeing medieval literature through the lens of cultures To show how the preaching mission of the later Anglo Saxon church was constructed and received Lees explores the emergence of preaching from the traditional structures of the early medieval church its institutional knowledge

genres and beliefs Understood as a powerful rhetorical social and epistemological process preaching is shown to have helped define the sociocultural concerns specific to late Anglo Saxon England The first detailed study of traditionality in medieval culture Tradition and Belief is also a case study of one cultural phenomenon from the past As such and by concentrating on the theoretically problematic areas of history religious belief and aesthetics the book contributes to debates about the evolving meaning of culture

Charters of Malmesbury Abbey S. E. Kelly, 2005 Malmesbury Abbey was one of the few English minsters which had a continuous existence from the seventh to the sixteenth century and the Malmesbury archive is a particularly important witness to the history of Wessex and the West Saxon church in the pre Viking period More than half of the surviving charters purport to date from the seventh and eighth centuries many of them directly associated with Malmesbury s most celebrated abbot the scholar and poet Aldhelm This volume is the first scholarly edition of Malmesbury s pre Conquest charters The Malmesbury archive poses a particularly difficult editorial challenge since the manuscripts are generally late and the abbey s scribes were prone to forgery and the improvement of their muniments Although the abbey had its own celebrated post Conquest historian in William of Malmesbury regrettably little detailed information has survived about the early history of the monastery Nevertheless analysis of the charters has made it possible to build up a fairly coherent picture of Malmesbury s development in the first four centuries of its existence This volume provides an important background to William of Malmesbury s *De gestis pontificorum Anglorum* and includes significant new material for the study of William s use of historical documents Charters of Malmesbury Abbey is comprised of editions of thirty five charters and also a small group of separate boundary surveys with expert detailed commentaries on their historical and topographical importance The charters are prefaced by a lengthy introduction which presents a new synthesis of the history of the abbey and an extensive bibliography

Churches and Churchmen in Medieval Europe C. N. L. Brooke, 1999-01-01 Considers many facets of the medieval church dealing with institutions buildings personalities and literature The text explores the origins of the diocese and the parish the history of the See of Hereford and of York Minster It discusses the arrival of the archdeacon the Normans as cathedral builders and the kings of England and Scotland as monastic patrons The studies of monastic life deal with the European question of monastic vocation and with St Bernard s part in the sensational expansion of the early 12th century An epilogue takes us to the 14th century contrasting Chaucer s parson with an actual Norfolk rector

Myth, Rulership, Church and Charters Andrew Wareham, 2017-03-02 For more than forty years Nicholas Brooks has been at the forefront of research into early medieval Britain In order to honour the achievements of one of the leading figures in Anglo Saxon studies this volume brings together essays by an internationally renowned group of scholars on four themes that the honorand has made his own myths rulership church and charters Myth and rulership are addressed in articles on the early history of Wessex the fall of Mercia and the battle of Brunanburh contributions concerned with charters explore the means for locating those hitherto lost the use of charters in the study of place names their role as instruments of agricultural

improvement and the reasons for the decline in their output immediately after the Norman Conquest Nicholas Brooks's long standing interest in the church of Canterbury is reflected in articles on the Kentish minster of Reculver which became a dependency of the church of Canterbury on the role of early tenth century archbishops in developing coronation ritual and on the presentation of Archbishop Dunstan as a prophet Other contributions provide case studies of saints cults with regional and international dimensions examining a mass for St Birinus and dedications to St Clement while several contributions take a wider perspective looking at later interpretations of the Anglo Saxon past both in the Anglo Norman and more modern periods This stimulating and wide ranging collection will be welcomed by the many readers who have benefited from Nicholas Brooks's own work or who have an interest in the Anglo Saxon past more generally It is an outstanding contribution to early medieval studies

Anglo-Saxon Perceptions of the Islamic World Katharine Scarfe Beckett, 2003-10-16 In this book Scarfe Beckett is concerned with representations of the Islamic world prevalent in Anglo Saxon England Using a wide variety of literary historical and archaeological evidence she argues that the first perceptions of Arabs Ismaelites and Saracens which derived from Christian exegesis preconditioned western expressions of hostility and superiority towards peoples of the Islamic world and that these received ideas prevailed even as material contacts increased between England and Muslim territory Medieval texts invariably represented Muslim Arabs as Saracens and Ismaelites or Hagarenes described by Jerome as biblical enemies of the Christian world three centuries before Muhammad's lifetime Two early ideas in particular that Saracens worshipped Venus and dissembled their own identity continued into the early modern period This finding has interesting implications for earlier theses by Edward Said and Norman Daniel concerning the history of English perceptions of Islam

Kingship, Society, and the Church in Anglo-Saxon Yorkshire Thomas Pickles, 2018-11-08 Inspired by studies of Carolingian Europe *Kingship Society and the Church in Anglo Saxon Yorkshire* argues that the social strategies of local kin groups drove conversion to Christianity and church building in Yorkshire from 400 1066 AD It challenges the emphasis that has been placed on the role and agency of Anglo Saxon kings in conversion and church building and moves forward the debate surrounding the minster hypothesis through an inter disciplinary case study Members of Deiran kin groups faced uncertainties that predisposed them to consider conversion as a social strategy in their rule between 600 and 867 Their decision to convert produced a new social fraction the ecclesiastical aristocracy with a distinctive but fragile identity The ecclesiastical aristocracy transformed kingship established a network of religious communities and engaged in the conversion of the laity The social and political instabilities produced by conversion along with the fragility of ecclesiastical identity resulted in the expropriation and re organization of many religious communities Nevertheless the Scandinavian and West Saxon kings and their nobles allied with wealthy and influential archbishops of York and there is evidence for the survival revival or foundation of religious communities as well as the establishment of local churches
