Rolls of Rolls-Royce Edward John Barrington Douglas-Scott-Montagu Baron Montagu of Beaulieu,1966      *Rolls of Rolls-Royce. A biography of the Hon. C. S. Rolls. Research by Michael Sedgwick. [With plates, including portraits.]*. Edward John Barrington Douglas Scott MONTAGU (Baron Montagu of Beaulieu.),Charles Stewart Rolls,Michael SEGWICK,1966

**The Rolls-Royce Men** John Rowland,1969 The life of two Englishmen from very different backgrounds who combined skills to produce one of the most famous automobiles in the world      **Dictionary of World Biography: The 20th century, O-Z** Frank Northen Magill,Christina J. Moose,Alison Aves,1999-11 Each volume of the Dictionary of World Biography contains 250 entries on the lives of the individuals who shaped their times and left their mark on world history This is not a who s who Instead each entry provides an in depth essay on the life and career of the individual concerned Essays commence with a quick reference section that provides basic facts on the individual s life and achievements The extended biography places the life and works of the individual within an historical context and the summary at the end of each essay provides a synopsis of the individual s place in history All entries conclude with a fully annotated bibliography      **The Men Who Gave Us Wings** Peter Reese,2014-04-02 Why did the British then the leading nation in science and technology fall far behind in the race to develop the aeroplane before the First World War Despite their initial advantage they were overtaken by the Wright brothers in America by the French and the Germans Peter Reese in this highly readable and highly illustrated account delves into the fascinating early history of aviation as he describes what happened and why He recalls the brilliant theoretical work of Sir George Cayley the inventions of other pioneers of the nineteenth century and the daring exploits of the next generation of airmen among them Samuel Cody A V Roe Bertram Dickson Charles Rolls and Tommy Sopwith His narrative is illustrated with a wonderful selection of over 120 archive drawings and photographs which record the men and the primitive flying machines of a century ago As featured on BBC Radio Surrey and in Essence Magazine      **The 20th Century O-Z** Frank N. Magill,2013-05-13 Each volume of the Dictionary of World Biography contains 250 entries on the lives of the individuals who shaped their times and left their mark on world history This is not a who s who Instead each entry provides an in depth essay on the life and career of the individual concerned Essays commence with a quick reference section that provides basic facts on the individual s life and achievements The extended biography places the life and works of the individual within an historical context and the summary at the end of each essay provides a synopsis of the individual s place in history All entries conclude with a fully annotated bibliography      International Bibliography of Business History Francis Goodall,Terry Gourvish,Steven Tolliday,2013-12-16 The field of business history has changed and grown dramatically over the last few years There is less interest in the traditional company centred approach and more concern about the wider business context With the growth of multi national corporations in the 1980s international and inter firm comparisons have gained in importance In addition there has been a move towards improving links with mainstream economic financial and

social history through techniques and outlook The International Bibliography of Business History brings all of the strands together and provides the user with a comprehensive guide to the literature in the field The Bibliography is a unique volume which covers the depth and breadth of research in business history This exhaustive volume has been compiled by a team of subject specialists from around the world under the editorship of three prestigious business historians **Frank McClean** Philip Jarrett, 2011-07-13 During aviation's pioneering years Francis Kennedy McClean used his vast inherited wealth to help the now famous Short Brothers company become established as one of Britain's greatest aircraft manufacturers and in doing so he helped the Royal Navy's first pilots into the air In effect he was Godfather to British naval aviation But McClean did much more than even that He was himself a balloonist and pioneer aviator flying with Wilbur Wright in France in December 1908 He provided the Royal Aero Club with one of the first flying grounds in the UK personally purchased no fewer than sixteen aeroplanes from Short Brothers before the First World War and also acted as the company's unpaid test pilot Convinced that aviation was destined to play a vital role in the nation's defence he made his own aeroplanes freely available for training and ensured that the Navy had a suitable site from which to fly founding England's first naval flying school at Eastchurch in Kent His flight up the Thames to Westminster on 10 August 1912 during which he flew between the upper and lower spans of Tower Bridge and passed beneath the other bridges caught the public imagination but despite all these achievements he remained unassuming modest and reticent This is a fascinating and informative account of McClean's great influence on early aviation and his achievements and significant contribution to naval aviation are revealed here for the first time *Dictionary of National Biography* Sir Sidney Lee, 1912 **Dictionary of National Biography: Neil-Young** Sir Sidney Lee, 1912 *Library of Congress Catalog* Library of Congress, 1970 *The Dictionary of National Biography* Leslie Stephen, Sir Sidney Lee, 1920 **A Life Awheel** Richard Skelton, Wilberforce de Forte, 2016 Born in Shropshire soon after the end of the First World War venerable motoring writer W de Forte has driven everything from his grandfather's first Daimler to modern day supercars ridden everything from vertiginous Victorian penny farthings to high velocity twenty first century superbikes travelled everywhere from the permafrost of the Arctic Circle to the baking sands of the Baja Peninsula and met everyone from Tazio Nuvolari to Valentino Rossi W de Forte enjoyed an eventful career as a top level journalist spanning 75 years during which time he tested many thousands of cars and reported on countless automotive events around the world This made him uniquely qualified to comment on all aspects of classic and vintage motoring and motorcycling Relatively undimmed by age and age even in his 90s de Forte had no plans to retire but in early 2011 a high speed prang while testing a wayward Rudge Ulster at a racing circuit in Belgium brought him up with a jolt both literally and metaphorically After recuperating in hospital he settled down to write his long awaited and much requested autobiography This unique and insightful book is the result Packed with fascinating stories about classic cars and motorcycles **A Life Awheel** the Auto Biography of W de Forte is an account of an extraordinary motoring life and the story of motoring in the 20th

century **The Birth of Independent Air Power** Malcolm Cooper, 2021-03-30 In forming the Royal Air Force on 1 April 1918 Britain created the world's first independent air service Britain entered the First World War with less than 200 ill assorted flying machines divided between the army and the navy but by the end of the war the RAF mustered almost 300 000 personnel and 22 000 aircraft Originally published in 1986 more than 65 years after the event the decision to form the RAF remained poorly understood and Malcolm Cooper presented the first detailed modern analysis of its creation shedding new light on the process by which Britain entered the air age Set against the background of the build up of air power during the First World War the book explains how deepening political concern at failures in home air defence public demands for retaliatory air action against Germany problems of mobilization and expansion in the aircraft industry and disagreements between the existing army and navy air services combined to create the conditions for an independent air force The author argues that the pressures of war were insufficient to give real substance to the RAF's independence and that its failure to escape from its wartime role as an ancillary service was also of crucial significance in the evolution of British air strategy in later years Based on an extensive study of official documents and private papers and amply illustrated with contemporary photographs this title will prove invaluable in understanding both strategic thinking in the Great War and the early development of a form of warfare which dominated military and naval operations in the twentieth century **A Modern History of the English People** Richard Henry Gretton, 1929 Country Life, 1909 The Life of the Automobile Steven Parissien, 2014-05-13 The Life of the Automobile is the first comprehensive world history of the car The automobile has arguably shaped the modern era more profoundly than any other human invention and author Steven Parissien examines the impact development and significance of the automobile over its turbulent and colorful 130 year history Readers learn the grand and turbulent history of the motor car from its earliest appearance in the 1880s as little more than a powered quadricycle and the innovations of the early pioneer carmakers The author examines the advances of the interwar era the Golden Age of the 1950s and the iconic years of the 1960s to the decades of doubt and uncertainty following the oil crisis of 1973 the global mergers of the 1990s the bailouts of the early twenty first century and the emergence of the electric car This is not just a story of horsepower and performance but a tale of extraordinary people of intuitive carmakers such as Karl Benz Sir Henry Royce Giovanni Agnelli Fiat Andr Citro n and Louis Renault of exceptionally gifted designers such as the eccentric Ohio born Chris Bangle BMW and of visionary industrialists such as Henry Ford Ferdinand Porsche the Volkswagen Beetle and Gene Bordinat the Ford Mustang among numerous other game changers Above all this comprehensive history demonstrates how the epic story of the car mirrors the history of the modern era from the brave hopes and soaring ambitions of the early twentieth century to the cynicism and ecological concerns of a century later Bringing to life the flamboyant entrepreneurs shrewd businessmen and gifted engineers that worked behind the scenes to bring us horsepower and performance The Life of the Automobile is a globe spanning account of the auto industry that is sure to rev the engines of

entrepreneurs and gearheads alike      Dictionary of National Biography: Neil-Young ,1912      **History of Technology**  
**Volume 26** Ian Inkster,2010-07-15 The technical problems confronting different societies and periods and the measures taken to solve them form the concern of this annual collection of essays It deals with the history of technical discovery and change and explores the relationship of technology to other aspects of life social cultural and economic and shows how technological development has shaped and been shaped by the society in which it occurred      *The Dictionary of National Biography* ,1920
