Time in the Eternal City ,2020-10-12 Time in the Eternal City Perceiving and Controlling Time in Late Medieval and Renaissance Rome is a major contribution to the study of time and its numerous aspects in late medieval and Renaissance Rome The authors offer a versatile view on the variety of ways time could be perceived Individual chapters concentrate on the grass root levels of everyday life on various uses of the past in the present as well as on the control of time by the ecclesiastical authorities These studies reveal a wealth of new information that demonstrates the almost endlessly fluid manner in which time could be perceived as well as the innovative ways in which time could be used by individuals and authorities alike Contributors are members of Tuomas Heikkil s research group at the Finnish Institute in Rome Holger Kaasik Urpo Kantola Marko Halonen Jasmin Lukkari and Saku Pihko *The Vatican «Ostpolitik» 1958-1978* Autori

Vari,2017-04-06T00:00:00+02:00 The appraisal of the political dialogue and negotiations with the communist regimes of East Central Europe commenced by the Holy See in the 1960s did not provoke only lively debates among contemporaries but remains to the present day one of the most debated questions of the twentieth century history should it be assessed as a fixed path to which no alternative existed or was it a flawed initiative which merely served the international legitimacy of the communist totalitarian system This volume enriches the results of earlier historiography with new perspectives and confirms inter alia that a black and white reading often based on a one sided use of sources of Ostpolitik is incorrect just as the critical assessment which frequently places local considerations at the forefront requires revision the at times apologetic outlook defending the Vatican s Eastern policy is also untenable Only a nuanced and source focused analysis of the ambitions of the Roman and Muscovite centers and of local politics and Churches as well as dialogue between the various research trends can help us to gain a more thorough knowledge of and make us better understand those fixed paths upon which the Roman and local ecclesiastics of the era were forced to travel and which limited the possibility of success
