*Anti-Semitism and Schooling Under the Third Reich* Gregory Wegner, 2014-02-04 This book investigates the anti-Semitic foundations of Nazi curricula for elementary schools with a focus on the subjects of biology, history, and literature. Gregory Paul Wegner argues that any study of Nazi society and its values must probe the education provided by the regime. Schools, according to Wegner, play a major role in advancing ideological justifications for mass murder and in legitimizing a culture of ethnic and racial hatred. Using a variety of primary sources, Wegner provides a vivid account of the development of Nazi education.

*Beyond Eurocentrism and Anarchy* S. Grovogui, 2016-04-30 This book re-evaluates international knowledge in light of recent scholarship in the fields of hermeneutics, ethnography, and historiography regarding the non-West, the past, and the present of international society. It offers a view of the present in the form of a critique of Eurocentrism and occidentalist views of the postwar order.

*Roma, Gypsies* Marielle Danbakli, 2001 A collection of texts in a single handy volume issued by the European Community, the Council, and the European Parliament, the Council of Europe, including the Committee of Europe, CLARAE, CAHID, and the CDCC, and other international institutions, including the Conference on Security and Cooperation in Europe, the United Nations, and the UN High Commission for Refugees.

*The Oxford Handbook of the Jesuits* Ines G. Županov, 2019 Through its missionary, pedagogical, and scientific accomplishments, the Society of Jesus, known as the Jesuits, became one of the first institutions with a truly global reach in practice and intention. The Oxford Handbook of the Jesuits offers a critical assessment of the Order, helping to chart new directions for research at a time when there is renewed interest in Jesuit studies. In particular, the Handbook examines their resilient dynamism and innovative spirit grounded in Catholic theology and Christian spirituality but also profoundly rooted in society and cultural institutions. It also explores Jesuit contributions to education, the arts, politics, and theology among others. The volume is organized in seven major sections totaling forty articles on the Order's foundation and administration, the theological underpinnings of its activities, the Jesuit involvement with secular culture, missiology, the Order's contributions to the arts and sciences, the suppression the Order endured in the 18th century, and finally, the restoration. The volume also looks at the way the Jesuit Order is changing, including becoming more non-European and ethnically diverse, with its members increasingly interested in engaging society in addition to traditional pastoral duties.

*Renaissance Humanism*, 2014-03-14 By far the best collection of sources to introduce readers to Renaissance humanism in all its many guises. What distinguishes this stimulating and useful anthology is the vision behind it. King shows that Renaissance thinkers had a lot to say not only about the ancient world, one of their habitual passions, but also about the self, how civic experience was configured, the arts, the roles and contributions of women, the new science, the new world, and so much more.

**The Routledge Companion to Global Literary Adaptation in the Twenty-First Century** Brandon Chua, Elizabeth Ho, 2023-03-10 The Routledge Companion to Global Literary Adaptation in the Twenty-First

Century offers new perspectives on contemporary literary adaptation as a dynamically global field. Featuring contributions from an international team of established and emerging scholars, this volume considers literary adaptation to be a complex global network of influences, appropriations, and audiences across a diversity of media. It offers site-specific case studies that situate literary adaptation within global market forces while challenging the homogenizing effects of globalization on local literatures and adaptation practices. The collection also provides a multi-disciplinary and transnational discussion around a wide array of topics in literary adaptation in a global context, such as soft power, decolonization, global justice, the posthuman, eco-criticism, and forms of activism. This Companion provides scholars, researchers, and students with a survey of key methodologies, current debates, and ideologies emerging from a new and exciting phase in literary adaptation. *Daily Report*, 1990-07 *International Record of Medicine and General Practice Clinics* Frank Pierce Foster, 1901

*International Library of Technology*, 1903 **Bulletin of the Atomic Scientists**, 1972-09 The Bulletin of the Atomic Scientists is the premier public resource on scientific and technological developments that impact global security. Founded by the Manhattan Project Scientists, the Bulletin's iconic Doomsday Clock stimulates solutions for a safer world. Portraits of Women in International Law Immi Tallgren, 2023-04-15 Current histories seem to suggest that men alone have been capable of the development of ideas, analysis, and practice of international law until the 1990s. Is this the case? Or have others been erased from the collective images of this history, including the portrait gallery of notables in international law? *Portraits of Women in International Law: New Names and Forgotten Faces* investigates the slow and late inclusion of women in the spheres of knowledge and power in international law. The forty-two textual and visual representations by a diverse team of passionate portraitists represent women and gender-nonconforming people in international law from the fourteenth century onwards, around the world: individuals and groups who imagined, developed, or contested international law; who earned their living in its institutions; or who even indirectly may have changed its course. This rich volume calls for a critical identification of the formal and informal institutional practices, norms, and rituals of white masculinities both in the past and in the research of international law today. By abandoning reductive histories, their biased frames, and tacit assumptions, this work brings previously unseen glimpses of international law and its agents' ideas, causes, behaviour, norms, and social practices into the spotlight. **The Routledge Handbook of the New African Diasporic Literature** Lokangaka Losambe, Tanure Ojaide, 2024-05-16 The Routledge Handbook of the New African Diasporic Literature introduces world literature readers to the transnational, multivocal writings of immigrant African authors. Covering works produced in Europe, North America, and elsewhere in the world, this book investigates three major aesthetic paradigms in African diasporic literature: the Sankofa wave (late 1960s–early 1990s), the Janusian wave (1990s–2020s), and the Offshoots of the New Arrivants (those born and growing up outside Africa). Written by well-established and emerging scholars of African and diasporic literatures from across the world, the chapters in the book cover the works of well-known and not so well-known Anglophone, Francophone, and

Lusophone writers from different theoretical positionalities and critical approaches pointing out the unique innovative artistic qualities of this major subgenre of African literature The focus on the diasporic consciousness of the writers and their works sets this handbook apart from others that solely emphasize migration which is more of a process than the community of settled African people involved in the dynamic acts of living reflected in diasporic writings This book will appeal to researchers and students from across the fields of Literature Diaspora Studies African Studies Migration Studies and Postcolonial Studies
