The Rights of Roma in European Courts Kristin Henrard, Lilla Farkas, 2025-05-26 The abundance of Roma rights cases before international and European courts reflects the Roma's systemic marginalization as well as their resolve to push the boundaries of human rights law. The Roma have increasingly raised concerns through strategic litigation urging the courts to develop their jurisprudence and adjust the scope of human rights applications. This edited volume examines these cases exploring the extent to which strategic litigation can and does push the boundaries of human rights. Adopting a long needed yet untested approach the volume situates Roma rights within the broader human rights edifice and identifies its key contributions. The volume focuses on the quasi jurisprudence of the European Court of Human Rights, the Court of Justice of the EU and the European Committee of Social Rights with several chapters also drawing parallels with jurisdictions beyond Europe. Its contributing authors span a broad range of disciplines including human rights law, political science, climate justice and ethnology. Combining rich doctrinal and socio legal analysis, *The Rights of Roma in European Courts* is an unparalleled resource for scholars and practitioners seeking to understand the systemic discrimination faced by the Roma and explore legal solutions for countering it.

The Challenges of European Governance in the Age of Economic Stagnation, Immigration, and Refugees Henry F. Carey, 2016-12-20 This book examines the political and legal challenges of regional governance of the 28 countries of the European Union and the 48 in the Council of Europe. The contributions, dilemmas and moral hazards from this record of nearly seven decades of regional inter governmental institutions has kept the peace but produced episodes of crisis from overstretching jurisdictions thematically and geographically. Polarization between nationalist and integrative forces has displaced the idealistic aspirations of prior decades to build the rule of law and deter violence. Academics and policy makers will learn from the various legal and political efforts to integrate supranational and inter governmental agencies with national political systems.

Foreigners, Refugees or Minorities? Didier Bigo, 2016-04-15 When immigration policy and the treatment of Roma collide in international relations there are surprising consequences which are revelatory of the underlying tensions between internal and external policies in the European Union. This book examines the relationship of citizenship, ethnicity and international relations and how these three aspects of the State, its people and its neighbours relate to one another. It studies the wide issue of international relations, citizenship and minority discrimination through the lens of the case study of European Roma who seek refugee status in Canada on account of their persecution in Europe. The volume assesses the relationships among citizenship, state protection and persecution and minority status and how they can intersect with and destabilize foreign affairs. The central background to the book is the European treatment of Roma, their linkages with visa and asylum policies and their human rights repercussions. The various contributions reveal how modern liberal democracies can find themselves in contradictory positions concerning their citizens when these are looking for protection abroad and foreigners in search of

international protection as a consequence of visa and pre border surveillance policies and practices The fringes of citizenship Julija Sardelic, 2021-07-27 This electronic version has been made available under a Creative Commons BY NC ND open access license This book presents a socio legal enquiry into the civic marginalisation of Roma in Europe Instead of looking only at Roma s position as migrants an ethnic minority or a socio economically disadvantage group it considers them as European citizens questioning why they are typically used to describe exceptionalities of citizenship in developed liberal democracies rather than as evidence for how problematic the conceptualisation of citizenship is at its core Developing novel theoretical concepts such as the fringes of citizenship and the invisible edges of citizenship the book investigates a variety of topics around citizenship including migration and free movement statelessness and school segregation as well as how marginalised minorities respond to such predicaments It argues that while Roma are unique as a minority the treatment that marginalises them is not This is demonstrated by comparing their position to that of other marginalised minorities around the globe **Open Borders, Unlocked Cultures** Yaron Matras, Daniele Leggio, 2017-07-28 The book examines some of the dilemmas surrounding Europe s open borders migrations and identities through the prism of the Roma Europe s most dispersed and socially marginalised population The volume challenges some of the myths surrounding the Roma as a problem population and places the focus instead on the context of European policy and identity debates It comes to the conclusion that the migration of Roma and the constitution of their communities is shaped by European policy as much as and often more so than by the cultural traits of the Roma themselves The chapters compare case studies of Roma migrants in Spain Italy France and Britain and the impact of migration on the origin communities in Romania The study combines historical and ethnographic methods with insights from migration studies drawing on a unique multi site collaborative project that for the first time gave Roma participants a voice in shaping research into their communities Chapters 1 and 7 of this book are freely available as downloadable Open Access PDFs at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license **The Irregularization of Migration in Contemporary Europe** Yolande Jansen, Robin Celikates, Joost de Bloois, 2014-12-12 Working from an interdisciplinary perspective that draws on the social sciences legal studies and the humanities this book investigates the causes and effects of the extremities experienced by migrants Firstly the volume analyses the development and political cultural conditions of current practices and discourses of bordering illegality and irregularization Secondly it focuses on the varieties of irregularization and on the diversity of the fields techniques and effects involved in this variegation Thirdly the book examines examples of resistance that migrants and migratory cultures have developed in order to deal with the predicaments they face The book uses the European Union as its case study exploring practices and discourses of bordering border control and migration regulation But the significance of this field extends well beyond the European context as the monitoring of Europe s borders increasingly takes place on a global scale and reflects an internationally increasing trend Chinese Migration to Europe Graeme Johanson, Narelle

McAuliffe, Massimo Bressan, 2015-05-26 Through an analysis of Chinese migration to Europe this volume examines the most pressing migration and integration issues facing many societies today from the political and policy based challenges of managing increasingly diverse communities to individual lived experiences of identity and belonging In addition to chapters on the UK France and Italy the book spotlights one of the most extraordinary examples of Chinese migration to Europe that provided by the city of Prato just 20km from Florence in Tuscany Italy Renowned for its historic textile industry Prato is now home to one of the largest populations of Chinese residents in Europe a phenomenon that is remarkable not only for its magnitude but also for the speed with which it has developed This edited collection which brings together twenty seven separate contributors deepens our understanding of the case of Prato within the context of Chinese migration to the new Europe
