*Ethics, Identity, and Community in Later Roman Declamation* Neil W. Bernstein, 2013-07-29 Rhetorical training was the central component of an elite Roman man's education and declamations imaginary courtroom speeches in the character of a fictional or historical individual were the most advanced exercises in the standard rhetorical curriculum The Major Declamations is a collection of nineteen full length Latin speeches attributed in antiquity to Quintilian but most likely composed by a group of authors in the second and third centuries CE Though there has been a recent revival of interest in Greco Roman declamation the Major Declamations has generally been neglected *Ethics Identity and Community in Later Roman Declamation* is the first book devoted exclusively to the Major Declamations and its reception in later European literature It argues that the fictional scenarios of the Major Declamations enable the conceptual exploration of a variety of ethical and social issues Chapters explore these cultural matters covering in turn the construction of authority the verification of claims the conventions of reciprocity and the ethics of spectatorship The book closes with a study of the reception of the collection by the Renaissance humanist Juan Luis Vives and the eighteenth century scholar Lorenzo Patarol followed by a brief postscript that deftly surveys the use of declamatory exercises in the contemporary university This much needed and engaging study will rescue the Major Declamations from generations of neglect while critically informing current work in rhetorical studies

**Latinity and Literary Society at Rome** W. Martin Bloomer, 2015-09-11 For centuries after the fall of the Roman empire the ability to write and speak pure Latin was the mark of the true scholar But although such skill was esteemed in medieval times the language of ancient Rome was as various as the styles of slaves and masters *Latinity and Literary Society at Rome* reaches back to the early Roman empire to examine attitudes toward latinity reviewing the contested origins of scholarly Latin in the polemical arena of Roman literature W Martin Bloomer shows how that literature's reflections on correct and incorrect speech functioned as part of a wider understanding of social relations and national identity in Rome Bloomer's investigation begins with questions about the sociology of Latin literature what interests were served by the creation of high style and how literary stylization constituted a system of social decorum and goes on to offer readings of selected texts Through studies of works ranging from Varro's *De lingua latina* to the verse fables of Augustine's freeman Phaedrus to the *Annals* of Tacitus Bloomer examines conflicting claims to style not simply to set true Latin against vulgarism but also to ask who is excluding whom why and by what means These texts exemplify the ways Roman literature employs representations of and reflections on proper and improper language to mirror the interests of specific groups who wished to maintain or establish their place in Roman society They show how writers sought to influence the fundamental social issue of who had the power to confer legitimacy of speech and how their works used claims of linguistic propriety to reinforce the definition of Romanness Through Bloomer's study latinity emerges as a contested field of identity and social polemic heretofore unrecognized in classical scholarship With its fresh interpretations of major and minor

Traditionally scholars have approached Roman sexuality using categories of sexual ethics drawn from contemporary Western society In this 2006 book Dr Langlands seeks to move away from these towards a deeper understanding of the issues that mattered to the Romans themselves and the ways in which they negotiated them by focusing on the untranslatable concept of pudicitia broadly meaning sexual virtue She offers a series of nuanced close readings of texts from a wide spectrum of Latin literature including history oratory love poetry and Valerius Maximus work Memorable Deeds and Sayings Pudicitia emerges as a controversial and unsettled topic at the heart of Roman debates about the difference between men and women the relation between mind and body and the ethics of power and status differentiation within Roman culture The book develops strategies for approaching the study of an ancient culture through sensitive critical readings of its literary productions
