Roman Hospitality:

Roman Hospitality John F. DeFelice, 2001 *Hospitality in Early Rome* Ladislaus J. Bolchazy, 1977 An original and pioneering study of the step by step development of the law of hospitality Hospitality in Antiquity offers an illuminating analysis of an ethical concept that played an important role in antiquity It was a concept that predisposed the Graeco Roman world toward the ethical imperative of the brotherhood of man and the Stoic concept of the mystical body Bolchazy's work resulting from comparative studies of ancient and modern primitive societies and of classical mythology and literature shows how human relationships evolved from xenophobia to altruism in several discernable stages 1 absolute xenophobia 2 apotropaic stage of hospitality 3 Medea stage 4 theoxenic stage of hospitality 5 the jus hospitii jus dei stage 6 contractual stage 7 altruistic stage of hospitality all culminating in the pre Christian Stoic doctrine of the mystical body The work further analyses Livy's endorsement of hospitality as more humanitarian than the imperialistic virtues of virtus clementia justitia and pietas on the political platform of Augustus The significance of the work lies in its contribution to the fields of ethics history of religion Livian studies cultural anthropology of the pre classical and classical world and to Christian ethical syncretism

Identity, Otherness and Empire in Shakespeare's Rome Maria Del Sapio Garbero, 2016-12-14

Contributors to this collection delve into the relationship between Rome and Shakespeare They view the presence of Rome in Shakespeare's plays not simply as an unquestioned model of imperial culture or a routine chapter in the history of literary influence but rather as the problematic link with a distant and foreign ancestry which is both revered and ravaged in its translation into the terms of the Bard's own cultural moment During a time when England was engaged in constructing a rhetoric of imperial nationhood the contributors demonstrate that Englishmen used Roman history and the classical heritage to mediate a complex range of issues from notions of cultural identity and gender to the representation of systems of exchange with Otherness in the expanding ethnic space of the nation This volume addresses matters of concern not only for Shakespeare scholars but also for students interested in issues connected with gender postcolonialism and globalization Drawing implicitly or explicitly on recent criticism intertextual studies postcolonial theory Derrida's conceptualization of hospitality gender studies global studies the essayists explore how the Roman Shakespeare of an emerging early modern empire asks questions of our present as well as of our past

The Oxford Handbook of Social Relations in the Roman World Michael Peachin, 2011

The study of Roman society and social relations blossomed in the 1970s By now we possess a very large literature on the individuals and groups that constituted the Roman community and the various ways in which members of that community interacted There simply is however no overview that takes into account the multifarious progress that has been made in the past thirty odd years The purpose of this handbook is twofold On the one hand it synthesizes what has

heretofore been accomplished in this field On the other hand it attempts to configure the examination of Roman social relations in some new ways and thereby indicates directions in which the discipline might now proceed The book opens with a substantial general introduction that portrays the current state of the field indicates some avenues for further study and provides the background necessary for the following chapters It lays out what is now known about the historical development of Roman society and the essential structures of that community In a second introductory article Clifford Ando explains the chronological parameters of the handbook The main body of the book is divided into the following six sections 1 Mechanisms of Socialization primary education rhetorical education family law 2 Mechanisms of Communication and Interaction 3 Communal Contexts for Social Interaction 4 Modes of Interpersonal Relations friendship patronage hospitality dining funerals benefactions honor 5 Societies Within the Roman Community collegia cults Judaism Christianity the army and 6 Marginalized Persons slaves women children prostitutes actors and gladiators bandits The result is a unique up to date and comprehensive survey of ancient Roman society
